That the Congress of the United States be, and it hereby is, rejuested to propose an amendment to he Constitution of the United States, to be submitted to the different States for their adoption, establishing equal and uniform suffrage for all male citizens of the United States throughout all the States of the Urion.

More than this, even in the Times and Tribune, caution as they are from the exigencies of the canvass, there peeps out this purpose to enfranchise the African in all the States. Muttering about the ejection of negroes from the pretended Legislature of Georgia, they hint that the XIVth amendment gives that race a right to hold office. If so. then, as that amendment, so far as it is an amendment, is equally applicable to Louisiana. Of course this will be denied. The saints are forever denying something that they afterwards do. They denied emancipation, subjugation, negro suffrage South, but they did them for all that, and, just as they now deny any purpose to force negro suffrage in the North, they will surely do it, if in their power. Counted in States, negro suffrage is ten out of thirty-seven; in Senators, it is twenty out of seventyfour; in Representatives, fifty out of two hundred and forty-three; in electoral votes, seventy out of three hundred and seventeen This is the balance of power-the power-and yet it is gravey proposed to intrust it not to 900,000 Chinamen, 900,000 Camanches, or 900,-br 000 Chinooks, but to 900,000 Congo negroes, so ignorant that, unlike any other people on the known earth, there is a special department of Government al lotted to keep them, like froward children, from tumbling into the fire. For shame, that with such an issue we should be deliberately insulted by a party declaring us no better than these helpless barbarians: They have never ruled anybody, not even themselves, and neither can nor ought to rule us in any the remotest or implied degree .- N. The New York Herald says, editorially: "The Governor of Alabama is certainly not far wrong in his notion that more National troops are unficcessary in that State. The pre en a of fifty thousand soldiers in would not be so effective in ke peace as the Camilla fight will prove. Now that the whole history of that event is seen, it is undeniably clear that the negroes provoked the disturbance. They marched with their Radical leaders, with a sic and arms, into a quiet town comporting themselves in an offensive manner, making a bullying expedition, and the menace of their conduct was met as if it were real. Negroes will see, by this example, that it is not yet safe to bully white men, and that will prevent collisions."
