LAND FOR SALE.

BEING desirous of making a change in my bu-siness, I offer for sale my TRACT of LAND Four Hundred Acres.

Situated in Edgefield District, near Mount Tabor Church, and bounded by lands of J. A. Bland, A. Miles and others. There is about one hundred and forty acres of splendid Land just cleared, and in a high state of cultivation, most of it being capable of yielding a bale of Cotton per acre. The balance is in woods, and is as well timbered as any land in the State

This Tract is well watered with never failing streams, good outlets, and an excellent range for Stock. On the premises is a BEAUTIFUL RESIDENCE. Just finished, 50 feet by 30, with all other necessa-

ry ont buildings.

I have no hesitation in saying that a better opportunity of buying a Fresh and well improved Tract of Land, is seldom if ever offered. There s not one acre of poor land in the tract. It is a very healthy situation, a fine neighborhood, only five miles from the Village, and in a few miles of two

ENDOWMENT OF "JOHNSON FEMALE UNIVERSITY," BY THE SALE OF CHEAP SCHOLARSHIPS.

A CHARTER for this institution was obtained at the session of the Legislature of South Carolina in December, 1852, vesting in a large and energetic board of Trustees, the necessary corporate powers to render it one of the first Seminaries of learning in the United States. It has been organized and gone it to operation under the chatter, with a large and distinguished Faculty, and offers to its friends, on liberal CHARTER for this institution was obtained at guished Faculty, and offers to its friends, on liberal terms, as thorough and extensive a course of Female education, it is believed, as any heretofore adopted in the Southern States. But, in doing this, the Trustees have incurred personally, a heavy pecuniary responsibility; and have incurred it cheerfully, conscious that they are engaged in one of the noblest works that can enlist the attention of the christian, patriot and philanthropist. But they cannot be expected to renew this thropist. But they cannot be expected to renew this responsibility from year to year—indeed, to do so would soon exhaust their individual substance—hence would soon exhaust their individual substance—hence to render the University permanent, and enable the Board to increase the facilities, whilst they, at the same time, dimnish the cost of Education, the University must be Endowed.

The annual expenses of a well appointed Institution The annual expenses of a well appointed Institution of learning, such as we propose, where Students may be graduated in all branches of science that may be desired, cannot be less than \$6 to \$7,000. To raise this sum in tuition fees, we should be compelled to charge, on any number of students that the best appointed institution in our country can be expected to average, a sum that would drive all but the daughters of our wealthiest citizens from the hope of a liberal education. Hence, in order to get up and sustain permanently an institution, such as will meet the requirements of the age, and afford our daughters the advantages to which they are entitled, and which public opinion is at last likely to award them, we must raise a sum, the annual interest of which, when funded, a sum, the annual interest of which, when funded,

will cover its expenses. will cover its expenses.

The Board has assumed the sum of \$100,000 as the maximum requisite for that purpose, and \$60,000 as the minimum, below which the object would be a failure. To devise the means to raise the last mentioned sum promptly, and upon such plan as to give to the contributor value received for his money, and at the same time reduce the cost of education at merely nominal value, has been the earnest object of the Board. For this purpose they have adopted the plan of selling Scholarships at the following rates, to wit:

A Certificate for 4 Years Tuition \$25 " " 10 Years "50
" " 25 Years "100 This means that the holder of the Certificate is entitled to so many complete years of Tuition, in any or all the studies of the literary department of the University, at any time it may suit his or her convenience to send a student. The certificate to be transferable. No certificate is to be issued, nor is the money for the purchase of scholarships to become payable, or the

plan to go into operation till the sum of \$60,000 is subscribed. After which the Corporation will keep open its subscription till the sum be increased \$100,-000, when it will cease to sell, and the certificates Under the charter the funds are to be held by the corporation in trust for the use of the University, and

