Cotton is crawling up again. her crawl! The S. C. C. I. grows space. 700 are now 163 boarding students. The County Supervisor will show money for current expenses this year. No preaching in any of our churches on last Sunday owing to the weather. The Hon. P. B. Myson and W. A. Strom were at home on Monday of this week. It will be many a long year before Edgfield will have another "Uncle George." Arthur S. Tompkins, Esq., has returned from a pleasant visit to Charlotte, N. C. Edgfield is planting or getting ready to plant for twelve million bales crop of cotton. County Treasurer Morgan has collected about three-fourths of the entire tax, so he informs us. The Rev. Jan P. Mealing, an old life-long friend, officiated at the funeral of Hor. G. D. Tillman. Mr. Milne Parker is building a neat and attractive cottage in our northern suburbs for his father's residence. We hear that Mrs. Geo. E. Tillman since the death of her husband, continues coming to Edgfield to live. An last Sunday was the most disagreeable day of the year. It rained without ceasing from daylight to dark. In addition to the delegation from Columbia, a large number went from Augusta to the funeral of Mr. Tillman. The Augusta Merry Makers are getting ready to make another pull on their country cousins for the spring of 1901. Mrs. Merryman and Mrs. Stembridge, of Johnston, were on a visit to their sister, Mrs. C. J. Ashley, one day last week. Mayor W. W. Adams is getting ready to build a large, handsome, and up-to-date mansion on his property on Gary street. Yes! A. Rosenthal's, 1011 Broad street, Augusta, Ga., is the place to buy your Buggies, Harness, Saddles, etc. He'll treat you right. Give him trial. Miss Kosa Lake, the charming daughter of Capt. Geo. B. Lake, of Lexington, Ky., is visiting Mrs. Charlotte Guerdner. Mr. M. A. Taylor advertises fertilizer, brick, and lime for sale all at the Southern railway depot. Head Mr. Taylor's card in this issue. Mr. Furse and family come in to-day (Tuesday) and occupy the house on Griffin hill belonging to M. P. Wells, Esq. Mr. Furse is from Georgia. Mrs. Merryman, of Johnston, is to move to Edgfield, and will occupy a house to be built for her on Addison avenue near her sister, Mrs. Ashley. Geo. W. Vance, of Chota, was in town on Tuesday. George is desirous of securing the position of light house keeper for the government off the coast of Labrador. After the 18th inst. Conductor Rice will live at the J. J. Bell house on Columbia street, which he has bought. His own place in Buncombe, we hear, will be occupied by Mrs. Morrill. Scout Gray's thoroughbred stallion, Redmond, is for sale. The old soldier is sick and cannot attend to the animal, therefore he desires to sell. See advertisement in another column. Neither oats or wheat were hurt by the recent cold; in fact the old folks say that these cereals are never killed when wet or in wet weather. This was old Capt. Jas. Dorn's experience, who lived to be 93 years of age. Edgfield real estate is looking up. In a few short years present prices will be considered ridiculously low, and why not? We are in the Piedmont escarpment, which section is developing above and beyond all other portions of the country north or south. A petition has been forwarded to the proper office of the Southern railway praying for a new passenger depot in our town, one to be nearer the business portion of the town, and the separation is made that it be located at the intersection of the two streets at the "Dobson turnout."

