Our Supplement. This week our Supplement, in addition to several important State laws, contains a varied selection of interesting miscellaneous reading, to which we invite the

attention of our readers. Our Devil, on the eve of going to Boyce, W. L. Trenholm, A. B. Davidson, press, played the d-l with our "Notes in Brief from Johnston's Depot,"-and in consequence of his carelessness we are now necessarily compelled to defer

the said " Notes" until our next issue. "It Blesseth Him Who Gives and Him Who Takes."

Such a bouquet as we (D. R. D.) re ceived lately-with kindest wishes upon an anniversary day-from our honored friend, Mrs. Nathan L. Griffin, is "a thing of beauty, a joy forever"-blessing "him who gives and him who takes" Our thanks and our appreciation, we beg to assure our esteemed and gentle friend, are very heartfelt and very genuine.

A New Organ for the Baptist Church. We would direct particular attention to the card, in another column, of Simmons & Clough, organ builders, of Detroit, Mich.

We are glad to announce that the Baptist congregation of our town, will soon receive one of the popular instruments of Simmons & Clough-whereupon we shall have more to say upon the subject.

An Aiken Editor Visits Our Town It gave us much pleasure, a day or two since, to receive a visit from Mr. H. F. Sparnick, a very agreeable gentleman, and editor of our neighbor and cotemporary, the Aiken Tribune.

A New Citizen and Professiolal Man. With much pleasure we call the atten tion of the public to the card of Dr. Shaffer, in another column. Dr. Shaffer, who has lately settled among us, is a gentleman of the highest character-and in his professional character is skillful and experienced.

The Floral Fair -- The Sabre Club Contest -- The Ball.

All these grand and brilliant things are to take place in Augusta soon. The but now he was free to say that it was the Horticultural Exhibition is to be held on Wednesday and Thursday, May 8th earth. Col. McClure said the English of and 9th. The grand and novel Tournsment between the Sabre Clubs of Savannah and Augusta will take place on the same days, and at the same place-the grounds of the Cotton States Mechanics and Agricultural Fair Association. The Ball, to be given in Fleral Hall, will wind up the two days' amusement. If all this does not draw a throng of visitors from Edgefield, we do not know what will.

We are happy to acknowledge the receipt of a complimentary ticket to the Horticultural Exhibition. Fatal Accident.

Mr. John Red, a young man from Barnwell County, who has been residing in our town for several months,-an industrious, sober and clever young manwas killed by the cars of the C. C. & A. Railroad on Friday night, the 18th inst., near the junction of the two Railroads at Graniteville.

GBANITEVILLE, S. C., April 21, '72. To the Editor Daily Union:

A heart-rending accident occurred at this place last night caused by the neglect of the C. C. & A. train to sound their whistle at the usual place. The name of the victim was Red, who, I am informed by the Hon. John Woolley, was a man of estimable character. He leaves a wife to It is said that at the time of the occur-

rence the two trains from Augusta, due here at the same time, were running a race. Evidently Mr. Red attempted to jump upon the train, which he would not ne had the whistle sounded the usual "stop." If Lyon's KATHAIRON be faithfully applied once or twice a day, to the fibres and the scalp, We have heard of late of the frequent occurrence of Railroad accidents in the South. And when it is established that an accident occurs through negligence of harsh and fuzzy, as that a meadow, duly refreshed with nightly dews and sunlit rains, should become arid and barren of the officers of the Road, not only should the public manifest its indignation, but green blades. This matchless prepara-tion not only keeps the hair alive and the skin of the head in a healthy and clean condition, but actually multiplies the filaments and imparts to them a lusthe parties who hereby are deprived of the stay and support of the family, should resort to the law, and require these corporations to answer in heavy pecuniary tre, flexibility and wavy beauty unat-tainable by any other mode of treatment. It does not, like the metallic and sulphu-rous hair dyes, dry up the natural mois-ture of the scalp, but supplies nutriment to the roots of the hair and vigor to the damages for their acts of carelessness. Mr. Red leaves a family who were dependent on his labors for a support.

It is not yet a great oak, but it really promises to become one You would be surprised to see how rapidly it is becoming a town. And the "Fredericksburg Store" of Johnston's Depot is that of our friend, George J. Toney, who has been so long in the real Fred ericksburg Store in Augusta. Fashionable Twinklings. The newest style of costumes has the

ming of the back of the dress differfrom that in front. The Alsatian bow is the latest novelty the day in trimming and is used on sses, cloaks, sacques, and bonnets. Plain gold sleeve studs, rounded like a button, and without chasing or monogram, are the latest novelty in that line. A new kind of lace for trimming dress es is called "daisy lace," and is about a finger wide, the edge being formed by

large silk daisies. The effect is fine on a black silk. There are three kinds of lace-the handmade, called point lace; that made on a cushion, which is Valenciennes, and the machine lace, which is now so much used at Apr 10 for trimming.

Ladies' and Men's Ralbriggan and Half Hose: Also, English and ian Hostery, this week, as tions-never to assail other Companies, but always to stand on the defensive It is well to note that there is only one Agent representing our Company as plants live Jown TUBBETYES to in the States of South Caro in aand Georgia who is working on a guarantied salary, and the President reports that he is making his guarantee. The Collier de, Grace and de Misson commissions allowed our Agents on all plans average less than are paid by other competing Companies-but, as the President stated in a letter of re

cent date; are as large as he is justified in safely giving, acting on the ad-Piedmont & Arlington.
It is the only Southern Company that has passed the rigid inspection of the Insurance Departments of New York, Ohio. Missouri, California, and sole Spring Cassimerise out for others, and is working successfully with Northern agents, at no extra expense of salaries on Northern territory. It has also gone into England with

expense but the regular moderate commissions paid Agents here. To be Plain Black and Colored Silks? brief, we offer you a well-established Southern Company, which will insure your life and pay a fair interest on your money from the day you invest, and the principal punctually when due, not requiring you to let your capital lay Imitation Japanese Surs idle for several years as is the custom of many Companies, without the usual forfeitures of policies from death in violation of the law of the State in which you reside, or the United States, or from non-payment of premiums

which you reside, or the other States, or from hou-payment of premiums when prevented by war, as was lately the case at the South.

Your investment is safer in the Piedmont & Arlington, because it must be based on real estate of twice the value, without restriction as to territory, and cannot be destroyed in one fire, as was the case at Chicago, and as may be at any time in any Company (fire or life,) organized in the State of New York, for the State laws restrict their investments to New York city, and fifty miles around, under penalty of forfeiture of Charter for violation of law Thus is to be apprehended not only the danger of destruction of Capital and Assets by fire, as was the case with about 60 fire Companies at Chicago but also the lower rate of interest on first class investments from restriction of territory by State laws. That the New York Companies feel this restriction, is proven by the persistent efforts of their different Insurance Conventions to have it removed, so as to allow their vast and rapidly accrning capital to have the advantage of the larger rates of interest, and greate hoice of investments; but the contracted policy of their State legislators
