

Terms, \$3. per Annum.

Our Agents in Charleston.

The Advertising Agency of Messrs. Walker, Evans & Cogswell, represented by Roswell T. Logan, Esq., is the only authorized Agency for this paper in Charleston.

A Lecturer Among Us.

Mr. A. S. Marshall, of Philadelphia, will deliver a lecture in our Court House this evening, the 7th, at 8 o'clock. Mr. M. has traveled much in Europe of late years, and was in Paris during the siege of the Communists. His lecture will be concerning these topics. He comes South highly recommended by leading citizens of Philadelphia, and by prominent officials of the Young Men's Christian Association, of which he is an earnest member. Mr. Marshall charges no admission fee to his lectures, but will receive anything which may be voluntarily contributed at his close.

Miss Gibbs' Entertainment.

Miss Gibbs' School Entertainment, which could not take place on Friday evening last, on account of the heavy rains, will come off on Thursday evening next, 8th inst., in Masonic Hall.

Grand Societies' Exhibition.

Messrs. Wheeler & Co. will give one of their popular Societies' Exhibitions in the Court House, on Friday night next. Their comes from sacred and secular history, and no less beautiful than instructive. The members of our community may spend a pleasant and profitable evening at this Entertainment. Admission 50 cents; children 25 cts.

Keen & Cassels' Next Week.

As we go to press, we receive from those magnificent Dry Goods Merchants Keen & Cassels, of Augusta, a card of offering to our people extraordinary inducements during the next week. We regret that we have not space to do justice to this issue. But remember the burden of it: Great advantages at Keen & Cassels, where Capt. W. H. Brunson is an Edgfield Horse in New Orleans and Memphis.

At the races in Memphis during the past week, Col. Bacon's Frank Hampton won the winner in two important contests—a 2 mile single dash on Thursday—and a 2 mile stake on Friday. A fortnight only before this, the same horse won a brilliant race in New Orleans. He and Ned Braze will run in Nashville next week, and go thence to Saratoga or Chicago.

Fire Company.

The young men composing the Fire Company now being raised in this place, are requested to assemble at Council Chamber this (Wednesday) evening, at 7 o'clock, P. M. A full attendance is desired.

A Word to the Jury Commissioners.

Don't forget to draw your Jurors—not more than fifteen nor less than seven—before the next session of Court, which you will bear in mind, is on the first Monday in June. "A word to the wise is sufficient."

Mail Irregularities.

From Longmiers, Rehoboth and Cold Spring Post Offices we hear frequent and loud complaints about the irregularities in the arrival of their papers and letters, and hope the accommodating Post Master at Hamburg will assist us in remedying the evil complained of, and find out if possible where the fault lies.

An Office not Worth the Seeking.

Since the reduction of the fees of the Sheriff's office, by our Legislators at their last session, the office is worth literally nothing. Hearing Sheriff Wall complain very earnestly concerning the reduction of the fees of the officers of Court, we made enquiry concerning his receipts for the month of April, and on an examination, he reports his entire income for the month by way of fees, service of writs, &c., at only \$10.08. And says "It's a blasted shame for a set of legislators to exact six hundred dollars a year for their own services,—which could have been as well rendered in half the time, and at half the pay required,—and then to pretend that they are protecting the interests of the people by reducing the already miserable pittance allowed the officers of the Court. They are justly due it, yet they don't hesitate on any and all occasions to line their own pockets at the expense of the tax-payers, regardless of their much vaunted patriotic considerations in behalf of the people when the times fall to some one else." And Sheriff Wall is right. While they were reducing fees and wages, why did they not cut consistently to reduce the salaries of the officers of the State and County offices, the legislators included?

We hope to see this fee and salary reducing business restricted, or at any rate made more equat, at the next session of the Legislature.

The Augusta Hotel.

See the card of Mr. Patrick May, in another column. This May is the cordial, energetic and gentlemanly proprietor of the Augusta Hotel. Since the setting in of the new year, Mr. May has overhauled the old Augusta in a very thorough manner; and now, as regards eating, or drinking, or sleeping, or sitting, or lounging, or desirable location, or what not, the wayfarer man can find no better place than May's Augusta Hotel.

Off for the Lava Beds!

A "grape vine" telegram from President Grant to Capt. E. E. Jefferson, the wide-searching and far-reaching Agent of the Piedmont & Arlington Life Insurance Company, orders the latter to go forthwith to the Lava Beds, and seek out and locate Capt. Jack and the Modocs. Capt. Jefferson passed through our town a day or two ago, en route for the Nevada West, and we are informed, prepared for his visit with Piedmont & Arlington blankets, but also with tomahawks, wampum, war-paint and feathers—so that when peace shall be established, he may go in and do as Rome does. This order gives evidence that Mr. Grant's mind is growing more luminous; for Mr. E. E. Jefferson is a man of fine talents, and a most efficient Agent—can't find Capt. Jack, then all further search is profoundly useless.

