

MRS. W. W. ADAMS.

This esteemed lady, widow of the late lamented W. W. Adams, Esq., passed from earth to heaven on last Thursday after a long illness. She was buried on Friday morning by the side of her husband, Dr. Gwaltner officiating at the funeral obsequies. Mrs. Adams was a good woman, a devoted wife and tender mother, and leaves behind her a blessed memory.

"Blessed are the dead who die in the Lord."

She left two sons and two daughters, one of whom, Mr. W. W. Adams, is a prominent merchant in our town. One daughter is living in Texas, the other is the wife of Mr. J. G. Hilton, of Ninety Six. To these we extend profound sympathies.

A Coming Crop.

The Spanish peanut is coming to the front as a hay crop. It will produce two tons to the acre on good land, will sell for as much as Timothy, and is the only hay crop that can be grown in the cotton belt upon which horses and mules can be fed and kept fat without grain. It can be produced far cheaper than corn. Our old friend W. H. Stallworth, of Phoenix, thinks that "even wheat is a cheaper crop to raise for horses and mules than corn, especially as you can make wheat and corn both on the same land the same year." This same gentleman says that "the great problem for the Southern farmer to solve is, how to feed his stock more cheaply, that is to say without growing so much corn." A horse will eat his own head off every year in corn and fodder.

Strange Things Will Happen.

The McCormick News is responsible for the following on John Blackwell and Dr. Tom Jennings: "You have heard of Turpentine River catching on fire and burning on into Tar River, setting it on fire, but did you ever hear of an Irish potato patch being consumed by fire? Well, this remarkable event actually occurred in our neighboring county a few miles across the line. A negro woman passing the potato patch of Mr. John Blackwell, set some small straw pipe on the straw with which the patch was covered and soon the flame was seen to ascend, and the alarm was given, and all hands fought valiantly, but unabated the flames swept on until the entire patch was consumed."

"A novel idea to get rid of grass in a sweet potato patch. We are credibly informed that Dr. T. E. Jennings, from near this place, finding his sweet potato patch so over run with grass that would almost be a matter of impossibility to root up the grass without rooting up the potatoes also, decided to pull up his potato vines and remove them to a more favored spot—'live and learn.'"

The Meteor.

The brilliant meteor seen in Edgefield on last Wednesday night didn't fall in anybody's backyard, but was visible everywhere in the State. We did not see it, but have seen several descriptions. Here is one:

"The first appearance was attended with a cloud looking like a small cyclone, and quickly breaking through this, the burning meteor shot rapidly across at least one-quarter of the heavens attended with a halo resembling that which surrounds the moon on some hazy nights. The sight was a treat to those who were in a position to see its ingress and egress of the atmosphere."

Here is another: "The transit across the southern heavens last night about 9 o'clock of a big meteor, of comet proportions, astonished the natives and knocked out the oldest inhabitants. The unheralded visitor looked like a mighty skyrocket, and as it darted over the horizon from east to west lit up the whole heavens as by a monumental streak of lightning. It burst in the west and disappeared in five or six parts as a skyrocket bursts, showing vari-colored lights."

"RED HILL" AGAIN, Gives the Constitutional Argument—An Unanswerable One.

MR. EDITOR: I have read with interest the long and evidently carefully and thoughtfully written, and doubtless would be convincing and conclusive communication of Mr. J. M. Gaines, of Greenwood county—the Pretender and the Usurper—as recently published in the ADVERTISER and Chronicle; but I think the writer, being well aware of the ridiculous absurdity of his pretended right to hold his seat in the Senate, has permitted his zeal to shield himself from the righteous condemnation of the outraged people of Edgefield, to over-reach itself in the apparent confidence he seems to have as to his right to continue to hold the office of Senator from Edgefield, whilst he frankly admits that he has, since the 4th of June "become a citizen of Greenwood."

The Constitution of the State of South Carolina—the organic law as adopted by the State Constitutional Convention in the fall of 1895—says:

"No person shall be eligible to a seat in the Senate or House of Representatives, who at the time of his election, is not a duly qualified elector under this Constitution in the county in which he may be chosen."

Now, how is it possible for Mr. Gaines, a gentleman of acknowledged ability, or any one else—even a fool—to misconstrue the above section from the State Constitution, or less prompted by selfish ambitious aims and unjust purposes?

Therefore, Mr. Editor, if it is necessary for a person, at the time of his election, to be a duly qualified elector "in the county in which he may be chosen," in order to "be eligible to a seat in the Senate," why is it as clear as the noon day sun that the moment the Senator thus elected ceases to be a duly qualified elector in the county in which he was chosen, right then and there he becomes ineligible to hold the office longer, and any pretended right thereafter to said office is an arbitrary and unwarranted usurpation of the rights of the people.

