The Columbia Register has the lead on the head in the following paragraph: "The Dispensary law was intended to diminish the consumption of liquor, and of this and similar restrictions were attached to the law. We have good reason to believe that in this respect the law is being carried out in spirit, not even being required to sign the application blanks, and the same persons being able to get as many orders filled during a day as desired. This should be stopped, in view of the published evidence of largely increased sales. The people best able to spend money for liquor are squandering their substance for it and the utmost rigour of the law should be used to prevent them from using it to an unlimited degree. We wonder that the prohibition people do not show some interest in working up to the full the best features of the Dispensary law."
