

This Pretty Girl Saved From Catarrh of the Lungs by Pe-ru-na.

MISS FLORENCE KENAH

Miss Florence E. Kenah, 434 Maria street, Ottawa, Ont., writes:

"A few months ago I caught a severe cold, which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset and my head and back began to ache severely and frequently. I was advised to try Pe-ru-na, and although I had little faith I felt so sick that I was ready to try anything. It brought me blessed relief at once, and I felt that I had the right medicine at last. Within three weeks I was completely restored and I have enjoyed perfect health since. I now have the greatest faith in Pe-ru-na."

Florence E. Kenah.

The cold and the cold wind and rain, sleet and mud of winter are especially conducive to catarrhal derangements. Few women escape.

Upon the first symptoms of catching cold Pe-ru-na should be taken. It fortifies the system against colds and catarrh.

Pe-ru-na for Colds and Catarrh.

The following interesting letter gives one young woman's experience with Pe-ru-na:

Miss Rose Gerbing, a popular society woman of Crown Point, Ind., writes:

"Recently I took a long drive in the country, and being too thin I caught a bad cold which settled on my lungs, and which I did not seem to shake off. I had heard a great deal of Pe-ru-na for colds and catarrh and I bought a bottle to try. I am pleased that I did, for it brought speedy relief. It only took about two bottles, and I consider this money well spent. I have a firm friend in me, and I do not only advise its use to my friends, but have purchased several bottles to give to those without the means to buy, and have noticed without exception that it has brought speedy cure wherever it has been used."—Rose Gerbing.

Pe-ru-na Contains No Narcotics.

One reason why Pe-ru-na has found permanent use in so many homes is that it contains no narcotic of any kind. Pe-ru-na is perfectly harmless. It can be used any length of time without acquiring a drug habit. Pe-ru-na does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Pe-ru-na has been used on and off for twenty years. Such a length of time without acquiring a drug habit, Pe-ru-na does not produce temporary results. It is permanent in its effect.

All correspondence held strictly confidential.

MONEY IN THE BANK

Saves Mrs. Chadwick From Charge of Intentional Fraud

CLAIM OF GOVERNMENT FAILS

The Defence in the Chadwick Case Shows That She Had Money on Deposit in the Oberlin Institution.

Cleveland, Ohio, Special.—Nine witnesses were examined in the Chadwick trial, and the defence established the fact that the claim of the government that Mrs. Chadwick had no money in the Oberlin bank at the time of drawing the checks which were certified by Spear and Beckwith, was incorrect in two instances, at least.

It was shown by the general journal of the bank that on November 3, 1903, when Mrs. Chadwick received a certified check for \$10,000, an entry crediting her with that amount was made on the journal of the bank and a deposit slip for \$10,000 was made out in her name. The entry and the slip were in the handwriting of Cashier Spear. Another entry of similar nature amounting to \$5,000 was also found. These facts were brought out on cross examination by Judge Wing, counsel for Mrs. Chadwick after long and tedious questioning of H. H. Avery, assistant cashier of the Oberlin bank. Avery at first testified that at no time had Mrs. Chadwick either money in or credit at the bank. Several directors of the Oberlin bank testified that they knew nothing of the transactions with Mrs. Chadwick. One of them said none of the Chadwick deals were ever reported by Mr. Spear to the directors.

An official of the Euclid Avenue Trust Company testified that Mrs. Chadwick had \$92,000 on deposit in his bank. Horace G. White, book keeper of the Oberlin bank, testified that the entry giving credit to Mrs. Chadwick for \$10,000 was in the handwriting of Cashier Spear, and that the deposit slip for the same amount was also in Spear's handwriting. Robert Lyons, receiver for the Citizens' National Bank of Oberlin, said that the books did not show that any account had ever existed by which Mrs. Chadwick could have drawn on the bank. Mr. Chadwick came into court to draw apparently no the worse for her illness, which caused the adjournment yesterday. She wore the same gown of black and white, as on her first appearance, but had a long wig which covered her face, and was wound in repeated folds over her neck. Shortly after taking her seat in the rear of her counsel, she removed the veil and took the position she occupied during the trial of yesterday, her elbow on the table and her chin in the palm of her hand.

