the only material we have.

### Sheep on a Poor Farm.

Some farmers of our acquaintance feel an antipathy to sheep, for the reason that they "bite close." We consider this their chief recommendation. They can only bite close where the pasture is short, and the pasture is short only on a poor farm. A poor farm will- necessarily be encumbered with briars, weeds and brush, in the fence corners. Under have luck (that means if you give lows and cracks with water, and tie them proper attention and feed regue down the lid. Put it at night in a larly,) you will raise more lambs very warm, not hot oven, and let it than you have ewes. The money stay till morning. Take it out at may put that field in corn, with the fast, luncheon, dinner, or supper, and

### The Salt and Lime Mixture. The mixture is made by disolving

one bushel of salt in the least water possible, and then slaking with this three bushels of lime hot from the kiln. This is all the salt that can be used by this m . to slake the lime. The most v lumble lime for agricultural purposes is shell lime, or that made from burning oyster or clara shells. Another method recommended by C. W. Johnson is, to mix one bushel of salt with two of lime, dry under cover, and allow it gradu ally to decompose and unite the .- hiorine of the salt with the lime. It may be turned occasionally for two will be well united together. And distely, but should remain incorporchemical changes that take place

are: The chlorine of the salt unite chloride of lime; the soda of the salt is mostly set free, and probably slowly attracts carbonic acid from the air, and forms carbonate of sodu. The mixture has a remarkable de three or four bushels of it with a cord A Maryland correspondent writes: of swamp muck, leaves, or any other | "At Chester, on Kent river, I talkvegetable matter, it will soon be re- ed with Mr. Edward Wilkins, probaduced to a powder. It is most excel-lent to mix with coarse manure for living in the United States, who fold branch, the old spring branch—ah! the old branch, How my heart leaps up at the sound, lent to mix with coarse manure for living in the United States, who told the purpose of decomposing and rendering it fine. After the sour muck gave, as an instance of the propaga-from wet places is decomposed by the tiveness of nurseries, that one man salt and lime it is then in ripe condition to be composted with barnyard manure, and compost becomes as valto raise peach plants for bearing pur-poses. Wilkins peach farms are unble as the barnvard manure alone. Almost every farm has a supply of muck, which might be turned into been greatly benefitted by mixing size, is the 'Round Top' farm near with the salt and lime—correcting its Chestertown, and planted by a Pennvaluable manure. Hog manure has peach farm in the United States, in rank character and fitting it for garden use; but it is probably better that the salt and lime should first be omposted with muck and then applied to hog manure. We stated in our first article on manures that salt and lime, composted with barnyard bury recently stated, in a public manure, would preserve the ammo- meeting in London, that, from pernia. This has been considered by most who have used it as practically | that of adult criminals of that city, correct; but, theoretically, that small nearly all had fallen into a course of portion of this mixture, which be crime between the ages of eight and comes carbonate of soda, would be sixteen years; and that if a young

The salt and lime mixture alone is a fact of singular importance to at the communion table." makes an excellent top-dressing for fathers and mothers, and shows a "Yes, tank de Lord, massa, I was most crops, at the rate of twenty to fearful responsibility. Certainly a lowed to be dar wid de rest of His thirty bushels per acre. The char-acter of the lime is so much changed solute control over the child at sevenby the union of the salt, that there teen. It cannot be a difficult matter see you there," he said. "How is it is no danger of injury from an excestion of this, except in very fare cases; is no danger of injury from an excessive quantity, and, where land has been overlimed, a top-dressing of salt will correct it at once. The decomposing effect of this mixture upon vegetable matter in the soil is very tenderal representations. The decomposing effect of this mixture upon vegetable matter in the soil is very tenderal representations. Hence the real source of minety-eight per to let an old goose stand atween me tent of real crime in a country like.

The field & fireside turnip field has produced as large a Englang or the United States lies crop as twenty loads of the barn at the door of the parents. It is a green the could only be fearful reflection. accounted for on the supposition of its decomposing vegetable matter in the soil, and rendering it fit for plant food. It is also very destructive of insects, grubs, etc., in the soil. Like salt, this mixture has the power of attracting moisture from the air, and less often hear observed to present medical properties.

Geod Taste in Dress.

It is mistaken economy to furbish the cork, instead of striking the final blow and sending the spigot in fast and secure, he kept tapping it until the cork went in and the lager spirited out.

picking two bales per diem, rather than four. For a small crop as this year, there is abundant labor to save it, if it can be made available.

