The Legislature.

Both Houses assembled yesterday at 12 o'clock. The Senators elect from Richland, All Saints, Orange, and Williamsburg appeared and were qualified.

In the Senate Mr. Quattlebaum announced, in some very feeling remarks, the death of Mr. Felder, late Senator from Orange, and offered the customary resolutions; after which the Senate adjourned.

In the House, after being organized, members elect from Abbeville, Edgefield, and Pendleton appeared, and were qualified.

Mr. Preston presented a petition praying for a recharter of the Commercial Bank of Columbia, and gave notice that he would ask leave to introduce a bill for that purpose.

Mr. Abney gave notice that he would ask leave to introduce a bill to prevent the introduction of slaves into this State.

Mr. Poppenheim gave notice that on Thursday next he would introduce a bill to prevent the citizens of any State, where the execution of the fugitive slave law was obstructed, from using the courts of this State for the collection of debts or the enforcement of any contract.

Sundry petitions and presentments and notices of bills were offered.

The reporters of the South Carolina, Edgefield Advertiser, and Charleston Courier were allowed seats on the floor of the House.

In both Houses the usual committees were appointed to wait upon his Excellency the Governor, and reported that he would communicate with both Houses to-day at one o'clock.—Carolinian, 25th inst.

The Difficulty with Spain &c.

BALTIMORE, Nov. 21. The Spanish Minister dined with Mr. Webster at Washington yesterday. The difficulty has been amicably settled, and the prisoners now in Spanish custody are to be released.

A very serious and melancholy accident occurred in a school house in New York City. During an alarm of fire, the children in their fright, made a rush for the steps in order to descend into the street, when the banisters attached to the staircase in the third story gave way, and precipitated one hundred and twenty of them down an area of thirty feet.

Forty-eight were taken on a stretcher, and seventy of whom are reported to be dead to-day. There were over eighteen hundred children in the school.

MR. THRASHER CONDEMNED.—The Isabe from Havana brings news that Mr. Thrasher has been tried by a jury of six, and convicted of treason, and sentenced to eight years' labor in the chain-gang, in the quick-silver mines.

We are informed that Mr. Thrasher, having established a newspaper in Havana, had taken certain oaths to the Spanish Government, which are, we believe, necessary to be taken by foreigners, prior to their permission being granted to them to engage in business there, and that consequently he was regarded as a Spanish subject, and tried according to the laws of Spain.

Mr. Owens, it is stated, attended the session of the court, which consisted of a president and six members—three of whom were for granting and three for imprisoning Mr. Thrasher, but the casting vote of the president decided in favor of imprisonment.

The Courier has heard, likewise, a rumor, the authenticity of which, however, we do not touch for, to the effect that Mr. Owen was not tendered a seat, but was kept standing in the gallery, and a number of the citizens and the congregation were in attendance.

PROGRESS OF AMERICAN MANUFACTURES.—The New York Dry Goods Reporter, after noticing the production of prints, after the style of high priced French goods, observes: One after another the manufacturers of Europe are obliged to retire from the field, leaving American producers to supply American consumers.

First we obtained the market for brown cottons, and the production of bleached goods followed as a natural consequence. We then attempted prints. The victory on the goods is within our grasp already. Importer after importer of the British article. We next attempted the casimere fabric, and have reduced the importation so low, that none beside those engaged in supplying tailors can import them to advantage, and even they do not repeat an order.

The shawl making was believed by Samuel Lawrence, Esq., to be a business that could be profitably carried on among ourselves. The correctness of his judgment is attested by those noble structures, the Day State Mills and those beautiful fabrics now exhibiting in the fair of the American Institute.

Last though not least, came the manufacture of de laines and cashmires. We have not as yet succeeded in closing the market against the imported article, but we have succeeded in commanding a full share of the attention of purchaser, and ere another year rolls its round, the foreign producer will find that to maintain the volume of his sales he must reduce the cost of production.

"Tiz' oldest inhabitant" in Vermont, as we learn by the census returns, is a black man, a native of Martinique, and now a resident of Pomfret. His name is Peter Nassau, and his age one hundred and twenty years.

The oldest inhabitant in Massachusetts is also a negro residing in Marshpee. There is no record of his birth, but from the best date that can be attained, he is one hundred and sixteen years old. He was once a slave, and is a native of New York. He has always said that his mistress told him he was twenty-one years of age in 1757.

He has not been able to do manual work for the past forty years. The oldest inhabitant of Georgia, is a white woman living in Clark County. She is one hundred and thirty years old and has living within a mile of her, grand-children to the sixth generation.

In Louisiana there is a negro slave, living in the First Municipality of New Orleans, one hundred and forty years of age. He appears dried and shrivelled up as if all blood had ceased to circulate. In Florida the oldest inhabitant is Dolly, a negro woman belonging to Dr. H. D. Holland, of Jacksonville, Florida, aged one hundred and sixteen. She was a cook for some years during the revolutionary war, and has not lost her skill as a gas-tro-nomer.

The corporation of the city of Louisville, Kentucky, has on several occasions forwarded railroad enterprises by subscriptions to the stocks. The municipal body has adopted a novel plan to interest the owners of property in the improvements. A tax has been levied on all the real estate in the city called the railroad tax, and each tax payer is entitled to Railroad stock to the amount of Railroad tax which he pays annually. In this way all participate equally, and the stock becomes private property.

