

LOCAL BREVITIES.

**Babbit Metal for sale at this office.**  
Beautiful new hats at the Misses Aycock.  
Fresh and standard drugs, at W. E. Lynch's.  
"Pay what thou owest"—to the newspaper man.  
Miss Kate Carter is visiting friends and relatives in Columbia.  
We hear that cotton seed have crawled up to 12 3/4c a bushel.  
Ladies, call and see the new millinery at the Misses Aycock.  
Some more anonymous communications must wait identification—before publication.  
For the best Fire Insurance on town or country property, call on or write D. R. DURISOE, AGT.

Sweet potatoes are small and few in a hill. The phenomenon is a surprise. A school did the business for the sweet potato.  
Remember that the examination of applicants to teach in the public schools of this county takes place on Friday and Saturday of this week.  
Some of the counties are doing wonderful work in connection with their civics. How is Edgfield getting along in this respect?  
Miss Annie Kimbrough, of Augusta, well known to the public, was married to Mr. W. B. Steele same city, one day last week.

The board of county commissioners held their annual meeting on Thursday, the 7th of November. See notice in another column.  
For the best Fire Insurance in old strong and reliable companies, on town or country property, call on or write D. R. DURISOE, AGT.

Less raised in this county this season than for many years. The reason is apparent, it didn't rain enough to make the grass grow.  
Will some of our readers who tried rice this year report their experience to this office that others seeing their good works may do likewise.

Mr. R. M. Hays, so well and favorably known in this community, is with us again. The many friends he has made in Edgfield will be glad to know this fact.  
Flammarion, the French astronomer accounts for the excessive heat of September by the statement that for two hundred years there has never been such a cloudless September.

W. E. Lynch has great faith in the future of Edgfield, and Edgfield has great faith in W. E. Lynch's integrity generally and especially in his painstaking care in the compounding of prescriptions.  
Our old friend Dr. W. D. Jennings, Sr., is with us again after a two month absence, looking as well as a man could who is on the eve of celebrating the holy bonds of matrimony.

The Misses Aycock will sell millinery in the latest styles at Edgfield and Ridge Spring. They solicit a liberal share of the patronage and are sure to please.  
There is such a thing as knowing too much. We have seen people who would be wiser if they could forget half they knew and didn't know one-fourth of the other half.

Will some one write to the editor of the Advertiser and tell him how to make the plumes of the pampas grass fluffy? We want to fix one to brush the flies off Ben Tillman when he goes to Washington. Irby says he has 'em on him.  
Prof. B. F. Sample, Pedagogue, is about to issue a new paper for Saluda county. The first copy of which will be printed and distributed from Newberry.—"The S A L U D A S O C K D O L A G E R."

It is about that time that the little boys in the Reform Circus should get "some more" lemonade, take one more look at the elephant and crawl out under the tent. The Ring Master and the clown are about to turn all the animals loose.  
The time is at hand for sowing small grain, and because you have corn enough to do you in no reason why you should not sow a little wheat, a little rye and a good deal of oats. Remember that after all these cereals you can plant corn or rice, and thus make two crops in one one twelve month.

Dr. Gwaltinger's sermon in our Baptist church on last Sunday morning was most beautiful, the peroration was especially eloquent and touching.  
"Oh Israel, thou hast destroyed thyself."  
Last year, in order to save his vines, Mr. Manly DeLoach made tenement houses out of pea vines, houses with hall-ways and passages and verandas and piazzas. But he found these pea houses took up too much of his valuable land, and this year he has purchased and uses a press for packing his vines in small compass.

M. P. B. Lanham, of the Rogers section came very near losing his whole herd of cows, fifteen in number, one night of last week. They broke out of the lot and got into the pea field. Press bought fifteen pounds of soda. (The merchants ought to have led him to it at wholesale rates) and drenched every one of them with a pound a piece. It is needless to say he didn't lose a single one of the entire lot.  
Horace Greeley once said: "The way to resume is to resume," speaking of again putting gold into circulation after the war. But you may say "resume" any number of times to that torpid liver of yours and it won't budge until you take Simmons Liver Regulator. Many people seem to forget that Constipation, Biliousness and Sick Headache are all caused by a sluggish liver. Keep the liver active.

One half an acre in rye on good land would give you an abundance of green food for one horse and one cow. You can commence cutting it with a reap hook the first of March; later as it gets warm you can cut it with a scythe and make a fair crop of rye that you can feed to your pigs. As an all round crop for soiling purpose rye does them all. It withstands the winter better than wheat. It can be cut often and it is more succulent and nourishing, and as a milk producer it is almost, if not altogether, equal to barley or wheat.  
From the size of the pile of cane, belonging to Mr. Abe Broadwater and heaped up at Senator Butler's syrup manufacturing establishment, we would suppose that he is to be a very successful cane grower. Friend Abe ought to give a "sorghum tree" and invite five hundred ants and the same number of reformers and let 'em pull one against the other and in this way settle our political differences and stop this everlasting fussing and quarrelling and fighting.

