"I will net follow Democratic leaders who will bow down and kind-hearted citizen. worship the golden calf of monometallism, while silver, the people's money, has been buried. I Providence, who doeth all things well, believe that President Cleveland nal gain. and two-thirds of the members of Congress are worshipers of that golden calf."

Such were the emphatic remarks made by Representative Talbert, ceased brother. of South Carolia, at a meeting of the Interstate Democratic Association last evening. Mr. Talbert's was a straight-out honest Democratic speech, and his remarks were

loudly cheered by those present. Before Mr. Talbert's address was delivered there was a short business meeting of the association, at which the following gentlemen were elected members: Charles W. James Devine. F. W. Knowlton. R. I. Watterson, and W.R. Love. The following committee was appoined to make arrangements for a celebration, to be held when the President signs the tariff bill Messra. It was agreed to hold an extra undersigned previous to meeting meeting Suuday afternoon, July 15, ing of the New York Democratic Association, also in the Interstate able task, a delight and a pleasure. It hall, on Thursday next.

Then Chairman Gray introduced pirzza. tion. Among these he mentioned the labor unions, which are using their power to such great effect at the present time. It was well they should discuss their rights, but he deprecated the means which were being used at this present

"I am a Democrat of the Jackson type," he continured, "believefilled with Republicans, who are using their power against the Democratic party, and if I had my way they would all be turned out of Democrats put in their places.

Mr. Talbert then went on to show how the Democratic party eral election law was the only

Democratic platform," he said. "A party which acts as the Democratic party has done will and ought to be overthrown. When a man is elected to Congress it is his business to stay here and carry out the pledges he has made to his constituents, and not to go back to his district and work for a renomination when his presence in Congress

is necessary to make a quorum. T. J. DEMOCRACY WANTED. "In speaking of Democracy,"

said the speaker, "I don't refer to Mugwump Democracy. We want Democracy that will recognize the rights of every man, woman, and child in the United States. We want Thomas Jefferson Democracy, which will give equal rights to all and special privileges to none And in speaking of government we should talk of a government which will protect every citizen in his right. There are two forces in government, one is centrifugal Scottdale, Pa., July 9.—One which bends from the center and hundred armed negroes marched is a government for, by, and of the people. The other is centripedel, bending toward the center. It centralizes the power at the Federal capital, and the government is controlled by corporations, syndicates, and trusts."

PEOPLE MUST HAVE RELIEF. "The people will and must h av relief, and if we don't give it to them they will get it elsewhere. The Democratic party has a golden opportunity to go forward and wipe off the statute books the iniquitous legislation which has been enacted went to 1 Clure's Works, where by the Republicans during the past graduated income tax law. We want to pass a bill in the House which will change the Constitution of the United States so that those great big bushy-head statesmen in the Senate, the President, elected directly by the people."

In conclusion the speaker said: "There will come a day when the work of the common laboring people will be heard and headed, and and are on guard at the lockup. the time will come when the liberty of the people will be restored and everybody will be free and
