"DEAR MRS. PINKHAM: -- If women who are always blue and depressed and nervous would take Lydia E. Pinkham's Vegetable Compound they would find it the medicine they need to bring them to a more cheerful frame of mind. I was terribly worried and downeast, and was thin and bloodless. My back ached all the time, no matter how hard I tried to forget it or

change my position to case it, and the pain at the base of my brain was so bad that I sometimes thought that I would grow erazy; I had the blues so much and was always so depressed I could not seem to shake them off ; half of the time I did not seem to have the courage to do my work; everything seemed to go wrong with me, and I was always worrying and fearing the worst. But before his complete recovery the "dead line" had been obliterated. The little footsteps of Virginia had worn a smooth path across it from shack to shack, and often Henry Egerton followed after his tiny niece "to go and sce muzzer." Somehow there was as much attraction for him as for the

innnocent child, who had found in its bereavement another who had quickly healed the wound. Then one day Henry Egerion walked to the old shack with lines drawn tighter around his mouth, and with eyes hardened to bear a new burden. The decision of the courts in their respective claims had been handed down. The ownership of the valuable quarter section was decided forever. Depond the hearing of the convalescent man,

who sat in the sun of the doorway Egerton told the news to Dorothy Under the blunt announcement she paled and flushed by turns. "Then pity for the drawn face before her made her exclaim: "Oh, I'm sorry for you, Mr. Egerton,

I could stay as your hired man until your father was well again; but I won't. I would

stay at your bidding-if-if-you would always be Virginia's mother." Dorothy held forth a trembling hand. He seized it and covered it with kisses, hastily interpreting the action as a plea to stay, and Dorothy did not have the courage to break his illusion. Then from the shadow of the shack a small

Women Made Strong and Happy 'Mothers.

Catarrh of the Pelvic Organs is a Frequent Cause of Barrenness.

Pe-ru-na Eradicates Catarch From the System,

O the woman of ancient Israel not to become a mother was regarded as the greatest of earthly calamities. To greatest of earthy calamities. To become a mother-more especially the mother of a strong, healthy boy-was the height of glory for the faithful woman of the good old Bible days. Even now, when maternity is not esteemed as of yore, the mother of healthy children is an object of admiration, and sometimes envy, by her neighbors. As compared with ancient neighbors. As compared with ancient peoples, the average American woman has a low appreciation of motherhood. There are, however, a great many exceptions to this statement.

The accompanying letters from grateful women who have been made strong healthy and happy mothers need no addee words of ours to make them convincing Catarrh had weakened and impaired their entire systems. Peruna made them sound and well
