Mr. Tillman will shortly introduce bill making an tappropriation for the im provement of the Big Salkehatchie. He secured the examination of this river as well of the Edisto last year, and an appropriation would thave been made by the last Congress but that the report of the enginer corps, on which only can such an appropriation be obtained, came after the river and harbor bill had been reported to the House by the committee on commerce. The Greenwood and Augusta.

The Chronicle has always predicted that the Augusta and Knoxville Railroad would prove to be a paying investment, and the result has already justified the prediction. The road is at present doing a better local business than any road terminating at Augusta, and this business bide fair to increase rapidly. The Augusta and Knoxville extends through a very fertile section of country, and will bring a large amount of produce to Au gusta. It is very important that somaction should be taken at once looking to the early completion of the Savannah 3, p m., steady. Valley and Atlantic and French Broad Railroads in the interest of Augusta With these roads part and parcel of the Augusta and Knoxville, the latter will be a large feeder to the trade of this city, making the most productive section of South Carolina tributary to Augusta. Fifty thousand dollars will secure both these roads.

We understand that the Richmond and Danville Railroad is very anxious to obtain control of the Augusta and Knoxville. It is said that a square bid was made a few days since by parties in the interest of the Richmond and Danville to the State of South Carolina, for its stock in the Au gusta and Knoxville, and that the bid was refused.-Augusta Chronicle.

THE BENEFITS OF THE STOCK LAW .-A member of the Methodist Conference stationed in the interior of a County where the Stock law is not in force, and in fact, has been exempted from its operations by the general law, complained to us that country butter was so seldom offered for sale there that almost every family depended upon buying Goshen Butter at 35 and 40 cents per pound. He made glad the heart of his wife by taking to her a large bucket of as fine country butter as ever tickled the palate of an epi-cure; and it was made in this stock law County of Union, too, where butter is plentiful at from 15 to 20 cents a pound Good butter is more plentiful here than it was when cows had to bunt their own food; and, as a rule, the beef is much better, while neither has increased in price. CHEERING RAILBOAD NEWS,-Captain Kirk, Engineer of the Atlantic and French Broad Valley Railroad, passed through Abbeville yesterday afternoon, on his return from a meeting of railroad magnates at Asheville, N. It is proposed, if terms can be made with the South Carolina Railroad, to make that road a part of the continuous line, but in case of failure to do so, they will go to Port Royal. -Abbeville Banner.