Another question—is it best to diem before the property of the ment of the most, work the fewest hours. They bring all their them to save brain and muscle into exercise, and make every blow tell. A slow, plod-lining, the roses and necktie freshen lining, the roses and necktie freshen lining no one and rose are lining no one are Another question—is it best to gather while the weather is good and ohuse it, and delay ginning, which may be denoted by the denoted by the content of the boys handed him the spigot.]

Special Notices. CONSUMPTION. ITS CURE AND ITS PREVENTIVE. By J. H. SCHENCK, M. D.

ALL DESCRIPTIONS By J. E. SCHERCE, M. D.

Many a human being has passed away for whose destin there was no other reason than the neglect of known and indispotably proven means of cure. Those near and dear to family and friends are sleeping the dreamless alumber into which, had they calmy adopted

DH. JOSEPH H. AUHENCE'S SIMPLE.

and availed themselves of his wooderfully efficacions medicines, they would not have fallen.

Dr. Schenck has in his own case proved that whatever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quick ened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works: The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuming, self-convincing. In order to be root PLATT BROTHERS (Formerly C. A. Flatt & Co.,) 214 Broad Street, Augusta, Ga.

## MI SPRING TRADE, 1871

The Sea-weed Tonic, in conjunction with the Pills, permentes and assimilates with the food. Chylification is now progressing without its previous traction is now progressing without its previous tractions. Digestion becomes paintess, and the cure is seen to be at hand. There is no more fixtulence, no exacerbation of the stomach. An appetite sets in. Now comes the greatest Blood Purifier ever yet given by an indulgent father to mifering man, schench's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. He enters at once upon its work. Nature can not be cheated. It collects and ripents the impaired and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and iof in a very short time the malaxy is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womailhood that was "GIVEN. UP AS LOST."

The second thing is, the patients must stay in awarmroom until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure can active effected. Fresh air and riding out, especially in the section of the country, in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are house they must not sit down quiet; they must walk about the room as much and as fast as the strength will hear, to get up a good circulation of blood. The patients must, keep in good spirita—be determined patients must, keep in good spirita—be determined Complete sets from \$5 to \$20 per set. 19 BASE BALLS. ment to the Faculty of his own enre was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live wweek; then, like a drowning man extering at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to mat that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more tham plut of offersive yellow matter every morning for a long time.
"As soon as that began to subside, my cough, fever, pains, and night-sweds all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in fiesh ever since.
"I was weighed shortly after my recovery," added and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in feeb ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a merekaleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (22) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Tr. still continue to see patients at their Office, No. Is North Sixth Street, Philadelphia, every Saturday from 9 a.m. to 3 - Mr. Those who wish a thorough examination with the Respirometer will be charged &t. The Respirometer deplares the exact condition of the langs, and patients can readily learn whether they are curable or not. The directions for taking the medicines are singled to the infailigence even of a child. Follow-these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them: First create appetite. Of returning health, hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the Guyl locesum, the hight-west is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pilmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylicater against consumption in any of its forms.

disorder, which were as gravated by the seroficus containation unit they were painfully affilieting, have been radiically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Serofatous poison is one of the most destructive enemies of our race. Often, this unseen an unsfeit tenant of the organism undermines the constitution, and invites the attack of enfechling or fatal diseases, withant exciting a suspicion of its resence. Again, it seems to breed infection chroughout the body, and then, on some favorable occasion, rapidly develop into one or other of its bideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruption on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is adriable, even when an active symptoms of disease appear. Persons afflicted with the following complaints generally flad immediate relief, and, at length, cure, by the use of this \$ARSAPARILLA: St. Anthony's Fire, Rose or Erystipalas, Tetter, Saft R'heum, Scald Hend, Ringuorm, Sore Eyes, Sore Ears, and other cruptions or visible forms of Serofulous of Also in the more concealed forms, and proper affections of the muscular and nervous systems.

Syphilis or Tenerval and Mercurial Diseases are cured by it, though a long time is required for subding these obtinate maladies by any medicine will cure the complaint. Leucarrhors or Whites, Uterine Ulceratians, and Fenale Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanac, supplied gratis. Rheumasten and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints. Forpidity, Compession or Linguist and Listless, Despondent, Stepless, and translates of its restor