That is the very reason,

replied the boy, "why he would not hurt me, yet my disobedience, I know, would hurt my father, and that would be worse to me than anything else."

A boy who grows up with such principles, would be a man in the best sense of the word. It betokens a regard for rectitude and firmness that would render him trust worthy under every trial.

HYMENIAL.

MARRIED, on Tuesday evening, 25th inst., at this place, by the Rev. Mr. Graham, Mr. A. M. PERRIS, and Miss EMILY, daughter of the late Col. P. M. Butler, all of this District.

HOOFLAND'S GERMAN BITTERS.

THESE celebrated Bitters prepared by Dr. C. M. JACKSON, 120 Arch-Street, Philadelphia, are performing astonishing cures throughout the whole country.

Our City.—There are but few cities in the Union more rapidly improving than Charleston. For the last two years a house has hardly ever been two days without a tenant, and although they are built as fast as the materials can be procured, still a number is wanted, and very many families are compelled to board out.

With such a state of things at present, what may we expect when the Charlottsville, Wilmington and Greenville Railroads are completed, without alluding to those progressing in the West?

Besides all this, it is a remarkable fact, that when a city gets a population of fifty to sixty thousand inhabitants, it makes resources within itself. We have an abundance of capital, and superadded to all the prospects we refer to, our citizens have been aroused at last to the importance of its investment in constructing facilities for foreign commerce.

Our contiguous country, too, shares in this revival. Farms and plantations that have for years been unappropriated, have recently been purchased and put into cultivation.—Charleston Mercury.

LAMENTABLE ACCIDENT.

We learn that Captain B. Hall, residing near Swift Creek, Kershaw District, got severely, if not mortally wounded, on last Tuesday, whilst out hunting. Meeting with Mr. Saunders, who was also hunting, the latter was changing his gun in his hands for the purpose of shaking hands with Capt. H. when the barrel of Mr. S's piece, in falling, discharged the contents, the lead entering his friend's body in the region of the groin. The physicians at the latest accounts could not give an opinion as to whether the wound would be mortal or not.—Columbian Carolinian.

COTTON STILL MOVING.

Our great staple continues to move off quite freely, and according to our daily commercial reports the sales of the past fortnight have been over sixty thousand bales, the bulk of which is for shipment to England and France. What is more remarkable, too, the recent unfavorable advices from Europe, by the Canada and Baltic, produced no effect upon prices, which indeed are an eighth to a quarter of a cent higher in this market than they were two weeks since. This is certainly encouraging, especially in view of the market.—New Orleans Delta, 17th inst.

THE MEXICAN TARIFF.

The Mexican government has re-established the law which provides that all foreign articles imported into Mexico, shall pay a duty of eight per cent. The articles are at no other time to be subject to any state or national impost. The general government, and the State in which the impost shall be paid, equally share of the proceeds between them, and other States shall be credited duly with their share. The law is to take effect in four months from the 6th October.

AMERICAN WINE.

The cultivation of the grape carried on extensively in the neighborhood of Cincinnati, and it is supposed that not less than one thousand acres are devoted to this purpose. A correspondent of the Newark Daily Advertiser states that in one wine cellar which he visited in Cincinnati, he saw 75,000 bottles of sparkling Catawba, and about 40,000 gallons of wine in casks, varying from 40 to 5,000 gallons in each.

NOVEL SALUTE.

In recent papers received from China, it is said that the British man of war Chopatra and Lily fired, at noon, on the last 4th of July, a salute of twenty-one guns each, in the honor of the anniversary of our national independence. The "China Friend," speaking of the event, says it is the first time such a thing was ever done by any British vessel in Chinese waters.

FIRE.

An alarm of fire was given yesterday morning about 4 o'clock. The fire was found to be in a kitchen attached to a small house belonging to Mr. John S. Rawls, on Camden street. The building was consumed.—Carolinian, 25th inst.

SINE DIE.

In a neighboring county, the Democrats had for over twenty years been in the habit of holding their county nominating conventions at the house of a staunch old Democrat, Mr. G.

He happened on a recent occasion for the first time, to be in when they had finished their business, and heard a little delegate from R—move that "this convention do now adjourn sine die."

"Sine die," said Mr. G.—to a person standing near, "where is that?"

"W'y—that's 'way up in the northern part of the county," said his neighbor.

"Hold on, if you please, Mr. Cheerman," said G.—"with great earnestness and emphasis, "hold on, sir. I'd like to be heard on that question. I have kept a public house now for mor'n twenty years. I'm a poor man. I've always been a Democrat, and never split my ticket in my life. This is the most central location in the county, and it's where we've always held our caucuses. I've never had, or asked an office, and have worked night and day for the party, and now I think, sir, it's mean, it's contemptible to go to adjourning this convention way up to sine die."—Spirit of the Times.

A NOBLE BOY.

A boy was once tempted, by some of his companions, to pluck ripe cherries from a tree which his father forbidden him to touch.

"You need not be afraid," said one of them; "for if your father should find out that you had them, he is so very kind that he would not hurt you."
