**Arms and Legs.**

**G. B. HOGGSON,**  
ARTIFICIAL LIMB MAKER,  
Manson House, No. 200, Broad Street,  
AUGUSTA, GA.

THESE limbs are distinguished for Lightness, Durability, and Satisfaction Guaranteed in all cases.

From the "Daily Press," Augusta, Ga., Jan. 15th, 1866.

"We are well acquainted with the gentleman who has been so unfortunately as to lose either an arm or a leg. He understands his business perfectly, and wears an artificial leg himself, of his own make, on which we have never seen any one not acquainted with the fact to detect it. We have examined these artificial limbs, and have no hesitation in pronouncing them the best we ever saw."

The following letter is one of the many received by Mr. H.:

EDGEFIELD DISTRICT, S. C., Jan. 9, 1866.

Mr. G. B. HOGGSON—Sir: I have tested the leg made by you; find it satisfactory, and am pleased with it. I have no hesitation in recommending the Artificial Limbs made by you to my comrades, who, like myself, have been unfortunate in the late war.

**T. W. GEITZEN, Capt. C. A.**

**THE AUGUSTA FOUNDRY AND MACHINE WORKS,**  
AUGUSTA, GA.

THE Undersigned having fitted up the above Works, and being supplied with an abundance of material, are now prepared to fill all orders for **STEAM ENGINES IN THEIR LINE**, and also for **STEAM BOILERS**, and at prices to suit the times, viz:

**SUBSTITUTE FOR PERUVIAN GUANO.**

**Baugh's Raw Bone SUPER-PHOSPHATE OF LIME!**

**Baugh & Sons,**  
MANUFACTURERS & PROPRIETORS  
No. 20, South Delaware Avenue,  
PHILADELPHIA.

This valuable MANURE has been before the agricultural public, under one name, for twelve years past, and its character for vigor of action and permanence in effect is well established. Before the war it was introduced to some extent in the Southern States, and was found to be highly adapted to

**Cotton, Tobacco and all Crops.**

And as a perfect substitute for Peruvian Guano, (afforded at less than one half the cost,) it has been adopted by agriculturists of known intelligence and discrimination. It is warranted not to exhaust the soil, but on the contrary permanently to improve it. The sales now amount to many thousand tons annually, and the facilities for its manufacture are extensive and complete.

Pamphlet describing its distinctive claims, may be had on application to the undersigned, agent of the manufacturer, from whom the MANURE may at all times be obtained.

Planters and Dealers would do well to send in their orders early to

**J. O. MATHEWSON,**  
General Agent,  
AUGUSTA, GA.

**WEST'S IMPROVED PUMP.**

Anti-Freezing, Double-Acting, Forcing and Lifting.

THESE PUMPS have now been in general use, a number of years, and give better satisfaction than any other, and are recommended as

**THE BEST!**

By CAPTAIN ERICSSON, and other eminent engineers. We can refer to thousands using them, and guarantee that all will recommend them, and state more simple in construction, and work easier, and cost less than all others.

"Our readers will find the double acting, improved Pump of J. O. Mathewson & Co. one of the best in market. It is very simple, works to a charm, so that any child may use it; throws a steady, continuous stream, and does not freeze in the coldest exposure, and is unusually cheap. We say this knowingly, and give the testimony of our own record, without the knowledge or request of the proprietors."  
—*J. O. Mathewson, Daily Intelligencer, Feb 14, 1866.*

"I have used this Pump for one summer and winter, especially in the north-west wind, coming over Long Island Sound, being the coldest possible exposure, and at no time did it freeze, nor were we unable at any time to pump water with great ease."  
—*H. B. McLVAN.*

"The undersigned having used West's Improved Pumps, cheerfully recommend them as simple, durable and powerful in raising and throwing water, and for their ease of action, security against frost, and low prices, we believe them superior to all others."  
—*WARREN DELANEY, Met. Hotel, N. Y.*  
*A. W. JONES, N. Y.*  
*JOHN MESSERAUD, N. Y.*  
*DOMINICK LAWRENCE, Winchester.*

"I have had in use for months past one of West's pumps, which has given me more satisfaction as a force and lifting pump than any I have ever used. This is one of the best pumps I have ever used, and I would recommend it to all who are in need of such a pump. It is simple, durable, powerful and easy to use. I know this and think I may be doing the farmers good by speaking of it. It will run for years and will not freeze, and will throw a continuous inch-and-a-quarter stream. It can be made to work in deep wells as well as in shallow ones."  
—*GREAT NECK, L. I., 1861.*

**CARD.**

**TO THE MERCHANTS OF THE SOUTH**

THE undersigned, Wholesale Dealers, advise you of the fact that Charleston is again a market for the purchase of goods, and in view of the early opening of the spring trade, we beg to solicit the remission of the patronage so liberally extended to us in the past.

We are aware that many old and respected firms will be missed from our number, but many familiar names will be found in new associations, ready to supply the wants of the Trade, as of yore, and our old and new firms will be added to our number at an early day.

The cash and short credit system having been universally adopted in all the Northern markets, we are necessarily compelled to adopt a like system as the only safe one on which to conduct business, and the heavy percentage once necessary to cover bad debts will now be avoided. Small profits and quick returns are our motto, and in order to work we hope not only to restore to our ancient city its former prosperity, but to extend her trade to the full extent of the capabilities of her excellent geographical position and natural advantages.

Our interest and ambition combine to stimulate us in attaining this result.

The South Carolina Railroad is now open to Columbia, and its President has officially informed us that the Augusta line will be completed to Blackville this month, and that on the last of February he will receive through freight to Augusta. A line of steamers to Savannah will afford direct communication in that direction. It is our purpose to have in store by the last of February a complete and varied assortment of goods in our respective lines adapted to the spring trade, and every exertion shall be made to promote your interests.

We extend to you the hand of commercial fellowship, and solicit your co-operation and patronage in our efforts to make Charleston the centre of Southern trade. Give us the encouragement we ask, and you will enjoy all the advantages of a cheap home market.
