Parkville Roller Mills Purity Fancy Patent W. R. Parks Proprietor, Parkville, S. C.

The above is the way it looks on the sack, but in the plate and on the table it looks better and tastes the best of any you ever tasted. W. R. Parks ('our Bob') sent us a sack last week and we speak from the book. L. E. Jackson of our town will have this roller flour on sale as also the Parks home ground corn meal.

That is a very courteous invitation reader, extended to you by H. J. Porter & Co., in this issue of the Advertiser that, "When in Augusta you are invited and expected to make our store your headquarters." Look up their advertisement, it will repay you abundantly if you heed their invitation. Recently this firm has added a shoe department so that man or boy can be fitted and suited to anything needed from head to foot. They display the most elaborate and varied stock of shoes and clothing for men and boys, any and everything that can or should be worn by a human being of the masculine gender. See them when you go to the city and be happy.

Major Burnett visits the Parkville Roller flour mill and is delighted. Here is what he says: "It is the property of our W. R. Parks. We mean the roller flour mill on Stevens creek one and half miles from Parkville. I have just returned from this mill to which I carried a load of grain; the turnout in quantity and quality was the best I ever received from any mill. The first grade is equal to omega or any other brand ever used by me. The second grade is as good as any second patent flour; and what is better than all, this flour was made by Hamp, the son of Mr. Parks and young Blackwell the son of (Dick) two very courteous and efficient young men both sons of Edgefield. Here is one case of home talent both in the mill ownership and the millers. O. O. BURNETT.

The Red Hill High School.

The Red Hill High School is located in the northern center of Edgefield county, in one of the most beautiful localities in South Carolina about six miles from Parkville, about twelve miles from Edgefield, and in the neighborhood of twenty miles from Augusta.

High schools are the most needed; many a young man and young lady has been compelled to spend two or three years longer at college for the want of a high school education, when they could have gotten it at home by having had an energetic, thoroughgoing board of trustees. Our trustees are Messrs. Charlie Charles, P. H. Bussey, and Henry Bussey, I'm sure they are the right men in the right place. It is the earnest desire of the teachers and trustees of this school, that they have the hearty co-operation of the patrons in making this one of the best schools of its kind in the State.

The people of this community are hospitable, pleasant and God-fearing and any one having a desire to visit our school may well feel assured they will be given a hearty welcome by both teachers and patrons.

We have two churches in our community one of which is in a few steps of the school, and the teacher and the patrons of the school fully realize the aid of the church towards the advancement of the mental and moral as well as spiritual development of the young. The pulpits of these churches are filled by consecrated divines. Our school opens the first Monday in October. We expect to run a first-class school and hope to have a full attendance at the opening. If a man beats his mule, he is arrested and fined 25 big round dollars. If he beats his wife, she keeps her mouth shut and the world never finds it out. That's one difference between a wife and a mule, which makes it cheaper to keep a wife than it duz a mule.

Special Notice!

If You Want Your Shoes to Wear Buy from J. M. COBB and Observe the Following Suggestions:

Demand a comfortable fit, and be sure they are LONG ENOUGH. Remember that light shoes are not intended for farm use, and will not stand rough wear.

Again remember, a wet shoe will burn almost instantly if held near the fire, and if dried too quickly (not necessarily being burned) the life is taken out of the leather and the wear destroyed. If you will be governed by the above suggestions, your shoe bill will be reduced, and you will obtain the best results. If however, you insist upon wearing light shoes, when heavy ones should be worn, buying your shoes too small, burning them, or drying them too quickly, you should stand the consequences, and not ask your dealer to bear the loss.

GARRETT & CO., WINE GROWERS, WELDON, N. C. Kindly permit us to advance three cogent reasons why you should use wines in your homes: 1st. Because, in addition to being delightful stimulants, pure wines are the basis of nearly every tonic preparation in the world and are unexcelled to build up the system and quiet the nerves. THIS IS FOR HEALTH'S SAKE. 2nd. Because, in ninety-nine cases out of a hundred, where children become accustomed to the moderate use of wines on the dining table and otherwise in the household, they never acquire a taste for heavy intoxicants. THIS IS FOR TEMPERANCE'S SAKE. 3rd. Because, the United States has facilities (climatic and industrial) for making more wines than any other nation, and yet France produces annually 1,100,000,000 gallons to our 25,000,000. This is an industry which, if fostered, would thrive mightily and give employment to thousands. THIS IS FOR PROSPERITY'S SAKE. The Dispensaries all carry a full line of our Wines, and there is no danger of confounding them with others. We guarantee our goods to give satisfaction and, upon written statement that they do not, to the Dispensary from which they were purchased, money will be refunded. Try these Wines and judge for yourself. Very respectfully, GARRETT & CO.

Are You Going to Paint?

If so, write to the Southern Paint Company of Pinebluff, N. C., and secure their price list. They can give you a better paint at less money than you can get elsewhere. They do not belong to the trust and can sell at less price than those who do. This is a Southern enterprise and should be patronized by Southern people. The Publisher of this paper will arrange to secure paints for any of his subscribers, who would like to order through the ADVERTISER. This paint has a thick heavy body so that buyers can add Linseed oil and make the paint go further, and save money, as the oil will cost about fifty cents a gallon. Write to the company telling them what colors you want and how much, and price will be given. The paint contains the best material and a guarantee goes with every can, barrel and package of paint.
