

THE ADVERTISER.

Terms, \$2.00 per Annum.

Our Editor Absent.

On yesterday morning, after hastily packing his valise with an arm full of old exchanges, a box of paper collars, and a good brush, our Editor departed hence for the mountain regions of South Carolina, and will probably be absent for the next month.

A communication over the signature "Roxton" has been received, and will appear in our next issue.

A small account book, belonging to H. D. Hudson, has been left at this office. It was found in the public road a few days ago. The owner can get it on application.

Friend QUINN, the Augusta News Dealer, has our best thanks for a batch of late papers and a paper printed in this country or Europe, and you will very likely get the book or paper called for. Never leave Augusta without paying QUINN'S establishment a visit.

The Rev. Mr. Broadens in the Male. As with his usual reference to our advertising columns, the Rev. Luther Broadens will assume charge of the Edgfield Male Academy on the 15th of September next.

That Mr. Broadens has determined to take the Male Academy, without a doubt, good news for the people of Edgfield. He is young, fresh in body and vigorous in mind, and has not had time to forget anything of that high course of study which so distinguishes his alma mater—Furman University.

Our young friend WILLIE CHEATHAM has just returned from Baltimore, where he has been for the last six or eight months receiving instruction in the art of tuning and repairing Pianos, and brings with him a high recommendation from the Principal of the Institution as to his proficiency in that art.

Friend BIRD sends us two very fine melons, the largest, if not the best, we have seen this season. And Capt. R. WARD presents us with a basket of very superb grapes, thoroughly ripe and fine. Gentlemen, we thank you.

In glancing over the proceedings of the Commencement at Emory College, Oxford, Ga., on the 19th, we notice the following complimentary allusions to our old and esteemed friend, W. T. SIMMONS, Esq., of Edgfield, South Carolina, a son of Edgfield and well known throughout our District—and take pleasure in transferring the same to our columns.

DEATH OF A REPENTANT ROVER.—Recently, a negro of bad character died in this County, named Sam. Reynolds. He had been strongly suspected of setting fire to the gin-house of T. B. Fraser, Esq., which was destroyed by fire more than a year ago.

STUDENT DEATH.—On Monday last, the second son of Mr. Sol. C. Harman, a promising child of about ten years, came to a most melancholy and sudden death. He had been playing in a pile of cotton seed, and being missed at dinner, upon search he was found smothered in the cotton seed.

A Lady Uses One.—The following, from Hon. Edmund Burke, speaks for itself: DEAR SIR—In February last a fire occurred in my dwelling-house. It caught from a stove-pipe, between the ceiling and floor of the second story, and had made considerable headway when discovered. It was in a place difficult of access, and much combustible material around it.

Mr. J. A. Emminger discussed a theme that was calculated to excite the emotional nature, and also to arouse the more intense feelings of our bosoms. He said that he had been in the country of the South, and had seen the people of the South, and had seen the people of the South, and had seen the people of the South.

Of Deep Interest to Many Edgfield People.

Of deep interest to many Edgfield people will be a forth coming book, entitled "Reminiscences of Dr. W. B. JOHNSON." This book is to be issued by the Rev. Mr. GAINES, editor of the Working Christian, and will be compiled from certain manuscripts written by Dr. JOHNSON a few years before his death.

In this community where Dr. JOHNSON lived and died, during the best years of his life, we think there will be no difficulty in securing a large list of subscribers to the proposed work. We hope that many of his old scholars, many of his old friends, many admirers of his pure and stern Christian character, will, without delay, send their names to Mr. GAINES. Address "Rev. GAINES, of the Working Christian, Charleston, S. C."

Speaking for himself, personally, we know Dr. JOHNSON in the most intimate manner, and we loved and honored him in the profoundest manner. He died in Greenville in October, 1862, during the war, in his 81st year—a devoted patriot, who watched and worked for his native South until his latest breath, and died praying for his freedom.

For us, it will be not only a pleasure, but an honor and a privilege, to receive and forward the names of subscribers to "Reminiscences of Dr. W. B. JOHNSON." From our diligent young friend, Mr. WILLIAM HAYNE FALK, of the Batesville section—himself a member of the Junior Class—we acknowledge the receipt of a Catalogue of Wofford College for 1871.

This Institution (Spartanburg) embosomed amid the quietude of the mountain-side of our State, is now—as long before the war—well able to cope with any of the sisters in mental, moral, scientific or religious culture. The number of scholars at Wofford during the last scholastic year was 136. Among these four are from Edgfield—two sons of the Rev. J. W. BARR, a son of Capt. LEWIS JONES, and our young friend above mentioned.

A Connecticut man recently traded off his wife to a peddler in consideration of his pack of goods. After looking them over, he came to the conclusion he had been cheated. So he went back to the peddler and demanded a return trade. The wife-buyer, after a moment's reflection, said, "All right, my friend, I think I am cheated too. I have examined the goods, and I too am not exactly satisfied."

The citizens of Greenville propose to establish courts of arbitration so as to avoid the laws' delays and costs. A Connecticut man recently traded off his wife to a peddler in consideration of his pack of goods.

Grand Prize Distribution.

\$500,000 TO BE GIVEN AWAY!

THE SOUTH CAROLINA LAND AND IMMIGRATION ASSOCIATION.