And yet, in the face of the Constitutional law before him, with full knowledge of the clear and distinct intent of said law—yet he, the gentleman who has "become a citizen of Greenwood," and wishes to be recognized as "the Senator from Edgefield," has the effrontery to boldly assert that "so far as the letter of law is concerned, I have the right to hold the term of four years as Senator from Edgefield." But right there "the still small voice within" must have asserted itself, and the Greenwood gentleman meekly adds: "But to do so would not at all accord with my own ideas of propriety." Of course not, because law or no law, it is not right for him to hold an Edgefield office so long as he remains a non-resident of the county. And no one knows this better than Mr. J. M. Gaines, of Greenwood county. In one breath the Greenwood Pretender and Usurper says that he, (an alien) has a right to hold an Edgefield office four years—and then in the next, admits that to do so would not accord with his ideas of propriety.

Mr. Gaines has considerably to say in reference to what he said and done during the last campaign. And now says that at that time he did not expect "Greenwood county to be put into operation as early as it has been." Yes, and we know that both he and Mr. Yeldell assured the people that it would take two years or longer for the complete establishment of Greenwood county, and Mr. Gaines also then said that as soon as Greenwood was duly organized he would hand in his resignation. First deluding the people (unwittingly perhaps) into the belief that it would take two years to accomplish what has been done in about six months—and now, (although he promised to resign when Greenwood county assumed countyhood) the Pretender and Usurper declines to make good his promise.

And, as an excuse, weak and flimsy though it is, for not doing what he knew was right in the premises, Mr. Gaines tells us that certain "prominent citizens of what yet remains of Edgefield county," opposed his resigning on account of the probable expense and annoyance of a special election, etc. Now, with all due respect for the views of said "prominent citizens," we think that they have advised Mr. Gaines without due regard to Mr. G.'s true position. Because he has no right now—moral or legal—to hold the office as Senator from Edgefield. And all acts of his, if he is permitted to sit in the Senate, as Senator from Edgefield, will be void and of none effect, and, if an issue is made, will be so adjudged by the courts of the State. Because Mr. Gaines has "become a citizen of Greenwood county"—is not a "qualified elector" of Edgefield county—and is therefore, as the Constitution declares, "not eligible to a seat in the Senate."

Card of Thanks.

DEAR MR. EDITOR: Please allow me space in your valuable columns to express my heart-felt thanks to my many friends that contributed to my needs after the losses I sustained by fire. The contributions consisting of money, lumber, goods, hauling lumber, work on house, hauling of stock to mill. I wish I could mention each and every one of their names, but feel it would be asking too much of you. My heart-felt appreciation of their kindness will ever fresh in my memory. May God bless and prosper them in all of their undertakings is my heart's most sincere wish.

Jim Miner Says "Sit in Your Buggy and Let 'em Alone."

MR. EDITOR: I want to put a piece in your paper to ask the good people to let Brother Yeldell and Brother Gaines alone, as we are doing well at this time and hope other folks are enjoying the same blessing. It is some office seeker, and we had better watch them from now to the end. I hope it is no "anti" that wants Mr. Gaines and Yeldell out of office, it must be a "Farm Movement Man." I am one that tries to get my light from the best I can, but never could hide it under a bushel measure. I want Mr. Yeldell and Mr. Gaines to hold their offices until the next election—anything to "clap the climax," and that will clap it.

The "Farm Movement Man," said the "tax would be lower, but I can see I get lower every year, but not the tax."

To change the subject: When you hear a man say what he is a-going to do, and ain't done it yet, git in your buggy and drive off as fast as you can, and if you haven't got a fat horse call on me and Dr. Self, we are get the fast mares. My "Game Pullet" is fast but "Old Dick" is played out.

Now, friends, I want you hereafter when you hear a candidate say what he is gwine to do, git in your buggy and go off, even if you have to go in a walk. As I have said above, me and Dr. Self have fat and fast mares and will drive you off in our buggies if you want us. It will be better to walk off on your own trotters than to stay and hear it over again, for there is nothing in it, it is wind, or by the Bible tells us, "Sound and fury—signifying nothing." I always sign my name to my pieces so that everybody may know where I am at. All your correspondents ought to do likewise.

Messrs. Gaines and Yeldell are but following the scripture, "in holding on; that Good Book says, 'Occupy till I come.' Ain't they a-doing it? Let 'em alone! Your friend till death, JIM MINER, Of Squedunk Holler, near Spratt's branch and the Cat-tail Pond on the old Joe Rearden place.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand for twenty-four hours; a sediment settling indicates an unhealthy condition of the kidneys. When urine stands in it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention the ADVERTISER and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietor of this paper guarantees the genuineness of this offer.