An editor who died of starvation was being escorted to heaven by an angel who had been sent for that purpose. "May I look at the other place before we ascend to eternal happiness?" asked the editor. "Yes," said the angel. So they went below and sketched around taking in the sights. The angel lost track of the editor and went around Hades to hunt him up. He found him by a big figure fanning himself and gazing with rapture upon a lot of people in the air. There was a sign on the furnace which read "Delinquent Subscribers." "Get a move on you," said the angel, "we must go." "You go on," said the editor, "I am coming. This place is good enough for me."—Ex.

**One by One the Roses Fall.**  
Col. John Terry of Lakeskill, private secretary to Maj. Lem. Corley, Major of the 6th regt. says that he is firmly convinced that "the devil has a bill of sale of South Carolina with his headquarters in Wall Street, and that Ben Tillman is his Orderly Sergeant."

**Position to Teach.**  
A lady of experience, a graduate of the South Carolina College for Women, desires a situation to teach in Edgfield County, her birth place. References, Dr. W. D. Jennings, Sr., W. S. Bailey President Clinton S. C. Bank, Wm. P. Jacobs, President Thornwell Orphanage. Address this Office.

**Raise Fruit.**  
Messrs. A. Horne & Son, Ridge Spring S. C., have in stock and for sale a fine lot of home-raised fruit trees consisting of peaches, apples, and plums; they also have a large lot of asparagus roots for sale very cheap. The fruit trees are of a great many kinds maturing fruit in spring, summer, fall, and winter. Drop them a postal for circulars and price lists.

**Carter-Brooks.**  
Cards are out announcing the marriage of Miss Nell Montague Brooks, daughter of Captain and Mrs. U. R. Brooks, to Saml. T. Carter on Wednesday, October 28th, afternoon, at 5 o'clock, at the residence of the bride's father. Mr. Carter is the chief clerk in the Superintendent of Education's office and well known by all of us who know him. Miss Brooks is well known in Columbia, where she has a good many friends. The friends of these happy young people will all join in best wishes for their future life and happiness.

**The Ohio Man.**  
Here is what an Ohio man did in Alabama, and what he's doing in Alabama can be done in Edgfield, in fact he has done it. But let us see what the Ohio man did: "He took a farm of sixty acres where a family of six negroes with an ox and a mule had been gradually starving to death. He planted cow peas and let them die on the ground. He sowed crimson clover among the peas at the right time. The next season the land was properly enriched by these two crops. He sowed good crops of cotton and corn, in both of which he sowed crimson clover again. He plowed in to the clay subsoil a little deeper every year. He pulverized the soil thoroughly before planting a crop. He added cows until he had ten. He saved and applied the manure. The fourth year he made off of the place, net, almost \$1,000."—SEM.

**A Cause Celebre.**  
Messrs. Croft & Tillman and Sheppard Brothers have entered suit against the South Carolina and Georgia Railroad in the interest of Engineer Richard Parker, Fireman Weatherford and Hare for the sum of seventy thousand dollars, on account of injuries received in the rail road wreck which occurred near our town some months since, the details which are familiar to our readers. The regular solicitors and Messrs. J. W. Barnwell and — Mordecai, of Charleston will represent the railroad. This case will come up at our November term and will be a battle of legal giants.

**MRS. SABRA MILLER.**  
This good woman died at her home near Trenton on Monday night last of paralysis. She was the widow of the late Benjamin Miller, a daughter of the late G. W. Wise, and sister to Dr. George W. Wise and Capt. J. M. Wise of our county.

A large family of children, most worthy descendants of so worthy a parentage, remain to mourn their irreparable loss.  
In the sweet field of Aiden On the other side of Jordan There is rest for the weary.

**SALUDA COURT HOUSE.**

A Letter From Saluda County and What is Going on Over There.

Dear Advertiser: Everything down this way is in a stir on the question of locating the new county seat. We are every minute looking for a declaration of war, and have picked out our hollow log. But seriously, the Court House out to be located where the best health can be had and where best inducements are offered, as near the centre as possible, regardless of the machinations of any clique. But for pity's sake don't let's fuss. Let the people alone and they will settle it. Everybody can't make a fortune by selling off lots; so let the people on both sides of the river recognize the opposite side and all will be well.

The Corinth School, we hear, will be taught next year by Mr. H. E. Unger. If the trustees had searched the State, they would have found a nobler or more scholarly young man.

So Mr. J. D. Duvonant deigned to notice poor Sem! Amazing contension! We don't mind criticism, but critics must tote fair. He arraigns us for writing viciously, but has never a word for the men who applied to us such names as "fool," "puppy," "villain" etc. We never used terms half so harsh as these. If our unearthing certain facts