The undersigned have entered into an Association for the purpose of introducing immigrants into South Carolina and procuring homes for the same. They propose to establish Agencies in the principal Cities of Europe and the North and Northwest, and assist immigrants in coming to our State, where they will have homes provided, and aid in becoming permanent settlers upon the soil.

They will be able to offer the best Cotton, Grain and Truck Land in the healthy portions of the State, at very low prices, and on long credit, enabling the purchaser to pay for the same out of the crops raised. They will also assist immigrants, when necessary, to transportation and subsistence for the first year.

Circulars will be prepared and distributed, explaining our plans more in detail. Central Office, ACADEMY OF MUSIC, CORNER KING AND MARKET STREETS, Charleston, South Carolina.

THE UNIVERSAL LIFE INSURANCE COMPANY, 69 Liberty Street, New York.

The Original Stock Life Insurance Co. of the United States. OFFICERS: WILLIAM WALKER, President. HENRY J. FURBER, Vice-President JOHN H. BEWLEY, Secretary. GEORGE L. MONTAGUE, Actuary. E. W. LAMBERT, M. D., Med. F.

This Company Offers the Following Important Advantages to those About Effecting Insurance on their Lives: 1st. Insurance at Stock Rates, being from 20 to 30 Per Cent. less than the Rates charged by Mutual Companies.

2d. Each Policy-holder is regarded as a Stockholder to the extent of one Annual Premium on his Policy, and will share in the Profits of the Company to the same extent as a Stockholder owning an equal amount of the Capital Stock.

3d. Every Policy issued by the Company is non-forfeitable, and contains a Clause stating its exact Surrender Value. BEFORE INSURING YOUR LIFE OR ACCEPTING THE AGENT OF ANY COMPANY, READ THE FOLLOWING:

A lengthened experience has demonstrated that the rates of Premium originally charged by Life Insurance Companies are from twenty-five to thirty per cent. in excess of what are necessary for a safe and legitimate conduct of the business. In other words, carefully and prudently managed Companies charging "Mutual" rates have been able to return to their policyholders from 25 to 30 per cent. of the amount charged for premiums.

When Life Insurance Companies were first organized, the reliability of the data upon which the premiums were constructed had not undergone the test of experience. It was thought, therefore, no more than common prudence to adopt a scale of premiums which would, in any event, meet all the presumed and unforeseen contingencies of the business.

As long as the matter was involved in some doubt, it was better to fix the rate too high than to incur the risk of making it too low; because, in the former case, the error could be easily remedied, at least in part, by returning to the policyholders, at certain intervals, such portion of the premium charged as was found unnecessary for the purposes of the business and the complete security of the Company.

Experience has shown that there are sources of profit in the practice of the business which theory will not admit of being considered as elements in the calculation of the premiums. These results from a saving in the mortality of the members of a Company owing to the selection of good lives, a gain in interest on the investments of the Company, and the economy in the calculation of its premiums, the profits derivable from the lapse and surrenders of Policies by the members, and from other minor sources.

Profits from these sources, in a Company possessed of a capital of \$200,000, and doing a fair amount of business, would give to the stockholders a dividend largely in excess of what would be paid on the same amount of stock by the Company at the time of its organization. They have, therefore, determined to divide among the policyholders of the Company a large part of the profits accruing from the sources named, all of which have heretofore been divided among the stockholders.

The plan adopted for each division is as follows: Every person who may hereafter insure with the Universal will, for the purpose of division, be treated as a stockholder to the extent of one Annual Premium upon his Policy; and will share in the profits of the Company to precisely the same extent as a stockholder owning an equal amount of the Capital Stock.

By this system of Insurance, original with the Universal, the policyholder secures the following important advantages: First, Insurance at the regular "Stock" rates, requiring a primary outlay of about twenty to thirty per cent. less than that charged by Mutual Companies, and which is equivalent to a yearly "dividend" paid in advance of that amount on mutual rates. This low cost of insurance is worthy of attention. Since its organization this Company has received in premiums from its policyholders the sum of \$1,440,954,941. The low rates of premium, coupled with economy, and all that was necessary to effect the same amount of insurance in a Mutual Company, would have cost them an additional outlay of \$200,000. By allowing its policyholders to retain in their own possession this excess of \$483,000, the Universal has virtually paid them a "dividend" of \$483,000, and paid it, too, in advance, instead of at the end of one or more years. It is impossible to find any example of a Mutual Company furnishing insurance at so low a cost by returning to its policyholders an equal amount upon similar principles.

Second, Participation in the legitimate profits of the Company, upon a plan which secures to the policyholders the same treatment which Directors and Stockholders award to themselves. This system of participation, in connection with the low "stock" rates of premium, must necessarily secure to the policyholders every possible advantage to be derived from prudent and careful management.

The rates of premium charged by the UNIVERSAL LIFE INSURANCE COMPANY are insured at its lowest practicable cost. Those of the existing Policyholders who desire to participate in the Profits under the new Plan can do so by making application to the Head Office, or to any of the Agents of the Company. The Company is in a sound financial condition. Ratio of Assets to Liabilities 136 to 100.

GOOD RELIABLE AGENTS WANTED, who will deal directly with the New York Office, and to whom full General Agents' Commissions will be paid. GEO. B. LAKE, General Agent. May 24 2m 22
