NEW DISCOVERY OF GUANO!

J. C. DAWSON,
Sole Agent for Georgia and South Carolina.

THE undersigned has in store a cargo of 100 tons of GUANO, from an Island just discovered, and from which no Guano has ever been imported until this season, and he desires that all Farmers should give it a fair and impartial trial, and report results.

This Manure is found in caves 200 feet above the sea, consequently is free from sand and coral, rich in Phosphates, and containing sufficient Ammonia to stimulate the plant without any admixture of other Manures. It is not a Mineral Guano, like the Sombrero or Navassa, but the pure excrement of birds, and all the Phosphate Acid it contains, is in combination with Lime. Price \$10 per ton.

—ALSO—

SOLE AGENT FOR THE A A BROWN MEXICAN GUANO

Said to be very fine. Price \$31 per ton.

TO PLANTERS!

SUPERIOR TO PERUVIAN GUANO!

PROF. MAPES' SUPER-PHOSPHATE OF LIME,

FOR COTTON, TOBACCO, WHEAT, CORN, &c.

Composed of Dried Blood, Bones, Sulphuric Acid, Peruvian Guano and Sulphate of Ammonia.

One hundred pounds of the Nitrogenized Super-Phosphate will equal in effect and lasting powers, One hundred and Eighty-five pounds of the best Peruvian Guano.

Produces HEAVY BOLLS of COTTON, and greater WEIGHT of WHEAT and other Grain, per bushel, than Peruvian Guano. It also PREVENTS RUST.

The following are among the numerous Certificates received by Prof. J. J. Mapes.

COTTON.

COLUMBIA, S. C., Sept. 20, 1850.

J. J. MAPES, Esq.—Dear Sir: I have very great pleasure in writing you touching the effects of your Super-Phosphate of Lime on our Cotton crop. Having tested it against four other preparations, and the appearance of the plant is most hopeful and promising as regards a large and remunerating yield. I feel certain your manure will give from one hundred to one hundred and thirty pounds of Cotton more per acre than any other preparation.

It is a remarkable fact that no Rust is seen on the plant where your Manure has been used, while others show rust more or less; and this is especially the case where Guano has been used.

And last, though not least, as regards the Planter's interest, I feel certain that Cotton, from Super-Phosphate, will weigh much heavier than from any other preparation; in this particular I believe that Phosphates are destined to work the greatest possible beneficial revolution in the Cotton growing States of the South.

The plants look most vigorous and luxuriant, some being six feet high, and holding from 80 to 110 bolls to each stalk. I am very truly,

H. LOMAS.

WHEAT.

The N. C. Dispatch, March, 1859.—My Wheat crop grown upon Guano, weighed but fifty-three pounds, while that grown upon Mapes' Phosphates of Lime weighed fifty-nine to sixty-one pounds per bushel.

DARREN, Cr., Sept. 27th, 1859.

I know of no other Manure that is so good for the Garden or other crops, so far as I have tried it, as Mapes' Nitrogenized Super-Phosphate of Lime. I deem it better than the best of Guano.

Yours, respectfully,
NATL. WEED.

CHICKERING & SONS' PIANO FORTES!

THESE are of the OLDEST Establishments of the kind in this country, and they still maintain their SUPREMACY IN THE MARKET.

Their manufacture about FORTY PIANOS a week, and are unable to supply the demand for them.

They have had an Agency in this City for about thirty years, where thousands of their instruments have been sold to the entire satisfaction of every purchaser.

Pianos made by Jacob Chickering are sometimes sold by Traveling Agents to persons who are under the impression that they are getting one of CHICKERING & SONS' of world-wide celebrity. He is no connection with CHICKERING & SONS, and has no interest with them.

The genuine C. & S. Piano has simply "Chickering's Boston" on the finger board, and their name in full on the sounding board. The other has "Jacob Chickering" on the finger board.

I have the sole Agency for Augusta of CHICKERING & SONS, and keep on hand a full assortment of their Pianos for sale at
