It is stated that Columbia is to soon have a mattress factory. It will install the latest modern type of machinery, which will be operated by electricity.

One of the greatest evils of the day is the young folk living beyond their income. A good rule is to "pay as you go, and if you can't pay don't go."

AUGUSTA is to have another Merry-Makers' week in October. They propose to make it one of the grandest festivals of the kind the south has ever given.

The latest is that Senator Ben has been dancing. With proper riggings he rigged up and with a Mrs. Riggs in her riggings they danced a jig at Clemson college Saturday night on a "slicked-up" floor.

WASN'T that a hot shot when The State told the Press and Banner it did not matter how influential and prominent free negroes were in the production of the Banner, they had nothing to do with running the Democratic party of South Carolina?

In reading the report of an interview with Tillman one can't help noticing how often Benjamin says "It was I who was instrumental in doing so and so, etc." Ben should remember that even a cow is too modest to blow her own horn. But may be he believes in "giving the devil his dues."

GOVERNOR McSwain has been honored with an invitation to deliver an address in Tammany Hall, New York, on the 4th of July. The invitation is accepted and he is to go to New York to attend.

In last week's Atlanta News are the photographs of two little girls, known to the recent attendants of the Greenville Female college, little Elene Ferrata and Lula Riley, the latter the daughter of Dr. Riley, formerly President of that institution, and the former a daughter of Musical Director Ferrata of the institution. These little ones are mentioned as the pets of Brenon college, at Gainesville, Ga., where their parents now are professors.

McLaurin's grammar is being criticised by some of the newspapers. This does not concern us. What we want to know is the character of his politics. There is no law against politicians using bad grammar. If there were where would Senator Tillman be at? Aiken Journal and Review.

If there was a law against newspaper editors using bad grammar, where would the Journal and Review be "at"?

The theory that the mosquito is responsible for the spread of fever has been established, says the Marion Star, and goes on and relates that pouring oil on standing water will tend to keep the insects down. This should no longer be a theory. If the mosquitoes have deserted Texas and did survive during the recent discoveries out there, it should be stated as a fact, out until Texas is heard from we'll accept it as a theory. We know they have "oil fever," but it can't be attributed to the mosquitoes.

EXPOSITION MAGAZINE.

Edgefield is not moving very rapidly in the desired direction of aid to the Exposition. The counties in the state which do the most work in the way of advertising themselves, will be the counties which will derive the most benefit from the Exposition. A number of towns in the state have had illustrated write-ups in the Exposition Magazine. There are a great many buildings and spots of historic fame and wide-spread interest in the town and county of old Edgefield, and the thousands of visitors from all over the world who will be in Charleston next fall and winter must not leave the Sunny South without hearing at least something of Edgefield and her fertile and varied resources. If there is a lover of the good old county ready for the greater development of Edgefield, "let him put his hands to the plow," and all lend a hand.

In Pennsylvania a few days ago, a young man committed suicide because he could not pay for furniture for his new home. This impractical idea seems to be all the vogue nowadays, that regardless of income or financial condition, certain conventional rules must be carried out and the regulation furniture put in the new home, as if the wherewith were easy to get as it is to get rid of. When will people learn common sense and to do without those things which their purse does not allow? Addison cases said "The man who will live above his present circumstances, is in great danger of soon living much beneath them." Or as the Italian proverb says, "The man that lives by hope will die by despair."

A COLLEGE girl in Greenwich, Conn., went into mourning on the death of her pug dog—Exchange. If that's the good a college education does and the girls can't find anything better to love and mourn over than a dog, it will be better to close college doors than to fill the country with people whose aim in life is no higher than that of an insignificant pug. The most disgusting thing in the world is to see a pug stuck up in the lap of a lady while driving on the streets. When a woman hasn't anything to devote her time to but cursing dogs, her space in the world is moer desirable than her presence. If that was what God intended for women to do, He would not have formed them after His image. A woman might dream that she was filling her mission when nursing pugs, but it won't come true.

THE reply of Chairman Jones to the remarks of The Abbeville Press and Banner read in part as follows: "I do not believe there is a man on the committee who would be unfair to any Democrat in any manner and each one of them will do the utmost to do absolute justice to every Democrat." The fact that McLaurin is not a Democrat or is not the kind he was when elected to office, rules him out of line to get justice by this committee. He is numbered among the Republicans and has transgressed grievously against Democratic principles. This committee promises justice to Democrats only. But justice is some times what we want not, and it may be better for McLaurin to not get justice. The chairman is not in favor of ruling McLaurin out of the Democratic party.

THE McLaurin movement is on foot. The scheme to exclude him from the primary is unwise. We should meet the issue fairly and squarely. If it's for the good of the state let it come and start its good works. If it is not let it come and receive its death blow at the hands of the majority of the voters of the state in an honorable and upright manner. If we mob the movement it is not us again. If it is given a fair trial and it is condemned it will settle once for all—at least for quite a while. McLaurin has followers—of whom we are not numbered—in this new movement, and the Democratic party must readjust itself along certain lines if it hopes to win what the Republicans have won so unanimously in past years—congress and the presidency. Our past platform seems to have some planks in it whereby we are losers. We believe, as a party, too much in opposing an issue because the Republicans favor it. Have principles of the right sort and if the Republicans see fit to join you in your beliefs it does not make you a Republican nor him a Democrat because you think and see alike. The trouble with us is we let some one else do our thinking for us and we take their views as our opinion. We must be broad-minded Democrats, stand for the right and keep abreast with the progress of the new century just dawned upon us, putting aside all party prejudice. Have convictions and stand "with" them—not stand "by" them and see them leave you. This new movement is not only in this state, but is being felt over the southern states.

All Ministers and Superintendents are members ex-officio. Two delegates are allowed from each school, but the larger schools have a delegate for each twenty-five pupils. All church workers and those sympathizing with the cause are heartily invited to meet with us. Let this be everybody's convention; all ready to work as called on, or to volunteer a word in season. "In the multitude of council there is safety." Use this occasion to cultivate co-operation between all Christian bodies in our country. "Behold how good and pleasant it is for brethren to dwell together in unity." Pray for the convention, that the Holy Spirit may use us to promote in many ways the Kingdom of Christ. Remember the time and place, and let every delegate and speaker appointed be on hand.

Mother's Friend. Every woman in the country ought to know about Mother's Friend. Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy. A druggist of Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it." A prominent lady of Lambert, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

Mrs. Bertha Law Hill, with her children, of North-Augusta, are summering with the family of Dr. J. H. Carmichael. Rain! Rain! Grass! Grass! Misses Sarah and Eleanor Nicholson, of Rock Hill, have arrived. Mr. Will Nicholson has returned home from South Carolina college. Mr. Daniel and Princess Elizabeth say that the unusual down-pour of rain interferes with Sunday afternoon drives. There was nothing exciting in or near Edgefield this week. No murders, no suicides, no dances, no elopements.

FLORENCE, S. C., Nov. 25, 1900. I was first advised by our family physician in Charleston to use TETLINA with our baby when she was but a very young infant, as a preventive of colic and to warm it to sweeten the stomach. Later it was useful in teething troubles, and its effect has been found to be so very beneficial and so free from the dangers that are consequent upon the use of drugs and soothing syrups that we have come to regard it, after use with three children, as one of the necessities when there is a new baby in the house and until the teething troubles are, and we take pleasure in recommending it to our friends instead of the horrid stuff that so many people use to keep their babies quiet. HARTWELL M. AYER, (Mgr. Daily Times and Weekly Times-Messenger.)
