For the purpose of increasing the circulation of the New York Daily and Sunday Mercury, established 58 years ago, the factory Printing Co. offers the best inducement in the world to small investors. Alert investors now have an opportunity to secure some of the stock of this great onterprise. They can buy New York Mercury stock at the very low price of \$10 per share. The Mercury Printing Company is incorporated under the laws of the State of New York. The capital is \$500,000, divided into \$0,00 shares of \$10 cachfully paid and non-assessable. Stockhold-

state or New York. The capital is \$200,000, divided into \$0,00.00 harres or \$10 cach full paid and non-nesses able. Stockholders have no individual liability wnatever. This stock is a sare, solid and nighly profitable security that is certain to pay large cividends and rapidly increase in value. It gives the small investor an equal chance with the capitalist, as a person with a small sum to invest can buy from one share upward at the same prices a capitalist huys thousands of shares. When one considers the very high prices that stock in other New York newspapers commands, it is apparent that this present exportantly to buy New York alectury stock at \$10 is one of those chances that eccur only once in a litetime, for at the present rate of increase shown in the past six months in the circulation and in the advertising, the stock is absolutely sure to pay enormous civid-india and rapidly rise in value.

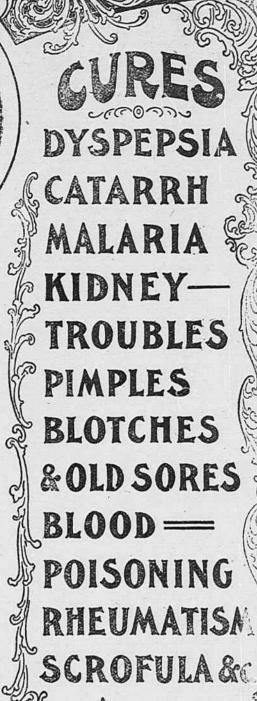

The advertising receipts of the Mercury have doubled since Aug. 1, 1895, and the electulation has increased at the rate of 150 per cent, since April 1, 1895, on the rate, Weekiy and Sunday editions, and is continuing to increase at the same rate.
