

THE STATE BAPTIST CONVENTION

The crowded condition of our columns makes a write-up of the convention impossible. In our limited space we could not compass one session, while there were ten in all. It was a large assemblage of consecrated men and women with an eye single to the glory of God and the upbuilding of his kingdom. One was especially impressed with the true dignity and brotherly love that characterized the deliberations of the body.

TOUCH NOT, TASTE NOT!

Distillers and sellers of intoxicants, knowing that the approaching holiday season is improperly celebrated by the masses with eating, drinking and making merry to an excessive degree, use every means, legitimate and otherwise, to increase the demand of that which is designated in South Carolina by X's. The vendors of this ally of the world that preys upon the weakness of the flesh to the delight of the devil prove their faith in advertising—especially the use of printer's ink—by their works. As many magazines and newspapers as will publish their seductive advertisements are liberally patronized.

Fearing that other advertising media may not meet the gaze of some, whose spirits are willing but whose flesh lingers, they flood the country with booklets and circulars extolling the virtues of their liquid fire. In this generous distribution of their literature they are no respecters of persons; preachers, deacons and all others whose names can be procured are the willing or unwilling recipients. What living man is there who has not received offers to send Christmas jags in sealed, unmarked packages with express prepaid? Be not ensnared thereby. Purchase none of the vile stuff then the further admonition—touch not, taste not—will be unnecessary.

We are glad to see that some other papers have announced a policy identical with that adopted by the Advertiser some months ago. Our columns are closed to all whiskey advertisements, having repeatedly refused to accept them at any price. When a commodity is advertised in our columns we confidently believe that the sale of said commodity is increased thereby and, as the writer never loses an opportunity to say a word against whiskey drinking, it would be inconsistent to use one column to increase the sale of intoxicants and an adjoining column to suppress it.

The Advertiser prefers to aid in applying the brakes to this world-wide evil, rather than aid in pulling the throttle wide open, thereby speeding it.

CLARK'S HILL.

(Written for last issue.) THE ADVERTISER: As my other letter escaped the waste-basket, I will try my hand again. Cold weather has come at last and is welcomed by all, I think. The hogs are squealing around this morning. Spare-ribs and back bones for dinner. Fruit growers are busy working their trees, or preparing land to set out more. There will be about eight or ten thousand set out here this fall, and next spring. This will make about one hundred thousand set out here in the last few years. Cotton is now a thing of the past, with most of the fruit growers. This is getting to be quite a fruit country, both old and young are crazy to set out an orchard. Hop's the fruit fever will continue to spread.

We expect to have a cannery here in a few years, also a crate factory. Mr. R. H. Scott, of Cheviot Hill, has one of the finest turnip patches in the neighbor hood. He has only half an acre, but will make about one hundred bushels. I saw one this morning at his home that weighed even five pounds, and I think that he has some heavier than that. He is always successful in growing turnips. He banks them, and has them fresh through the winter. One of our bachelors was absent from us last Sunday. He seems to have quite an attraction in other quarters, he seems in earnest here of late. We bachelors will hate to lose our old pard.

Mr. J. B. Adams, Jr., made a flying trip over this side last Saturday. There seems to be quite an attraction here for the Doctor. Mr. Theo. Price, of Aiken, was in our town last Sunday.

From the number of visiting young men seen here last week, it is likely that some of our charming young ladies will leave us soon. We boys will have to stop this. Some of our boys are trying to organize a debating society, provided the young ladies will help them debate. I think that they will help; hop, so anyway. Thanksgiving dawned clear and cold. Every-thing passed off quietly. One of the school-boys was asked what did he have to be thankful for. He said "butter and milk." Mr. M. C. Bussey, of Beaufort, Texas, is on a visit to his sister, Mrs. J. D. King, and relatives. We are expecting a big Christmas in this section. Hope that we will have some snow. If this escape the waste-basket, I'll come again. Much success to the ADVERTISER. Chappie.

WEEDS

Consumption is a human weed flourishing best in weak lungs. Like other weeds it's easily destroyed while young; when old, sometimes impossible.

Strengthen the lungs as you would weak land and the weeds will disappear.

The best lung fertilizer is Scott's Emulsion. Salt pork is good too, but it is very hard to digest.

The time to treat consumption is when you begin trying to hide it from yourself. Others see it, you won't.

Don't wait until you can't deceive yourself any longer. Begin with the first thought to take Scott's Emulsion. If it isn't really consumption so much the better; you will soon forget it and be better for the treatment. If it is consumption you can't expect to be cured at once, but if you will begin in time and will be rigidly regular in your treatment you will win.

Scott's Emulsion, fresh air, rest all you can, eat all you can, that's the treatment and that's the best treatment.

We will send you a little of the Emulsion free. Be sure that this picture in the form of a label on the wrapper of every bottle of Emulsion you buy. SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y. 50c. and \$1; all druggists.

Rheumacide advertisement with text and logo. Text: "Continues to make Miraculous Cures. READ THIS LETTER: ALMOST A MIRACLE. Gentlemen—In September, 1902, I took rheumatism in a very bad form. In a month after the disease started I had to give up my work and go to bed. It continued to grow worse until my arms and hands were badly drawn, and I could not use them. My legs were drawn back until my feet touched my hips. I was as helpless as a baby for nearly twelve months. The muscles of my arms and legs were hard and shriveled up. I suffered dreadfully. I was treated by six different physicians in McGill, Dillon and Marion, but none of them could do me any good, until Dr. J. P. Ewins, of Dillon, came to see me. He told me to try your 'RHEUMACIDE.' He got me one bottle of the medicine and I began to take it and before the first bottle was used I began to get better. I used five and a half bottles and was completely cured. It was two years ago, and my health has been excellent ever since. I have had no symptoms of rheumatism. I regard 'RHEUMACIDE' as by far the best remedy for rheumatism on the market. I cannot say too much for it. I have recommended it to others since and it has cured them. Will say further, that I began to walk in about six days after I began to take 'RHEUMACIDE,' with the aid of crutches; in about three months after I began to take it, I could walk as good as anybody, and went back to work again. Very truly, JAMES WILKES. All Druggists, or sent express prepaid on receipt of \$1.00. Bobbitt Chemical Co., Baltimore, Md.