It is doubtful if Andrew Carnegie will take the stand. District Attorney Sullivan said today: "It is not my present intention to put Mr. Carnegie on the stand, and he will be called upon to testify unless his evidence should be needed in rebuttal of something introduced by the defence."

Carnegie May Not Testify.

Cleveland, O., Special.—The cause of the government against Mrs. Chadwick was completed Wednesday afternoon. One witness for the defence, an expert accountant, was sworn, but an adjournment was taken before he had given any testimony. The entire afternoon session was taken up by the introduction as evidence of checks, deposit slips, books of the bank and two letters written by Mrs. Chadwick to Mr. Beckwith and Mr. Spear. One of the letters was written to Spear at the bank. Mr. Chadwick asked him to certify a check to be given by her to Henry Wurst, of Elyria, saying that she would get the goods in the East to make the check. "So draw a check for \$15,000," the letter said, "and I will call on you on Monday. I will call on you to get my goods, and I will call on you to get my goods, and I will call on you to get my goods."

District Attorney Sullivan laid great stress, in representing the letters to the jury, on the apparent fact that Mrs. Chadwick was asking for the money in the bank, but even before she had signed it. It is practically settled that Andrew Carnegie will not appear in the case at all. There has been nothing in the case as presented by the government, but the manner on the papers signed with his name which bore so large a part in the financial transactions of Mrs. Chadwick, and it is not expected that his defense will offer any testimony in rebuttal of the government's case.

Fresh From the Wires.

Trustee Looser, of the Chadwick assets, and Public Prosecutor Keeler called on Mr. Carnegie and obtained from him specimens of his handwriting which is altogether unlike that on the Chadwick papers.

The San Francisco police are still without information as to what the chemical analysis in the case of Mrs. Chadwick shows, but are inclining to the belief that she was not poisoned.

A special pontifical commission has made a report recommending a modification of the Papal decree against men singing in Catholic church choirs.

A movement has been started in Rome for the foundation of an international institute of agriculture.

The Mayoralty fight in Chicago is centering around the question of municipal ownership of the street railways, and the value of \$105,000,000 in stocks and bonds is thus affected.

The strike on the subway and elevated railroads in New York failed to stop traffic on those lines, and railway officials say they have the situation well in hand.

Four miners were killed by the breaking of a cable at a mine near Charleston, W. Va.

Rev. Dr. Leighton Parks, rector of St. Bartholomew's Protestant Episcopal Church, New York, gave out an interview scoring social leaders for not checking the divorce evil.

The case of the Government against Mrs. Cassie L. Chadwick for her concealment of the strike was completed at Cleveland.

The police of Honolulu say that if Mrs. R. L. Stanford was poisoned the guilty persons are in San Francisco.

Capt. George W. Byron, of Washington, is inventing an airship which, he says, will disconcert that of Santos Dumont, and will shortly make an ascent in Washington. He will employ nine separate gas bags to make the aerial ship for long distance traffic.

An Unfavorable Turn For Russia.

General Rennenkampf's Headquarters, Oubensupa.—By Cable.—Events took an unfavorable turn for the Russians this evening. After a succession of determined attacks the Japanese ousted the Russians from an important position in the left center of the Eastern army. The Japanese are now pressing the center hard. The Russian have been ordered to retake the position at any cost. There were heavy losses today on both sides.

CURES STOMACH TROUBLES

FOR THE HOUSEWIFE

To Reduce the Temperature.

A very warm and uncomfortable room may be made much pleasanter, especially in cases of sickness, where the life of the patient often depends on his being kept cool, by hanging large, thick, wet cloths in windows or doors, says the Ladies' Home Journal. The evaporation will soon reduce the temperature several degrees.

To Clean Linoleum.