Read "Paul Fry's Secretary."

Read "Paul Fry's Secretary," on fourth page, and if you can print out what he is driving at, you will have accomplished more than we have been able to do.

The Emperor William, of Germany, has been received with extraordinary honors on his visit to the Car.

The Emperor entered St. Petersburg amid the greetings of immense crowds of people, who exhibited the greatest enthusiasm, and the German Emperor was received by the court with the most imposing ceremonies. The presentation of a number of right royal gifts to his distinguished visitor by the Car was one of the most interesting features of the occasion.

Local Items.

Sale-day was thinly attended and very dull. No property sold. People universally at home attending to their farms and planting. Very good sign.

Within the past week we have had repeated torrents and floods of rain; and as we write, Wednesday morning, it is pouring briskly. Weather cool, windy, chilly. Little or no growing season this spring. Hear of acres upon acres of cotton seed being washed up and away—necessitating thorough replanting.

Numbers of our citizens, ladies and gentlemen, went to the Floral Fair and Fire Parade in Augusta, next week. It will be delightful, no doubt. The more the merrier!

Mr. Markert took leave of his many friends—which means everybody—on Monday last, and departed for New York, whence he designs sailing for Liverpool on Saturday next, in the steamer, Egypt. He promises to let the Advertiser hear from him.

The dedication of the new Baptist Church—Ebenezer—within a half mile of Pine House Depot, took place on Sunday last, the Rev. Luther Broadus officiating. The attendance was very large.

Probability of a festival of the Village Sunday Schools on Friday or Saturday week, at Mr. Canteloni's spring.

Miss Yeldell, accused of stealing the money from Postmaster Tillman, was carried off on Monday last, under guard, to Charleston, to be tried before the U. S. Court.

Certain colored men of our town, Messrs. Edson head and front, have formed themselves into an embryo Brass Band. They have been liberally assisted by the whites, and have received a set of brass instruments. As yet they do not know do from me; and if they do not do so, we are sorry to hear of it, and we are sorry to hear of it, and we are sorry to hear of it.

For some time past our next door neighbor, Mr. Willie D. Hester, has been supplying the people of this town with excellent fresh meats—beef and pork; and his mutton and mutton-chops this morning were unusually fine and tender. Hope he will be able to keep his market up "all summer."

Mr. Whitfield's School. With much pleasure we call the attention of the public to the card of Mr. Whitfield, in another column. This young gentleman came among us three months back, unheralded and unannounced—but even then with good manners and undivided mind to recommend him. Within these three months, Mr. Whitfield has proved himself emphatically worthy not only of the respect but also of the support of our community. His industry, his perseverance, his capacity, all recommend him highly; and if our people have the feeling sense of the importance of a good Male School which they ought to have, they will not let him depart from among them for the want of liberal patronage.

A Reliable Patent Medicine. Dr. Simmons' Liver Regulator, of all the patent nostrums of the day, we consider strictly reliable, and essentially valuable as a remedy for diseases arising from derangement of the Liver. We are sustained in this opinion by hundreds of people in this immediate vicinity who have for years tested its superior medicinal qualities for Dyspepsia, Headaches, Diseases of the Skin, Impurity of the Blood, Asthma, Female Affections, and Bilious Diseases generally. Their continued use of this medicine, and the rapidity with which it acts, speaks volumes in its behalf as to its reliability and popularity. But our reasons for this emphatic endorsement of Simmons' Liver Regulator, does not arise from any miraculous cure it has effected on us, or any of our corps, but simply because we have had considerable business transactions with the manufacturers of the Regulator, Messrs. J. H. Zeilin & Co. of Macon, Ga., and of Philadelphia, Pa., for a number of years, and have always found them liberal and reliable gentlemen; and if a man is reliable in his pecuniary transactions, he will very likely be equally reliable in the manufacture and preparation of any medicine he may offer for sale. Therefore we commend the Regulator, and would advise the afflicted who have not given it a trial to do so at once.

Tax Payers Resisting the Collection of Taxes. The citizens of Iberia parish, La., organized a tax resisting association on the 4th. The meeting was very enthusiastic and was addressed by several members of the bar, who offered their services free of charge. Resolutions were adopted endorsing Governor McEmery and repudiating Kellogg and urging resistance to the collector's collection of taxes. One hundred Metropolitans, with one piece of artillery, have gone to St. Martinsville, St. Martin parish, to install Kellogg's officers. Trouble is apprehended.

