GREAT IMPROVEMENT IN SEWING MACHINE.

Salesroom, 536 Broadway, New York

250 WASHINGTON ST., BOSTON, 921 CHESNUT ST., PHILADELPHIA. Patented Feb. 14, 1860.

THIS MACHINE is constructed on entirely new principles of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be Simplicity and Perfection Combined. It has a straight needle, perpendicular action manes the LOCK or SHUTTLE STITCH, which will notiber RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook muchin, with cotton, linea or silk thread, from the coarsest to the finest number. Having neither CAM or COG WHEEL, and the least possible friction, it ruas as smooth as glass, and is

Emphatically a Noiseless Machine. It requires PIFTY PER CENT. less power to drive it than any ether machine in the market.
A girl twelve years of age can work it steadily,
without fatigue or injury to health.
Its Strongth and wonderful simplicity of construction renders it almost impossible to get out
of order, and is GUARANTEED by the compa-

to supply themselves with a superior article, to come and examine this UNRIVALLED MA-CHINE,
One half hour's instruction is sufficient to enable any person to work this Machine to their entire satisfaction.