C. F. Kohrus, the well known farmer, has at his yard, corner of Washington and Washington streets, a fine specimen of art, a life size statue of a statue shows Col. Ward in a standing pose and is a perfect reproduction of the fine figure and commanding presence of the original. The statue will be shipped to Wards, S. C., where it will be placed in the family section in the cemetery there.—Augusta Herald. (This monument has been placed in position at Wards and is certainly a beautiful piece of work. It stands fourteen feet high from base to summit and shows the handiwork of an artist.—Ed. Adv.) Fertilizer, Brick, and Lime. I am handling the Armour Guano and Acids and will be glad to sell same to every farmer in the county, if only a few sacks to each. The base of these fertilizers is the Dried Blood Bones and Tankage accumulated by Armour & Co. in their heavy killing of live stock and the addition of Potash, Nitrate of Soda, Sulphate of Ammonia, etc., as the various soils, climates, and crops require. Armour's animal fertilizers are soil improvers; the plant food in them does not wash out if not all needed by the first crop, but remains in the soil until called for by succeeding crops, making an additional profit to the planter. These are high priced fertilizers, but I am authorized to sell this season at same price as other fertilizers in the market here in order to introduce them to the planters of Edgfield county. I will also keep Brick and Lime regularly on hand now for sale at Edgfield Warehouse. My motto will be small profits and fair dealing. M. A. TAYLOR, Edgfield Warehouse. Man's Best Friend The horse, the most useful and highly prized of all our domestic animals, deserves our best care and consideration. That invaluable boon of suffering mankind, the H. H. H. Medicine was first prepared for use on the horse by its inventor, D. Dodge Tomlinson, 400 North Third Street, Philadelphia, Pa. He was soon convinced that he had discovered the best remedy known for the external treatment of Sprains, Swellings, Sore Joints, Thrush, Swollen Tendons, Lumps, and Enlargements of any kind in the horse. He then experimented upon himself and his own family with the same brilliant success. He found that Rheumatism, Neuralgia, Headache, Sprains, and other mysterious aches and pains vanish as if by magic after a few vigorous rubbings, and massage with the celebrated H. H. H. Medicine. As inferior preparations afford a better profit to the dealer, worthless substitutes are sometimes sold. Look for signature and portrait of the inventor on the wrapper. Stops the Cough and works off the Cold. Laxative Bromo-Quinine Tablets cure a cold in one day. No cure, No pay. Price 25 cents. Sidewalk Wanted Near Depot. Dear Mr. Editor: We on this side of the town appreciate very much the spirit and interest our honored town council are taking in the sidewalks of the several and different streets of our town and hope very early to see this spirit and interest manifested over here about the depot. It is quite amusing and yet distressing to see passengers and the public generally trying to make their way to and from the station through the mud. We have no sidewalk at all leading from the depot to the big road, and the town council can very readily understand why it is amusing and distressing for the public to paddle through this mud. A sidewalk could be very quickly thrown up and there are car loads of cinders on the track of the railroad at the depot which could be thrown on this sidewalk and a little sand on that will make a very comfortable walking sidewalk. I often hear passengers exclaim, "Oh, my, what a muddy place." We are willing to pay a special tax to get this sidewalk rather than not get it. We hope the town council will spend one day over on this sidewalk with their entire force if no longer time can be spared from other urgent duties. We who have occasion to go to and from the depot are sadly in need of a sidewalk as we cannot ride always. MUD SLINGER. The Girl to Have. Once I was young but now I am old, and I have never seen girl that was unfaithful to her mother that ever came to be worth a one-eyed button to her husband. It is the law of God. It isn't exactly in the Bible, but it is written large and awful in the miserable lives of many misfit homes. I'm speaking for the boys this time. If one of you chaps ever come across a girl that with a face full of roses, says to you as she comes to the door, "I can't go for thirty minutes yet, for the dishes are not washed," you wait for that girl. You sit right down on the door steps and wait for her, because some other fellow may come along and carry her off, and for that you lost an angel. Wait for that girl and stick to her like a burr to a mule's tail.—Ex.

WHAT GRIP IS, HOW TO AVOID IT, AND HOW TO CURE IT WHEN YOU HAVE IT. DR. CYRUS EDSON IN THE NEW YORK JOURNAL. CRIP SYMPTOMS. Slight chills, accompanied by shivering; then soreness of the eyes and headaches; these followed by frequent sneezing; heat and soreness at the top of the larynx, along the course of the windpipe, with hoarseness and dry cough; flying pains in the back, knees and various parts of the body; weight and anxiety in the region of the heart; depression of spirits, together with sudden and extraordinary prostration of strength. HOW TO AVOID THE CRIP. Keep dry, warm, and well fed; wear warm underclothing. Don't be afraid to wear rubbers. It is more important to keep the feet dry and warm than any other part of the body. Get a full eight hours' sleep and take a cold bath on arising, if you can stand it. If you can't stand the bath, hire a masseur. If you can't afford massage, have the body rubbed down. Avoid excesses of all kinds, especially in eating and drinking, but don't go too long without food. A CURE FOR THE CRIP. Phenacetine, two scruples; salol, two scruples; quinine salicylate, one scruple. Mix into twenty pills. Take one pill every hour for four hours, and then one every two hours for three or four doses.

