**The Deficiency School Fund.** The law requires that every school in the State receive not less than \$75.00 for the year. The dispensary has recently paid 25,000 into the school fund and the Comptroller General has apportioned it among the counties in making up the deficiencies as they appear from the County Superintendents of the State. Some of the counties reported no deficiencies. What remains of the \$25,000 and the additional funds received from dispensary profits during the year will be apportioned among the counties according to the number of children enrolled. Our county treasurer has received \$789.00 of the deficiency fund which will be divided among the schools according to their needs by Superintendent Nicholson.

**Summer School for Teachers.** Mr. A. R. A competent corps of specialists will be in charge. Every teacher of the county, unless providentially kept away, should attend every lecture from the opening till the closing day. The time is coming, and may public sentiment hasten the day, when a teacher who does not attend these normal schools will, to use a common phrase, be out of a job. We shall have more to say later on this very important subject.

Three years later she came to Edgefield to live with her brother William Logue, who was practicing law here at that time. Through out her life, most of which was spent among us, in spite of many crosses and vicissitudes, she has always been a consecrated woman. Her loyalty and devotion to her church were not only beautiful but should be emulated by many lukewarm Christians. Four children survive her, Mrs. W. H. Turner, C. E. and W. R.
