

Good.

The Charleston Courier has struck a vein of satire singularly fresh and racy,—"taking off" in its cool way, the captiousness and self-importance of military civilians in a series of interrogatories designed to circumvent those querulous individuals by a gradual *reductio ad absurdum*. Our contemporary should be careful not to pile on the agony too high "all of a sudden." Out of five of these delectable queries, which affect to demolish the Governor's late message, we select the first and the last as specimen bricks:

1st. Has the Legislature been informed that excellent rifles were made many years ago in Lexington by Quattlebaum, and that small arms of any kind have been and can be made in Charleston?

2d. Has the Legislature been informed that Cotton grows in South Carolina, and that Cotton by the application of a chemical agent, which could and should have been procured in abundance after secession, would have furnished an explosive element in quantities sufficient to have guarded every inlet, roadstead, harbor and bay on our coast?

It is to be hoped that Governors and Presidents will hereafter understand, that they are expected to compass heaven and earth, and Lexington District, for squirrel guns and new combustibles, without reference to the experience and wishes of generals and ordnance bureaus. Hilt 'em again, brother Courier.

Another Lot.

Miss ABELA BOURGHOIT, Secretary of the Ladies' Aid Association at Mt. Willing, furnishes the following list of articles recently furnished by that Society for our soldiers' benefit:

Sent to the Hospital at Charlottesville, Va: 19 pillow-cases, 9 bed-ticks, 7 pairs socks, 3 cakes soap, 2 common and 2 double-wool blankets, 4 sheets, 4 towels, 6 quilts, 4 counterpane, 5 lots of old clothes for bandages, 2 bottles camphor, 1 of quinine, 1 of honey, 1 jar pickles, 2 bottles cordial, 4 of wine, 1 of laudanum, 3 of lemon syrup, 1 of vinegar, 1 of catsup, 1 package of bread, 2 handkerchiefs and 1 pair slippers.

A varied and useful lot of sundries. These ladies have also sent lately to Capt. DEXY'S company a bundle of quilts and bed-ticks, and have on hand ten pairs drawers. Go on, fair patriots, in this good work. As the winter advances, your soldiers will need your kind aid more and more. It does seem to us that now is the time for all our Ladies' Associations to awake to action with renewed energy and zeal.

A Navy for the South.

A western exchange says: "Suppose the Government at Richmond could establish Navy Yards at some ten suitable points in the South, commencing at once, at each of these points the work of ship building, giving to every man who could fell a tree, or hew a stick of timber an opportunity of paying in labor the tax that would be necessary to meet the expense, who does not see that an immense fleet might be constructed in a short time. We are not unaware that many things besides timber will be needed for the great work, but this only enlarges the field of enterprise. In wood and in iron, is copper and in cloth may men be found ready to exercise their skill."

Many will say to this brief and bold proposition: "Easier said than done." To be sure it is; but does it not become more and more apparent that we must do things ten thousand times harder than words to effect our dismemberment from the Lincoln dynasty. If the government could and would do as our estemporers suggest, and it were made known at an early day, thousands of hands could be reserved from the cotton fields next year to hasten on the heavier portion of the great work. Locate the navy yards, and enroll the workmen at once.

Is such a thing can be done, why not attempt it? If it is not wisdom in the South, to hasten all manner of military preparation, as if the world were against her? Let her reckon upon herself alone in this struggle, and repitely put forth all her resources. The plot thickens and the Gaud is in the gate.

An Appeal To the Citizens of the Lower Battalion, 9th Regiment, S. C. Militia:

FELLOW-CITIZENS.—Recollect that Capt. Prescott and his men are still in the service of the Confederate States, and will be for several months yet, to fill their terms of service. Many of the privates in the Company left their families destitute. Well do we remember the long line that was drawn up in front of the line of volunteers, and pledged themselves, that their families should be provided for during their absence. The Red Hill Vigilant Association and citizens generally called a meeting and made arrangements, provided for the destitute families, each individual contributing a small amount. The plan worked well for a time, but for the last meeting or two there has been a marked falling off. The meetings have been poorly attended, and very little interest seems to be taken in the welfare of the destitute, when they stand as much in need of the common necessities of life as they did when their husbands left.

Fellow-citizens, where is your pledge? Where is your patriotism even without a pledge? And what right has one that pledged himself to withdraw, more than another? Well do we recollect that at the last meeting but very few attended; but that few still determined to redeem their pledges as long as they have anything to divide, or their pledge expires. Fellow-citizens, will you not come out and assist in redeeming the united pledge? Or will you leave it for a few to bear the burthens in which all are interested? We deem it a just and noble cause, and it is your cause as well as ours.

A Few of the Pledgees.

RETALIATION.—We understand that when Major Vodge was informed of the order of the War Department, to confine him to a cell as a hostage for some of our unfortunate prisoners, that he would not treat prisoners as prisoners of war, and that if it were in his power, he would advise every friend he had in the Lincoln army to resign rather than submit to such degrading conditions. The Major, however, conceded the necessity and propriety of retaliation on our part in such cases.—Montgomery Advertiser.

Attention, Volunteers!

LATEST NEWS.

From Tybee.
The Savannah Republicans of the 2nd says the Hessians left Tybee Island Saturday and Saturday night. One ship left Saturday for the South, one on Sunday bearing North. The movement is considered mysterious. It is supposed a garrison was left in their new works. Six Federal vessels were off Tybee Saturday.

Latest from Lincoln.
RICHMOND, Va., Dec. 1.—The New York papers, of Nov. 29th, have been received here. The Herald states that the destination of Butler's and Burnside's naval expeditions are to reinforce Gen. Sherman at Port Royal. A portion of Gen. Butler's force left Hampton Roads on Wednesday last.

The animals in Washington are in a terrible strait for forage. Coal is not to be had there, and wood is selling at \$10 a cord.

HYMENEAL.

MARRIED, in Darwell District, S. C. on the 15th Nov., by the Rev. E. Morris, Mr. R. B. MAYS, of Burke County, Ga., and Miss BEDIAR FRANKLIN, of Edgefield District, S. C.

OBITUARY.

DEPARTED this life on Friday night, the 22d inst., at 12 o'clock, M., at Charlottesville, Va., Private LANGDON CHEVES MOBLEY, of Company H, 7th Regiment, S. C. V., eldest son of Mrs. SUSAN E. and Dr. W. S. MOBLEY, just entering on the 21st year of his age.

It indeed a sad and melancholy duty to chronicle the demise of one so early and so suddenly struck down by the relentless hand of Death, and whose future bid fair to exceed even the most sanguine expectations of doing parents and friends. He was a young man of noble and unobscured talents in his general demeanor, he was a model for many of more mature years.

Whilst prosecuting his studies at Edgefield Village—a call having been made for a student, where, after two weeks of patient suffering, his happy spirit, released from its frail tenement, winged its upward flight to commune forever with the "spirits of just men made perfect."
