ARRIVAL OF THE STEAMER NIAGARA.

The steamer Niagara arrived at this port this morning, with later advices from Europe. Cotton has declined 1 1/2 to 1 3/4...

The latest despatches from Liverpool, on Saturday afternoon, say there was a better feeling in the cotton market, but prices generally were unchanged.

Advices from Havre to the 4th state that the cotton market was steady and sales limited—trees outside 1092.

Additional symptoms are manifested of a close alliance between France, Russia and Prussia. Treaties of commerce are in preparation between Russia and France.

The English fleet was still at Malta. Despatches say Russia agreed to France—Prussia requiring Austria to evacuate the Principalities and England to evacuate the Black Sea.

THE METHODIST CONFERENCE.—Our citizens have discharged an agreeable duty in extending a cordial welcome to the members of this body who have taken up a temporary abode with us in attendance upon their annual meeting.

The Conference convened in the Court House, yesterday morning, at nine o'clock, and was organized by Bishop Andrews, who made to the clergy a very appropriate address, beautiful especially in its exhibition of the highest virtue of the Christian character.

By resolution, the annual session of the Sabbath evening, at candle-light. The pulpits of the several churches in town will be occupied on Sabbath, morning, afternoon and evening.

HOG TRADE IN THE WEST.—At St. Louis, on the 11th inst., pork was selling at 5 to 5 1/2, for hogs weighing 200 pounds and over, and the same prices are offering for the delivery of hogs up to December 20.

DESTRUCTIVE FLOOD IN INDIA.—Loss of Over Four Thousand Lives.—The Calcutta Correspondent of the London Times, under date of October 4, gives the following account of a disastrous freshet in that country:

The rains this year have been universally severe. Afghanistan was unprecedented, and in August its effects began to be visible. The torrent waters which at this season rolls down the water system of the Indus gradually increased, then overtopped the banks, and then burst on the plains with a force which swept whole towns from the face of the earth.

The Advertiser.

ARTHUR SIMKINS, EDITOR. EDGEFIELD, S. C. WEDNESDAY, NOVEMBER 26, 1856.

TO MY PATRONS. The subscriber, having disposed of his entire interest in the Advertiser, approaches the task of bidding his esteemed patrons adieu with pain and difficulty.

For twenty years he has labored in their service, how faithfully they must decide, and during the whole of that time he has received at their hands a generous and liberal support for which he has not the terms to express his heartfelt gratitude.

Mr. KEESE, the other partner, is a young gentleman of the highest character for integrity, sobriety and perseverance. A native of Pickens District, he has been in Edgefield for nearly eight years; and by his whole deportment, has won the esteem of all with whom he has been associated.

THE SUBSCRIBER therefore commends his successors to the public with the most assured confidence and congratulates his old readers upon the arrangement made for their benefit.

One word to the press of this and the surrounding States. An aged publisher here says that, in parting company with them, he feels that he is leaving one of the highest of earthly brotherhoods. Without a thought except of kindness, he offers them the hand of a cordial adieu.

And now to his old patrons—permit him to say for the last time his beloved old patrons, the senior Publisher of the Edgefield Advertiser has but to say "Farewell and God bless you all."

THE SUBSCRIBERS HEREBY respectfully announce to the public that they have formed a partnership for the future conduct of the Edgefield Advertiser. They make but one profession in advance, and it is: that they will strive to improve continually.

Articles from E. and S. C., and also from two special favorites, "Daisy" and "Myrtle," are unavoidably crowded out. We are obliged to work by miller's rule, and cannot help occasionally delaying things that suit our tastes and sentiments. Bear with us.

We cordially reciprocate the old man's good wishes, and pray that he may enjoy quiet, peaceful and prosperous life for the balance of his days; and if there will but do unto him as he does unto him, there cannot be a doubt that such will be his lot.

In the course of a close business connection of nearly six years' standing, it can be truthfully said that we two never had betwixt us the first symptoms of a cross word or an angry thought; and if this be not something to boast of, it is at least pleasant for ourselves to remember.

Good luck attend you, old friend. May you be Ordinary of Edgefield District forever; and if every body saw this as we do, you would be. (Sub. recs.) Just as soon as we pile up one more thousand on our subscription list, we do aim to give you and all your old editors one of the best dinners ever given in South Carolina.

MILITARY ELECTION. At an election held on Friday last for Colonel of the Saluda Regiment of Edgefield, Maj. SAMUEL WARSON was duly elected. The race was a pretty one, he having received 430 votes and his opponent 405.

SUPERLATIVELY FINE. The largest, smoothest, best potatoes we have ever seen, were kindly sent us a few days since by Mrs. DAVISON ATKINSON of Beach Island. The biggest weighed eleven pounds, and two others (on a magnificent long-fellow) exceeded eight pounds.

