trict, will be opened for the reception of Students on the second Monday of January 1852. REV. CHARLES A. RAYMOND, Mr. GEORGE GALPHIN, whose energy and ability in the discharge of the duties of his pro-Principal. fession we can very confidently recommend,

THE Second Session will commence on the 1 9th of January 1852.

The Trustees congratulate themselves, their friends and the public, on what they now con-sider the permanent establishment of an institution of learning of so high a character in their District. The benefits which their own children, with others, have experienced during the past Session, enables them with the greater confi-dence, to recommend the Institution to the pat-

ronage of the community. The School was opened on the 18th of September last, with thirty-one Pupils, and has since been gradually increasing. It is confidently expected that the number in attendance will be greatly increased during the next Session. The Institute building now contains seven rooms, all of which have been built, and are

A fine apparatus; a large collection of Maps; Anatomical Charts, Globes, &e; a Museum o Natural History; a Cabjuet of Minerals and

Shells; furnish unusual facilities for acquiring a practical knowledge of the different branches Seience. The course of Study is of an elevated character, and more comprehensive, than that of most

female institutions of the highest reputation. The PRINCIPAL devotes the whole of his time to the super ision and instruction of the various classes. The Assistants are experienced in their diffe-

rent Departments, and those only of known success in teaching are employed. The Academical year is divided into Sessions

of 14 weeks each. It is of great importance that the student be present at the commencement of the Session. The Classes are then formed, and a few weeks delay may affect the standing of the pupil throughout the year.
