Edgefield, S. C.

Wm. J. Bryan, candidate for President, isn't yet quite forty years of age.

In the past ten years the production of wheat has increased rier on the route for deposit in said 53 per cent in the south, and the number of hogs raised there has, during that period, nearly doubled.

It has been estimated that for every dollar spent in this country for spirituous and malt liquors twenty cents is spent for tea and coffee. Commenting on this fact, a facetious Western paper says that the amount of money squandered by the American people for tea and coffee is really astonish-

The little fellow looked up at her in wide-eyed astonishmint, and said in an awed voice: 'Why, mother, I always thought that the the next post office at which he sent to the soldiers in the Philip-Lord was a Presbyterian."

Mr. M. R. Smith, widely known oldest ditizens, came very bleeding to death one night recently before he himself or anyone else was apprised of it. On awakening about 2 o'clock he found his face, chest and shoulders reeking wet. Making an alarm a light was carried to his room and at first blush it appeared that his throat might have been cut, judging from the pool of blood in which he was lying. From his nose a tiny but steady stream of blood was still flowing. Medical aid was quickly in time to save his life. He was almost exhausted and on account

Somebody raised the alarm of fire. September 15th. The hook and ladder company and the hose reels turned out promptly, and there was immediate doubt as to which way to run. The alarm, it is said, was caused by a sleeper la, Eating Sores, Ulcers, Cancer, Eczewho was awakened and was aston- ma, Skin Scabs, Eruptions and Sores ished at the light. It is also said on Children, Rheumatism. Catarrh, that somebody galloped in from the country, a distance of five miles, expecting to see the whole town afire.

Joking aside, the lights were first-class and gave abundant satisfaction, except possibly on the outskirts where there was an insufficient number of lamps.

At present the power is furnished by Mr. Long, the plant being located at his ginnery.

We are glad to see the success of the young gentlemen who have undertaken the contract for light ing the town.

A Future Undertaking.

It is too plain for dispute that the improvement of American highways must be one of the great undertakings of the near future. The country is disgraced and badly handicapped by its poor roads and it is too intelligent, rich and energetic to endure much longer the annoyance, waste and economic injury which can be traced directly to the lamentable condition of most of the highways in all sections.-Cleveland Leader.

established the fact that many of the germs of disease enter the body by the inhalation of air laden with bacteria or microbes. These germs are very small but their work is deadly. Still many of them are comparatively harmless in health; but as soon as an organ is diseased it is attacked. The experimets of Koch and others have shed much light upon this important subject But up to the present time the culture of bacteria appears to have met with much better success than their destruction. As we can do so little to destroy these minute enemies, is not the most sensible course to strengthen and revitalize the system so that it may repel