The Greatest Newspaper in the World. The Herald, of May 24, contains letters from Louis, Michigan, and Ansbach, printed in German, giving full descriptions of the opening of the Vienna Exposition on the day previous. In addition to these German contributions, it publishes two others—one from Edward Yates and the other from John Russell Young. This is the greatest stroke of enterprise in journalism ever accomplished, and the Herald is the greatest newspaper in the world.

The Abbeville Press & Banner of the 1st inst., says: "It gives us much pleasure to transfer from a late number of the South Carolina, the following handsome compilation to a light-hearted gentleman, whose wife—the only daughter of the late Chancellor Wardlaw, and the niece of our honored and distinguished townsman Judge D. L. Warrlaw—is well known and much beloved in our community."

At a meeting of the Edgfield Medical Association, a very large and singular African polypus, which had been cut out of the cavity of the uterus of a woman residing in this vicinity, was presented. This delicate and difficult operation was performed with perfect success by Dr. A. W. Hill, of Edgfield, one of the most prominent and progressive physicians of our State.

At Mr. Clisby's Drug Store (in always) we found a first rate article of Battle's Compound, which some people, good judges, pronounce the very thing for the spring and summer—but for us, give us now, henceforth and forever, Clisby's old Oxy, or Peffer Whiskies, and we will be quite content. Old man Oxy is a clever old gentleman, of the olden school, and so is Mr. Peffer,—and so classify their "spirits" as the "spirits of the men made perfect." But we don't go quite that far in our commendation, and yet we always take Oxy or Peffer in our Bottled Lager Beer, or any other gaseous beverage, to the contrary notwithstanding.

"How is this for High?" We know of a Wheeler & Wilson Sewing Machine that has been in constant use for twenty-five years, and is considered good for twenty-five more. Mr. H. G. Arthur is still Agent for this most excellent Machine.

Columbia Gazette. Columbia correspondent of the Charleston News and Observer, furnishes the following: Niles G. Parker, who still flannels around town with his fancy team as grandly as if he were still treasurer and having his thousands of "bonds" a day, evinces a little shame nevertheless. He has changed the name of his sub-treasurer from Parker's Hall to Parker's Block. The idea of calling a single building a block, but he has not escaped for the building will undoubtedly go down to posterity as Parker's Hall.

There has been nothing settled upon between the committee of citizens and Senator Sprague in relation to the sale of the canal. Mr. Sprague has asked for the North Five Per Cent. bonds, to the amount of his price of \$300,000. The committee of citizens meet this morning to determine what they will do about it. It is the common opinion that Mr. Sprague has overvalued his property, and he does not stand high in the good graces of the people of Columbia. The State Treasury is still in a puddle. All that outsiders know of it is that the funds are said to be no more in the true sense of this failure of funds early in the year will probably not be satisfactory known until the Legislature meets, if they. Cardozo's friends say that if the county treasurer's report had been made some time back, it would have given some coloring of truth to the apocryphal. A prominent State official told me today that he was beginning seriously to fear that Cardozo had sadly mismanaged the funds, and that he "would be to pay" before the year ended. Messrs. Hope & Gyles, who have been supplying the Asylum with provisions for the past three or four months, and whose bill amounts to over twelve thousand dollars, have not been able to get a dollar yet. Messrs. Agnew & Son have sued the regents of the Asylum for the balance of their bill of last year, and so it goes. I have heard no complaints about the Penitentiary, but the Governor is pardoning all that he can, and some that he should not, of the convicts, probably with an eye to the economy which the scarcity of money necessitates. Dennis, however, may be pardoned, but his share is as long as there is a dollar in the treasury. The enemies of Cardozo, on the other hand, say that the arrests were all for effect, and intended to divert course from the proper object, and that the money had been collected and squandered. The truth, as usual, will probably be found between these extremes. A good deal of money is no doubt still due the treasury, and a good deal has been allowed to slip from it improperly and unwisely. There is two years' interest upon the bonds of the State in arrears, and even if the debt be reduced by discarding the fraudulent bonds to \$9,000,000 the enormous sum of \$1,200,000 would still be required to pay the interest, and this would necessitate a tax of eight mills. R. K. Scott has had his "little feelings" hurt too since he has been among the outs. He tells the story of himself. Says the young gentleman, and unheralded and unannounced—but even then with good manners and undivided mind to recommend him. Within these three months, Mr. Whitfield has proved himself emphatically worthy not only of the respect but also of the support of our community. His industry, his perseverance, his capacity, all recommend him highly; and if our people have the feeling sense of the importance of a good Male School which they ought to have, they will not let him depart from among them for the want of liberal patronage.