Having secured the sum of \$60,000, it is proposed by the Board to appropriate \$10,000 to the enlargement of the buildings and apparatus of the University, and the commencement of a library. This will leave \$50,000 to be permanenly invested for the benefit of the University. The annual income of this sum at 7 per cent. which there will be no difficulty in realizing, will be \$3,500; and this, with the tuition fees in the departments of Music and Fine Arts which will be regarded as extras, as they are in all female institutions, will ments of Music and Fine Arts which will be regarded as extras, as they are in all female institutions, will employ a faculty from year to year, that cannot fair to perpetuate the prosperity of the University. The means of sustaining the Faculty, and perpetuating the University, having been thus secured, and the corporation having ceased to sell scholarships, it will be seen that the certificates become exceedingly valua ble—so much so, that it even solicits and will receive the investment of the capitalist and speculator. This is manifest from the following exhibit. The average rate of tuition, which cannot be made less in this or any other institution, where the various branches of sciences are taught, is \$30 a year. This amounts in

4 years to \$120, which is now offered for \$25, 10 years to \$300, which is now offered for \$50, 25 years to \$750, which is now offered for \$100 25 years to \$750, which is now offered for \$100

Now if we reckon the interest on the cost of the

Scholarships, it will require about 55, 72 and 93 years

to raise the sums respectively to the several amounts
of tuition which they offset.

It will be seen therefore that the plan not only offers inducements to the speculator as an investment, but it were contemplated Rail Road routes.

Come all who wish to buy good land and see for yourselves. If applied for soon I will sell cheap.

No use in going to Florida, Texas or California, to buy hand, for you can make as much of the staff here as any where else.

The modus operandi by which a profitable and cer-The modus operandi by which a profitable and certain return from an investment in scholarships, is to be realized, may be explained in a few words. So soon as the proposed sum is raised and invested for the benefit of the University, the means of employing in perpetuity a competent—nay more, a distinguished faculty—are always provided in advance, and hence such faculty will be perpetually employed, and therefore nothing can be more certain than that students will continue to flock to the institution, in greater or less numbers, through all time. Those who are so fortunate as to hold certificates of scholarship, avail themselves of their benefit, whilst those who do not, if they seek an education in the University, must HOSPITAL FOR NEGROES,

Or if he should hold it fourteen years before he finds a purchaser, and should then sell it for \$50, he will have realized the bold it fourteen years before he finds a purchaser, and should then sell it for \$50, he will have realized the legal rate of interest at 7 per cent. on his investment, whilst the purchaser will save 140 per cent. in tuition; or if he should not sell till the end of twenty-eight years, and then sell for \$75, he will still have received back his original capital with 7 per cent. interest, whilst the purchaser at that rate will save 60 per cent. in the expense of education. From these statements, the probable profit on sales at intermediate periods, and at other rates can be easily determined. But it must be borne in mind, that in a few years all who shall purchase scholarships for their own use, will be paid up in tuition by the University, and their certificates cancelled. After which those that are outstanding on speculation, will unquestionably be eagerly sought after, at much higher rates than those suggested; and at II the purchaser, who desires the tuition, may save something hardsome in its cost.—Can it be doubted therefore, the endowment being secured, and a competent faculty permanently employed, that an investment in scholarships will become the form of twenty-eight will be paid up in tuition by the University, and their certificates cancelled. Special Medical Notice. CURE of DYSPEPSIA THE undersigned is being consulted by letter from all parts of the Union, by those who are suffering from DYSPEPSIA and its consequent general weakness, muscular relaxation, and nervous debility. Having for the last few years, in his proctice of medicine, turned his attention almost entirely to the treatment of this disease, he is enabled from his large experience to institute a peculiarity of treat-ment that will enable the patient to see, feel, and know, after a day or two's treatment, that his recovery has already commenced. Ilas he a dry tongue, thirst, loss of appetite, constipation of bowels, nausea and vomiting?—is the skin dry, harsh, with unnatural heat?—is he troubled with sleeplessness, starting in his sleep, somnolency, impaired volition—with palpitation or "fluttering" of the heart, and easily out of breath by quickened exertions? All these, after one, two, or three day's treatment will com-

mence to disappear. Terms of Treatment. \$5.00 for first consultation. Medicine forwarded by mail, with full and explicit written directions of the course of treatment, &c., to be pursued. Each subsequent consultation and medicine forwarded, \$2.00. Money remitted in all instances should be "registered" at the post-office. All letters to be addressed to the undersigned.

