Body of an Unfortunate is Shipped Thousands of Miles. The unidentified body of a man

DENIED BURIAL IN BIBERIA.

killed on the Trans-Siberian Railroad near Tomsk last summer is still unburied. He was believed to have come from Irkutsk, whither the body was sent, only to be returned to Tomsk by the police. Once more it was sent to Irkutsk and once more returned by the police as being unknown in that Innumerable telegrams were sent

and replied to, no town would receive the body, which was sent hither and thither by railway, always being returned to Tomsk. At last it was of fered to the Anatomical Museum at Tomsk, where it was preserved for nine months, no one daring to dissect it without rermission from the higher government Now the museum is being rebuilt and the body has been once more

handed over to the Tomsk police. They again refuse to bury it without the documents without which nothing can be done in Russia, and the unhappy body, which is said to have already traveled over 11,000 miles, is once more upon its unending travels.

Ways of the Orient. There is nothing very remarkable

in the report from Japan that a movement is on foot, supported by many eminent men, to found a church pro-Christian in character, but independ ent in its lines. When Buddhism was disestablished and disendowed in the early '70s c? last contury, owing to the momentary ascendency of Shiuto, which is merely vague ancestor and nature worship, it was prophesied by acute foreign observers that Japan would either adopt Christianity or become frankly materialistic. It will not be owing to any lack of energy on the part of European and American missionaries if the former course is discarded. Here is one forecast published fourteen years ago: "To make all Japan Christian by edict some fine morning is not on the program of the Japanese statesman of the hour. But that something of the kind should happen within the next twenty years is not nearly so unlikely as many things that have actually happened in this land of realized improbabilities."

DOCTORS MOVE GIRL'S HEART.

Organ Restored to Normal Condition Though Shifted Six linches.

Annie Riley, a 13-year-old daughter of James Riley of Dickson City, Pa. became ill with pleurisy about a year ago. The family physic'an found the whole left side of the child's bcdy over the lungs bloated. He removed the matter and the girl began to get well Soon, however, a second gathering appeared, which decayed the ribs on the left side. During this second illness the girl's heart moved over to the right side some six inches from its proper position.

The girl was taken to a hospital, where physicians found it necessary to remove four whole ribs and parts of

The physicians restored the heart to its natural position, but the operation left the child weak and for two weeks she was in a dangerous position, but now it is believed she will recover.

Three Strikes.

The old adage that "lightning never strikes twice in the same place" has stance in point: In the 81 1884 the farmhouse of Henry Axtell in Chemung County, N. Y., was struck by lightning three times in one day. First it split the chimney from top to bottom, ruined stove and pipe and bored several holes in the floor. An hour later a "bolt" struck the same house and tore a milk bench, upon which several cans of milk were setting, all to pieces. The same evening a third flash entered the roof and tore the legs from a bedstead .- Middietown Times.

A Growing Evil.

The practice of giving away transfers by passengers has come to be such an evil that the Metropolitan Street Railway Company has decided to see if it cannot have enforced that section of the city ordinance, providing for universal transfers, which makes : a misdemeanor to sell, give away or exchange transfers, and makes such act punishable by a fine of from \$5 to \$150 on conviction in the Police Court.

Odds and Ends.

The longest ears of corn on exhibiion in the Palace of Agriculture at he World's Fair were raised within the corporate limits of St. Louis, and are displayed in the Missouri exhibit, James Adams, of Wellston, yesterday sent to Superintendent Matt W. Hall three ears of yellow field corn, two of which were 17 inches long, while the other lacked but a fraction of an inch of that length.

A number of boys ride many miles very day on their donkeys to attend he Gordon College at Kharroum.

SAFEST FOOD In Any Time of Trouble is Grape-Nuts.

Food to rebuild the strength and that is pre digested must be selected when one is convalescent. At this time there is nothing so valuable as Grape-Nuts for the reason that this food is all nourishment and is also all digestible nourishment. A woman who used it

"Some time ago I was very ill with typhoid fever, so ill everyone thought I would die, even myself. It left me so weak I could not properly digest food of any kind and I also had much howel trouble which left me a weak, helpless wreck.

"I needed nourishment as badly as anyone could, but none of the tonics helped me until I finally tried Grape-Nuts food morning and evening. This not only supplied food that I thought delicious as could be but it also made ne perfectly well and strong again so I can do all my housework, sleep well, can eat anything without any trace of lowel trouble and for that reason alone Grape-Nuts food is worth its weight in gold." Name given by Postum Co., Battle Creek, Mich.

