Salamander Safes.

THE Name of SALAMANDER was first ap-I plied to Wilder's Patent, and introduced by the Subscriber in 1840, who in 1844 purchased the right to manufacture. The superiority of Herring's (W.bler's) SALAMANDER SAFES over all others, induced many to infrage upon the patent right by using the composition; others more cau-tous, and to evade a lawsuit, made an inferior artiele, i citating the exterior in form, style, color of painting, and attaching the name "Salamander," Improved Sa'amander," . Fire Proof Salamander," "The Genune Salamander," &c., &c., and have succeeded in palming off some of the spurious Salamanders as genuine. Those wanting the or ginal Sa amand r manufactured by the Subscriber, should take the precaution to see that they have upon them a metal plate-" Silas C. Herring, Maker,"-all such being the genuine (Wilder's Patent) Salamander, or Herring's Improved Patent Champion Safe, which received the modal at the Great World's Fair, and which have never failed to preserve the contents in case of fire. Purchasers can select from the largest as-ortment in the world, by