STARTLING, BUT TRUE. WARNING TO EVERY SENSIBLE WOMAN! Why Females Suffer in Health. No woman of delicacy is willing to disclose the peculiar ailments incident to her sex, even to a most intimate family

evitable in making known to the other sex those allments be longing exclusively to the female.

Except in extreme cases, her sensitiveness will sacrific her health rather than her delicacy. The consequences are serious, inmentable, and life-long Thus what at first could have been easily remedied, o Thus what at first could have been easily remarked, becomes a complication of disease, not only ruining the health of the mother, and embittering her days by sickness and suffering, but entailing broken constitutions upon her children, and embarrassing, if not distressing, the business and pecuniary prospects of the husband. Let every sensible woman

(as thousands have done) by the bitter experience and suffer ings of others, of the dreadful consequences she entails upor (as thousands have done) by the bitter experience and sufferings of others, of the dreadful consequences she entails upon herself and those endeared to her, by her ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery.

How many are suffering from obstruction or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice! How many suffer from prodapsus uteri (falling of the womb,) or from fluorablus (weakness, debility, &c.)! How many are in constant agony for many months preceding confinement! How many have difficult, if not dangerous deliveries, and slow and uncertain recoveries?

TAKE WARNING IN TIME,

have difficult, if not dangerous deliveries, and slow and uncertain recoveries.

To the question, how are these to be prevented? what
shall be done? the answer is simple.

Let every woman ascertain for herself, without violence to
her delicacy, the nature and character of the aliment (to whiles
she as a femule is subject) the causes from which it may arise,
and the proper remedies for its cure and future prevention.

This she can do by possessing a little volume (already
possessed by thousands) which tells her what is the matter,
and tells her what to do for it, in simple but chaste words,
and such as she can understand.

THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION, BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN. One Hundredth Edition, (500,000) 18 mo., p. 250. ON FINE PAPER, EXTRA BINDING, \$1,00.] A standard work of established reputation, found classed in the Catalogues of the great Trade Sales in New-York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published in

have been sold, of which there were upwards of ONE HUNDRED THOUSAND SENT BY MAIL. attesting the high estimation in which it is held as a reli BOOK FOR EVERY FEMALE.

the author having devoted his exclusive, attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands, both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, will find such introduction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm, as all the peculiarities incident to her situation are described.

are described.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. The revelations contained in its pages have proved a blessing to thousands, as the innumerable letters received by the author (which he is permitted by the winters to publish) will attest. Extract of a Letter from a gentleman in Daylon, Ohio.

Dr. A. M. Mauriceau:

"My wife has been perceptibly sinking for some three years or more, in consequence of her great anguish and suffering some months before and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent danger, and which was on the last occasion despured of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. At this time (now about two months) I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal, I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to me which I little conceived was possible. No pecuniary consideration can ever repay the obligations I am under to you, for having been the means of imparing to us the matters contained in "The Married Woman's Private Medical Companion." But for this, ere another year would have been in her grave and my children left motheriess."

In consequence of the universal popularity of the work, as more or less, bounded by Lands of Dr. R. T. Mims,

In consequence of the universal popularity of the work, as evidenced by its-extraordinary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreptitious infringements of copyright, and other devices and deceptions, it has been found necessary therefore TO CAUTION THE PUBLIC

to buy no book unless the words "Dr. A. M. MAURICZAU, 129 Liberty Street, N. Y." is on (and the entry in the Clerk's Office on the back of) the title page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau.