PRICES OF CORN IN THE WEST.—Our latest dates, by mail, state that corn was worth at St. Louis, 42 to 45—Havana, 11, 20—Lincoln 11, 22—Ozark, 11, 20—Sandy Mines, Mo., 50—Alburn, Mo., 25—Richfield, 28 to 30—Knoxville, Mo., 20—Clintonville, 50—Chicago, 11, 35—Lexington, Mo., 30. The supply of corn in all sections of the West is ample, both of the old crop and the new—1 b.

PAINFUL ACCIDENT AT THE CIRCUS.—Yesterday afternoon, "Mlle Isabelle," of Eldred's Circus, in making the ascent of the wire from the ground to the top of the centre pole, fell and fractured a leg, besides receiving other injuries. Some of the company carried a spread net to catch her in her fall, and she was well.

SAVANNAH VALLEY RAILROAD.—The annual meeting of the stockholders of this road took place, according to notice previously given, at Lowndesville, on Wednesday, the 12th inst. We learn that in consequence of pending negotiations between the City Council of Augusta and the Georgia and South Carolina railroads in reference to the terms of the junction of the two roads, common depot, &c., that nothing of importance was done, but that the Convention was adjourned to meet again at Calhoun's Mills, on the 30th of February next—Abbeville Banner, Nov. 24.

THE THREE BROTHERS Washburne, members of the present Congress, are all re-elected: Israel in Maine by 5,000, Cadwallader C. in Wisconsin by 5,000 and Eliza B. in Illinois by 11,500 majority.

AMUSEMENT.

It will be seen that our clever and spirited Theatrical Company propose to entertain their fellow-citizens on Friday night next with one of the most beautiful plays—"The Honey Moon." A rich treat may be anticipated.

Our amateurs deserve and should receive a large encouragement. Their performances are both refined and entertaining, in no way militating (as some people would intimate) against either the morals or the well-being of our community.

Recent amusements tend to displace the fondness for our own. And yet there are those who will lend their talents to the service of a low-bred circus-rider, and raise their hands to holy horror at a chastened dramatic representation gotten up by ladies and gentlemen.

We have long observed that the best people of every community are always the furthest from that kind of morbid puritanical whining, which "strains a grain and swallows a camel."

THE SOUTHERN QUARTERLY. The November number of this valuable publication is replete with striking articles upon subjects of high interest. The paper, typography, &c., are also of the best. And the whole face of the issue is quite enough to place the Southern Quarterly in a prominent position among the Reviews of our own country.

FRUITLAND NURSERY. Mr. REDMOND'S catalogue is before us, telling how he is now prepared to accommodate the two States with peach, apple, pear, plum, nectarine, & cherry trees, with Canes, Isabella, Delaware, Black Hamburg, Scuppernon, Champagne, and Syrian grape roots; with hedge plants, evergreens, climbers, roses of every kind, and many other plants. Mr. R.'s Nursery is 2 1/2 miles from Augusta, and is admitted to be one of the best and surest of its kind. And now is the very time to call on him.

"BARNUM" ON THE FAIR. A writer, under the signature of "BARNUM," desires a place in our columns for certain comments upon the late State Fair. While giving his article room, we distinctly give him in his tone of irony and ridicule. Did we not know the writer, we should hesitate to set down his remarks to the scries of some supposed slight or personal pique. His serio-ludicrous criticism is evidently intended as a slur upon the whole Fair, and in this we think him wrong.

"BARNUM" uses of initials &c., renders it sufficient plain that he is impatient of the good sense if not the integrity of gentlemen connected with the Fair. With this, however, we have nothing to do. But upon the point which he has chosen to mention, we would suggest one or two thoughts. Does not "BARNUM" know that it requires variety to make an interesting exhibition of the kind in question? Does he not know that, to secure this, prizes must be offered in all departments? Does he not further comprehend that some small things should be encouraged equally with big things? That, for instance, an improved potato or turnip may be as beneficial (especially to the poor) as an improved stock of race-horses or even such a wonderful species of cattle which clean to him as he has originated in illustrious Devonshire? His gallantry permits him to relate to the ladies, with their neat hands, of every kind, an equal chance at premiums with their rougher help-mates? Does he not know that to encourage a progressive fruiture from our beautiful hills, and about our beloved homesteads? But we care not to continue our suggestions. Let "BARNUM" say what he may against the Fair, it was, certainly as far as the arrangements went, a success. That one person took a handsome number of premiums, is no argument against having offered those premiums. They were for a long time advertised before the public; and all who desired could have had a fair showing. Perhaps many did have. If not, it was their own fault. That the things to be shown were in some departments comparatively small and somewhat common, only opened the door wider for all, rich and poor, male and female, to take a chance at the silver.—But we dismiss the subject only regretting that we have had to allude to it at all.
