

Hope On,
When the life like cloudy weather,
Is with darkness o'ercast,
And fate whirls thee like a feather,
Some upon the windy blast,
When darkest skies are lowering,
Some hope for some bright heart,
Some may be like summer's flowers,
In glorious radiance start.

Hope thou on, what fate betide thee;
Hope alone can comfort give;
While thou have a friend beside thee,
That must have an aim to live,
Hope but not too much in earth;
Fleeting things that pass away,
Ere the anxious hand has grasped them,
They have mouldered to decay.

Hope, but not for fame or glory,
Fame is but a passing show;
The gilded name in story,
Altogether they are gone;
After them, but not to follow,
After titles, rank, or wealth;
This world's titles are as hollow
Riches cannot give for health.

Hope thou on! Yes, hope forever,
In the trust that falleth not;
Hope when we've crossed death's river,
When the angels are about;
With the just to cast our lot;
Lest all looking toward the fountain,
Whence all healing waters flow,
We be left in the holy mountain,
When the joys of heaven may know.

The reply of Luke Billups, a worthy Louisiana negro, to a Radical who wanted him to support a carpet-bagger, was to the point. Billups said: "I cannot support that man or any other stranger. I see around me gentlemen working in the field with the plow and hoe who were wealthy before the war. Among them I see my old master, earning his bread by the sweat of his brow, while new comers are making their living easily by staying in the shade, and that is something I do not understand. I have lived in this parish thirty-three years, and have always been well treated by every one residing here, and I shall give my influence to no man who is not identified with the parish."

THE CAUSE AND CURE OF CONSUMPTION.
The primary cause of Consumption is derange-
ment of the digestive organs. This derange-
ment produces deficient nutrition and assimilation.
Consumption means that process by which the nu-
trition of the food is converted into the whole
mass of the solids of the body. Persons with
derangement of the digestive organs, and who take
digestion thus impeded, having the slightest gain
in weight, the food is converted into the whole
mass of the solids of the body. Persons with
