A FULL SUPPLY OF PERUVIAN GUANO, GROUND BONE AND LAND PLASTER ON HAND AT ALL TIMES.

IMPORTANT TO COTTON PLANTERS.

Have prepared a Special Fertilizer adapted to the Cotton Plant,

Which they claim to be of the highest grade of Fertilizer sold in the South and guaranteed to equal in its results Peruvian Gnano, pound for pound and to be of more permanent benefit to the soil.

It has been used by SEVERAL HUNDRED PLANT-ERS in North and South Carolina and Georgia for two Seasons with the following results: It increases the crop from 100 to 200 per cent.

It resists drought in all cases. The crop is not affected by rust. It matures the crop three to four weeks in advance, thus insuring the rop against early frosts, or in the event of a backward season for planting enables the planter to put in his crop three or four weeks later, even as late as the 1st June, with a certainty of success. It produces a better quarity of Cotton. Looking at the low price of Cotton, the intelligent planter will readily

ration, or the use of cheap materials under pretence of meeting the low his crop is only doubled by the use of "COTTON FOOD" it will give a from one to two hundred per cent profit on his outlay, with Cotton at

Li cent- per pound, and it will enable him to plant fewer acres with a corsponding re-notion of labor and expense with better results. LAWRENCE SANGSTON, Prest.,

58 Exchange Place, Baltimore, Md. J. R. PRINGLE & SON, Agents,

PREPARED BY THE DICKSON FERTILIZER COMPANY. A UG USTA, GEORGIA,

Of Standard Quality & Excellence, GUARANTEED FREE FROM ANY ADULTERATION.

CASH PRICE, \$55 PER TON,-TIME, \$60! MATERIALS FRESH AND PURE!

NO OLD STOCK ON HAND! We refer generally to our customers, to be found in almost every com-munity, and we publish no certificates.

Also, FINE GROUND PURE BONE for composting and fermentation in article which cannot fail to give satisfaction. PRICE, \$40 PER TON. We manufacture any formula for other parties as may be ordered, and guarantee good work and best materials. I have used the Wando Fertilizer for two years, and willingly testify as to its merits. Taking into consideration its cost, it paid me better, as an investment, than Peruvian Guano, and is equal, if not superior, to any fertilizer in the market, of which I have any practical knowledge.

Important to Cotton

COTTON FOOD SECURED BY LETTERS PATENTS TO A SPECIAL FERTILIZER, prepared by the Maryland Lendizing and Mismiss facturing Company, Baltimere, for the cetton crop, which they claim to be of the highest grade of Fertilizers sold in the South. highest grade of Fertilizers sold in the South.

It has been used by several hundred planters in North and South Carolina and Georgia for four seasons, with the following results:

It increases the grop from 75 to 200 per cent.; it resists drouth in all cases.

The crop is not effected by rust; it matures the crop from three to feur weeks in advance, thus insuring against early frost, or in the event of a backward season

enables the planter to put in his crop as late as the 1st June with a certainty of out additional manure, ranges from one-third to one-half of the first year.

Its mechanical preparation surpasses that of all other Fertilizers, being at all imes and in all conditions of weather in perfect order for drilling.

PRICE IN AUGUSTA-860 CASH . 865 TIME. It is sold on the basis in quality of Peruvian Guano, poundfor pound. Agents are instructed, when planters use it side by side with the best Peruvian Guano me equal quantities, to refund such amount as will make it equal if it fails to produce as much cotton as the Peruvian. Numerous testimonials can be had at the offices of the greater.

of the agents: Orders will be filled by GRAHAM & BUTLER, Agents, ...

Gen. M. C. BUTLER, Edgefield, S. C. "I would be applying 200 lbs. to the acre. By the side of it Tapplied 200 lbs. To the acre." "The Cotton manured with the 'Cotton Food' grew off more promptly and vigorously, and whilst I made no comparison of the fesults, I am sure the preference was in favor of the 'Cotton Food,' and so much am I impressed with this belief I. shall use it exclusively this year in preference to all others. The Cotton manured with it was not affected like the others by the drouth, and matured three weeks earlier. I also applied it in a small way on Corn with the most satisfactory results.

J. H. HOLLINGSWORTH, Edgefield, S. C., to GRAHAM & BUTLER! Argusta:
"I used 100 lbs. 'Cotton Food' to the acre, in the drill, on Mulatto Land, mixture
of sand, it increased the yield one hundred per cent. I used several other kinds
the year before and I decidedly prefer the 'Gotton Food.'—It gave perfect satisfied
tion, so much so that I shall use a entirely another year. H. W. ADDISON, to GRAHAM & BUTLER, Augusta, Ga. v. "I used 75 lbs. 'Cotton Food' in drills on light red land, which produced L) I pounds Seed Cotton to the acre. It compares favorably with the best Fertilizers in the market. My crop was increased about 50 per cent. and gathered by 15th 'No' vember. I am well pleased with it."

J. L. ADDISON, Edgefield, S. C., to GRAHAM & BUTLER, Augustar Gar "I used about 266 lbs. 'Cotton Food' per acre, one-half in the drill at time of planting and one-half in the first furrow, second plowing in June, on sandy land, clay subsoil, very poor old field, a portion taken in last year and a portion this, it produced twelve bales on fifteen agres. It has paid better than any Fertilizer E A bave ever used. Have been using Commercial Manures II years. Do not think the land without manure under best circumstances would have produced 5 bales. Most of my Cotton was gathered by the 25th of October, and had no Yellow Cotton. I have talked with several of my neighbors, who daite with me in saying, there. It no better manure, for the Cotton Plant, The 'Cotton Food' has paid better than