Typhold fever like some other dis cases attacks the bowels and frequently sets up bleeding and makes them for months incapable of digesting the starches and therefore pre digested Grape-Nuts is invaluable for the weil known reason that in Grape-Nuts all the starches have been transformed uto grape sugar. This means that the first stage of digestion has been mechanically accomplished in Grape-Nuts food at the factories and therefore anyone no matter how weak the stomach can handle it and grow strong, for all the nourishment is still there.

There's a sound reason and 10 days trial proves. --

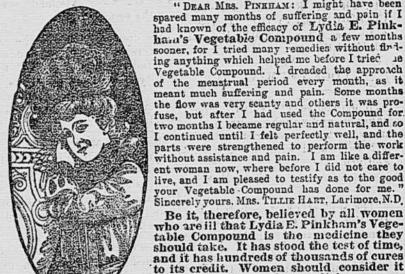

Mrs. Haskell, Worthy Vice Templar, Independent Order Good Templars, of Silver Lake, Mass., tells of her cure by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINEHAM: Four years ago I was nearly dead with inflammation and ulceration. I endured daily untold agony, and life was a burden to me. I had used medicines and washes internally and externally until I made up my mind that there was no relief for me. Calling at the home of a friend, I noticed a bottle of Lydia E. Pinkham's Vegetable Compound. My friend endorsed it highly and I decided to give it a trial to see if it would help me. It took patience and perseverence for I was in bad condition, and I used Lydia E. Pinkham's Vegetable Compound for nearly five months before I was cured, but what a change, from despair to happiness, from misery to the delightful exhibarating feeling health always brings. I would not change back for a thousand dollars, and your Vegetable Compound is a grand medicine. "I wish every sick woman would try it and be convinced." -- Mrs. IDA HASKELL, Silver Lake, Mass. Worthy Vice Templar, Independent Order of

Good Templars. When a medicine has been successful in more than a million cases, is it justice to yourself to say, without trying it, "I do not believe it would help me"?

Surely you cannot wish to remain weak, and sick and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others. Mrs. Tillie Hart, of Larimore, N. D., says:

ing anything which helped me before I tried as Vegetable Compound. I dreaded the approach of the menstrual period every month, as it meant much suffering and pain. Some months the flow was very scanty and others it was pro-fuse, but after I had used the Compound for two months I became regular and natural, and so continued until I felt perfectly well, and the parts were strengthened to perform the work without assistance and pain. I am like a different woman now, where before I did not care to live, and I am pleased to testify as to the good your Vegetable Compound has done for me." Sincerely yours, Mrs. THLIE HART, Larimore, N.D. Be it, therefore, believed by all women who are iil that Lydia E. Pinkham's Vegetable Compound is the medicine they should take. It has stood the test of time, and it has hundreds of thousands of cures

"DEAR MRS. PINEHAM: I might have been

unwise to use any other medicine.

Ars. Pinkham, whose address is Lynn, Mass, will answer cheerfully and without cost all letters addressed to her by sick women. Perhaps she has just the knowledge that will help your case - try her to-day - it

What a Bird Likes

Birds like a little sunshine-too much is fatal. A bird after bathing may be hung for fifteen minutes in the sunshine to dry his feathers, but should not remain longer, says Household Animals. Do not hang birds in a window, All

windows are draughty. Do not permit a draught from an open window to strike your bird. Do not allow the temperature of the room where the bird is kept to drop suddenly. Permit your bird to go to rest at dusk, keeping it out of a lighted

Keep canaries in a temperature of 85 to 70 degrees. Never make a quick move about a bird or move it suddenly.

--- TO FARMERS AND POULTRYMEN! ---

HICKENS EARN MONEY If you give them help, unless you understand them and know how to cater to their requirements, and you cannot spend years and dollars learning by experience, so you must buy the knowledge required by others. We ofter this to you for only 25 cents. You want them to pay their own way even if you merely keep them as a diversion. In order to handle Fowls judiclously, you must know something about them. To meet this want we are selling a book giving the experience of a practical poultry raiser for (Only 25c.) twenty-five years. It was written by a man who put all his mind, and time, and money to making a success of Chicken raising—not as a pastime, but as a business—and if you will profit by his twenty-five years' work, you can save many Chicks annually, and make your Fowls earn dollars for you. The point is, that you must be sure to detect trouble in the Poultry Yard as soon as it appears, and know how to remedy it. This book will teach you. It tells how to detect and cure diseases: to feed for eggs and also for fattening; which Fowls to save for breeding purposes; and everything, indeed, you should know on this subject to make it profitable. Sent postpaid for twenty-five cents in stamps. BOOK PUBLISHING HOUSE, IN Leonard St., New York City
