OBITUARY.

DEPARTED, this life May, 19 1858, MARTHA ELIZABETH, only daughter of W. P. and E. L. Andrews, aged 18 months and 8 days.

Thus has God taken this lovely bud of promise

from the embraces of its earthly parents to its Heavenly Father. "Suffer little Children to come unto me, and forbid them not: for of such is the Kingdom, of Heaven." It is the Lords, let him do what seemeth him good. II.

COMMERCIAL.

AUGUSTA, June 19, 1858. Cotton .- Sales to-day amounted to 45 bales, 44 of

which brought 102 and 1, 112. Groceries .- Our market is at present well supplied with every article in the Grocery line, and every arrival adds to the stocks on hand. Bacon.-The market is overstocked with the article, and of that on hand a greater portion is joint meat of very inforior quality. Prees are very irregular, and each seller appears to be willing to take what he can get. Sales of Shoulders have been reported to us this week at 7 @ 7½, mostly at 7 @ 7½; Hams at this week at 7 @ 7½, mostly at 7 @ 7½; to 12c. according to quality; Sides 10 @ 10 c. the latter for good clear; Hog Round has been selling at 8 to 81c—principally at 81 @ 81 cents.

Lard.—The stock is moderate—demand limited. A

good article will bring 111 @ 12 cents. HAMBURG, June 19. The week just closed has been one of great quietness with our Cotton buyers and Grocery Merchants.

Cotton.—What few sales that have been made ranged from 101 to 12 cents-and it takes a first rate

article to bring the latter price.

Bacon is still solling at very low-figures. Now is a good time to buy supplies, for I think it is at its lowest point. Good bargains can be had for the cash.

Groceries have stiffened a little. Sugars and Molasses are likely to go up.

CHATTANOOGA, June 17. The weather for several days past has been unusually cool for the season, with frequent rains.

Business continues dull. Below we give wholesale prices current of leading articles : con .- About 850,000 tbs. in market-selling at

S @ 81c.

Lard.—Stock light—dull at 10 ceats.

Wheat.—But little in market—50 @ 60 cents ? Flour.-Selling at \$1 70 @ 1 75 P sack. Corn.—Selling at 40 cents \$\ \text{bushel.}\$ bushel. Whiskey.—20 @ 25c. \$\text{B} gallon.

CHARLESTON, June 19. Sales of Cotton to-day 1,000 bales, at prices ranging from 11 to 121 cents. The saleable stock is small

Bacon.—There has been a somewhat speculative de mand for Bacon Sides this week. About 187 hhds. changed hands at 9 @ 91c., and a lot of Shoulders brought 7c. The latter article, however, is not much Lard .- We have no transactions to note this week

We quote the asking rates of holders viz: 112 for bbls., 122 for kegs, and 122 to 13c. for refined in cans. CLEVELAND, TENN. June 18. Wheat 55 to 60c. Corn 35 to 40c. Bacon S cents, with a downward tendency. Corn Meal 50c. Flour

\$25 Reward.

RANAWAY from the Subscriber's mother, about the 1st April last, his likely Mulatto boy RICHMOND, about 21 years old, and about 5 feet 7 or 8 inches high. His color is tolerable bright and his hair pretty straight, and wore when he left a moustache. He is intelligent and tolerably quick spoken. He has been raised in the house, and is a valuable dining-room servant and good ostler.

It is supposed he is lurking about some of the

neighboring cities,—either Hamburg, Augusta, Charleston or Columbia. The above reward will be paid for his apprehension and delivery in any jail so that I may get him. And any information concerning him will be thankfully received. T. N. LUNDY.

LIGHT---LIGHT---LIGHT.

GREAT desideratum in the way of LIGHT A is accomplished. An illuminating Oil is prepared from Coal, called KEROSENE OIL,

Brilliancy and Intensity of Light Is unsurpassed by all other artificial lights. It is not explosive-will extinguish fire if poured on it -and last, though not least, it is very little more expensive than sunshine. A small Lamp, giving the Light of six Candles, will not cost exceeting half a cent an hour, which can be graduated so as to give less light at a much less expense. We have the exclusive Agency for the KERO-SENE OIL and LAMPS in this place, and will

sell them at Charleston prices and terms, which are exclusively for Cash. A. G. & T. J. TEAGUE. tf

TO THE PUBLIC. THE extraordinary course pursued by the rival I managers of different Lotteries to injure us because our liberal schemes, and prompt manner of doing business, has materally affected them, compe's us to call special attention to the facts, which all who deal with us know already; that is that our Lotteries are legal; the managers and trustees honest and honorable men; that we have old more prizes in the last twelve months than all other Lotteries in the Union, and that they have been prompt'y cashed in all cases on presentation.

The effort to injure us is aimed not only at our business by our rivals, but is also intended to act politically on one of our partners; and we assure our friends and the public that WITH OUR CON-CERN ALL IS RIGITT, and this, the legal investigation which we sha'l urge to a hearing, wili fully demonstrate. DAYTON'S IMPROVED METHOD OF PRESERVING FRUITS.

VEGETABLES, &c. FRESH FRUIT AND VEGETABLES are not. r merely the greatest luxuries enjoyed by man-kind: they are absolutely essential to the perfection of health, and may be regarded as one of God's best gifts. As, however the season of their production is brief, it has long been a matter of deep interest to devise some method of preserving them, in all their freshness, long after their season of ripmess had passed. Various methods have been devised to effect this end, to each of which some serious objection has been laid. It is believed however, that in the apparatus here presented will be found at once the cheapest and most effective method of keeping these and other articles fresh,

ever discovered.

DAYTON'S EXHAUSTER. It has long been a desideratum to find some cheap, simple and effectual method of preserving Fruits, Vegetables, &c., so as to keep them fit for domestic use a number of years. The expense of preserving with sugar is a serious objection. Free access of air causes the decomposition of vegetable matter. It is obvious that if Fruits and vegetables can be kept from contact with air, this effect will not take place. To effect this, the attention has heretofore been directed to some method of sealing the can, while heat alone has been relied upon for driving out the air. This method has been attended with many and serious objections, among which are, the destruction of the fresh flavor of the fruit, caused by so much heating, and the difficulty of ascertaining whether the cans are perfectly airtight, after they are sealed. These difficulties are completely obviated, and a safe, reliable and cheap method of preserving Fruits and Vegetables is discovered in the EXHAUSTER. It is so simple in its construction and operation that any female can use it; yet so substantial that a single instrument. will last a family for many years, and serve to seal up thousands of caus of fruit; while cans can be manufactured by any tinner at a much less expense than must be incurred to procure patent cans.

Directions for preparing the Fruit, Vegetaoles, Butter, Eggs, &c , and for managing the Cars or Jars will be furnished with the Exhauster. I have made arrangements with Mr. W. H GOODRICH, of Augusta, owner of the Patent of Dayton's Exhauster for this District, and am now prepared to furnish the EXHAUSTER, together with the Porcelain JARS, manufactured at Knolin, at as low prices as they can be had in Augusta.