What a Paper Said of Him in 1871. Apropos of the birthday of Robert E. Lee, the following clipping will be of universal interest: "The example of the late General Lee, in refusing all gifts and declining to receive compensation for services not rendered, is worth more to his country and to all who follow it, than millions in gold. The facts here stated will not be forgotten. "In the winter of 1864 the city council of Richmond tendered Gen. Lee an elegant mansion as some small token of the high estimate in which he was held by the city which he had so long defended. But the grand old man replied: 'I do not expect to be in Richmond during the continuance of the war, and my family are as comfortable as they have a right to expect to be in these times. I must therefore, with my thanks for your consideration most respectfully decline your offer. If you have money to give, I hope you will bestow it upon my private soldiers, who are more needy and more deserving than myself.'" At the close of the war, offers of pecuniary assistance poured in upon him from all sides, but he steadfastly refused to receive them. An English nobleman thinking he would rejoice in some place of retreat from his afflictions, wrote to offer him a splendid country seat and a handsome annuity. He nobly replied: "I am deeply grateful, but I cannot desert my native state in the hour of her deep adversity. I must abide her fortune and share her fate." Soon after he took charge of Washington College he was visited by the agent of an insurance company, who offered him the presidency at a salary of ten thousand dollars. He told the agent that he could not properly attend to both. "But, General," said the agent, "we do not want you to discharge any duties. We simply want the use of your name. That will abundantly compensate us." "Excuse me, sir," was the prompt and decided rejoinder, "I cannot consent to receive pay for services I do not render." He received many offers of this sort, and just a short time before his death a large manufacturing company in New York offered him a salary of fifteen thousand dollars a year if he would become their president. But to all such offers he had the same reply—his duty in the college fully occupied his time, and he would not receive pay where he did not render service. He refused to receive from the college anything like so large a salary as they desired to pay him, and when, last year, the trustees decided to Mr. Lee a house and annuity of three thousand dollars, the General respectfully declined on Mr. Lee's behalf to accept it. He declined all gratuities, and though a loving people, for whom he had toiled so heroically, would most joyously have settled on him a handsome property, he preferred to earn his daily bread by personal exertion, and to set to his people an example of honest industry.—Christian Observer, Sept. 1, 1871.

Women's Life... Mother's Friend. It is hard enough as it is. It is to her that we owe our world, and every thing should be made as easy as possible for her at the time of childbirth. This is just what will do. It will make baby's coming easy and painless, and that without taking dangerous drugs into the system. It is simply to be applied to the muscles of the abdomen. It penetrates through the skin carrying strength and elasticity with it. It strengthens the whole system and prevents all of the discomforts of pregnancy. The mother of a plumb babe in Panama, Mo., says: "I have used Mother's Friend and can praise it highly." Get Mother's Friend at the Drug Store, \$1 per bottle. ARMY BILL HAS BECOME A LAW. The Government Has Secured Site for the Naval Station at Charleston—Army and Navy Matters. Washington, Feb. 2.—The president signed the bill for the reorganization of the army at 12:30 p. m. today. It is now a law. The war department expects at once a general order to the army reciting the enactment of the army canteen closing law and enjoining upon all army officers and enlisted men obedience to its provisions. The war department practically has completed its arrangement for recruiting the army under the provision of the reorganization act. The enlistment for the month of January amounted to 2,732, an increase of over 800 recruits secured during the previous month of December. The officials are very much encouraged at this result, and have no doubt of their ability to secure all the men they need. Many new recruiting stations have been established in various parts of the country. NO IMMEDIATE ACTION. It is stated at the war department that no immediate action will be taken on the provisions of the army reorganization bill, which permits the appointment of Brig. Gen. William R. Shafter as major general of Gen. John M. Wilson and Fitzhugh Lee as brigadier generals in the regular army and their retirements in the grade named. Gen. Shafter holds the

MERRY MAKERS ARE NOW GOING RIGHT ON. Their Plans Are Well Developed and Are Excellent. The board of directors of the Merry Makers have now every reason to be proud of the support given them by the public in their undertaking this year. It is also encouraging to note the full attendance at the weekly meetings of the directors, which goes to prove that they are to have a show that will surpass anything of its kind ever held in the southern states. The Merry Makers of Augusta are the pioneers in this line of attractions, and experience of five years has been a wonderful teacher. This year's festival is in the hands of men whose minds are ever alert for the best interests of our city, and its visitors. Their efforts will prove to every one what is possible to be done in the way of free street attractions for the benefit of the public. The merchants of Augusta, in fact every citizen, should feel and take a deep interest in the annual fetes. If no more goods are sold than would be without them, it would pay the city to have them, for the reason that it keeps the channels of trade in this direction. Other cities see good derived from them, and a having something of the kind annually—and in many cases several times during the year—which means low railroad rates and large crowds. The trading public love to know the people whom they patronize. The merchants become acquainted

THE NAVAL STATION. Admiral Endicott, chief of the bureau of yards and docks, is completing arrangements for the acquisition of the land designated as the site for the new naval station at Charleston, S. C. The deal with the city authorities for the portion of Chicora park, a little over 174 acres, has been consummated and this part of the site formally made over to the United States government. The bill for the cession of the land belonging to the estate has passed the South Carolina house of representatives, and is now before the state senate. The negotiations for what is known as "Lawton's Land," comprises some 170 acres, are stated to be in a satisfactory state, and the acquirement of all land desired for the naval station, it is stated, will be accomplished before a week or two.