Dr. J. W. Huckleback, the well-known Druggist of Augusta, Ga., whose recent severe bereavement in the loss of a cherished wife we noticed in our last issue, (says the Abbeville Press & Banner, of the 1st,) has been on a visit to relative here and at Lowndesville, and took the train at Abbeville on his return to the city on yesterday. His friends will sympathize with him in his great affliction.

Both the planting kings, Col. Lockett and Col. Jordan, of Dougherty, Ga., have planted an abundance of corn, as well as of cotton, and it is a real beautiful sight, says the Albany News, to witness the expensive and garden-like fields, so neatly worked and so artistically laid off. Both crops look promising, and general prospects cheering.

The death of General Canby reduces the list of brigadier-generals on the army register from seven to the limit of six established by a recent act of Congress, and hence there is no vacancy created.

It has been suggested (says the Anderson Intelligencer) that the corporations of the Anderson, Aiken, Port Royal and Charleston Railroad Company, numbering one hundred and thirty-five able bodied citizens, go to work upon the proposed road and push it forward to completion.

Mr. Aaron Smith, of Madison County, Ga., died some days since, from a little brain being run into his hand, which so inflamed the whole limb that death ensued. Mr. Smith was about seventy years old, and up to the time of the accident that caused his death, was a hale hearty man.

Augusta Factory and Graniteville Manufacturing Company goods have been reduced in price. We now quote 4 sheeting, 12 1/2; 5 sheeting, 11; 3 sheeting, 10; 13 No. change in standard 4-4 Langley sheeting. Others reduced half a cent. To-day's prices are: Langley A drills, 14c; B drills, 13; standard 4-4 sheeting, 12 1/2; A and Edgfield 4 sheeting, 12; A 3 sheeting, 11; A 2 sheeting, 9.

The "Chicken dispute" between Augusta and Macon, fought in the latter city last week, resulted in victory for the Maconites.

The following conundrum is attributed to Mr. W. A. Bradley, a conductor on the South Carolina Railroad: "Why is Captain Jack not immortal? Because he can be (Canby) killed." The above copy from the Chronicle & Sentinel, and respectfully refer the same to "Conservative," the pretended Edgfield correspondent of the Columbia Herald.

Notice—Two Silver Medals and four Diplomas were awarded to Alfred C. Forre, 258 Broad St., Augusta, by the Cotton States Fair Association, for the largest, finest and best assortment of Boots and Shoes. 6m 6.

An invaluable remedy for emphysema and asthma, and for all respiratory affections, is now being prepared by the late Dr. J. W. Hill, of Edgfield, one of the most prominent and progressive physicians of our State.

Doors, Sashes and Blinds entirely of Southern manufacture, with satisfaction guaranteed, can only be procured from the Edgfield factory of the Edgfield Factory and Graniteville Manufacturing Company. Send for price list of above, together with prices of Builders' Hardware, Window Glass, &c. Sent free on application.

How is this for High? We know of a Wheeler & Wilson Sewing Machine that has been in constant use for twenty-five years, and is considered good for twenty-five more. Mr. H. G. Arthur is still Agent for this most excellent Machine.

At a meeting of the Edgfield Medical Association, a very large and singular African polypus, which had been cut out of the cavity of the uterus of a woman residing in this vicinity, was presented. This delicate and difficult operation was performed with perfect success by Dr. A. W. Hill, of Edgfield, one of the most prominent and progressive physicians of our State.

But we don't go quite that far in our commendation, and yet we always take Oxy or Peffer in our Bottled Lager Beer, or any other gaseous beverage, to the contrary notwithstanding.

"How is this for High?" We know of a Wheeler & Wilson Sewing Machine that has been in constant use for twenty-five years, and is considered good for twenty-five more. Mr. H. G. Arthur is still Agent for this most excellent Machine.

At a meeting of the Edgfield Medical Association, a very large and singular African polypus, which had been cut out of the cavity of the uterus of a woman residing in this vicinity, was presented. This delicate and difficult operation was performed with perfect success by Dr. A. W. Hill, of Edgfield, one of the most prominent and progressive physicians of our State.

At Mr. Clisby's Drug Store (in always) we found a first rate article of Battle's Compound, which some people, good judges, pronounce the very thing for the spring and summer—but for us, give us now, henceforth and forever, Clisby's old Oxy, or Peffer Whiskies, and we will be quite content. Old man Oxy is a clever old gentleman, of the olden school, and so is Mr. Peffer,—and so classify their "spirits" as the "spirits of the men made perfect." But we don't go quite that far in our commendation, and yet we always take Oxy or Peffer in our Bottled Lager Beer, or any other gaseous beverage, to the contrary notwithstanding.