For ten square feet of linoleum allow two eggs; break these into a basin and beat sufficiently to partially mix them, and then add one quart of lukewarm water. Dip a soft flannel cloth in this mixture and go over the linoleum; wring out the cloth and wipe a second time, using care not to step where this has been done, then leave it to dry in the air, not using the room till the floor is thoroughly dry. The linoleum will look like new.—The Nor-west Farmer.

With Two Maids.

The best way of arranging the work for two maids in a household is to have the cook do the washing and ironing and cooking, the other maid waiting on table and doing the work of a waitress and chambermaid. One has all the downstairs work, the other all the upstairs work. On Mondays and Tuesdays, when the cook is busy with the laundry work, the other maid may help with the breakfast and luncheon and have the upstairs work made easier for her. This is better than to divide the laundry work, as a maid who washes cannot be ready to open the front door and do the waiting and wait upstairs. If the cook cannot manage all the laundry work it is wise to have the white work and collars and cuffs worn by the gentlemen in the family done outside, as they take so much time to do well.—Harper's Bazar.

Sanitary Housekeeping.

Few women there are who do not know how salient an item is the scrupulous care of the refrigerator or chest, yet how many of us take the trouble to see that this important work is rightly accomplished? It is monotonous reading to be told that this receptacle should be cleaned thoroughly twice a week and wiped from the ice chamber too often proves a medium for the "solid food" culture of germs as the constant dripping of melted ice will, unless unusual care is bestowed upon it, form a gelatinous coat, on which the germs of fermentation thrive. A strong alkali, such as potash—commercially known as lye—or chloride of lime, should be poured down this pipe at least twice a week.

Sinks, washstands and toilets should likewise receive careful attention and disinfectants should be generously used.—Harper's Bazar.

Rugs and Carpets.

How many rugs and carpets are worn out in half the time they should last by the constant beating and sweeping they receive? Instead of this they should be kept clean with a carpet sweeper and occasionally put out on the grass. Lay them on the wrong side and beat with a furniture beater; then reverse and sweep carefully, using a soft brush in preference. A little airing outside of the sun's rays is very good for them.

Always brush the carpet in the direction which the nap lies, never in the opposite direction, as this destroys the luster. When a large carpet is to be thoroughly cleaned it is better to have it removed to a place where it will be properly cleaned. These cleaners do the work very effectively and are not hard upon the carpets.

If, however, you have carpet squares or rugs you wish to clean at home proceed as follows: Stretch and tack the square upon a clean floor, then scour it well with soapuds. After the scouring it must be thoroughly rinsed to remove all traces of the soap, after which the rug should be left in the same position to dry, and the tacks should not be removed until it is perfectly dry. If this is done the rug will not shrink and will be perfectly flat upon the floor when down.

Creases and ridges are sometimes seen in rugs, which look like an imperfection in the weaving. This is invariably the result of the rug having been folded and not rolled.—Philadelphia Inquirer.

Recipes.

Two pounds of tripe in boiling water until tender, then cut in several pieces and lay in a buttered baking dish. Pour over one-half can of tomatoes and half a cup with salt and mixed fine. Dust with salt and use a few drops of tabasco sauce, using about half a teaspoon in all. Do with water, using a rounding tablespoon, and bake three-quarters of an hour.

Mush with Raisins.—Have two cups water boiling vigorously in a saucepan with one-half teaspoonful salt. Stir in slowly two-thirds cup of any quickly cooked cereal you may prefer. When thick add one cup steamed raisins and keep it over boiling water for twenty to thirty minutes, or longer if you prefer. Serve with milk. When you have the time to let the mush cook longer, two hours at least, the raisins need not be stewed.

Brown Bread.—Mix one cup each white corn meal, rye flour and gram flour, one teaspoon salt, one level spoon powder. Then stir in half cup molasses and two cups sour milk and if not thin enough to pour add a little more milk or water. Sour milk and molasses vary so much in amount of acidity they contain that it is safer to use baking powder in addition to the soda. Stir in one cup raisins, which have been prepared and cut in halves. Pour into a wellgreased mold or pan and steam three hours.

Rye and Indian Bread.—Mix two cups common yellow corn meal, one cup rye meal, one level teaspoon salt, one level spoon sugar, one level spoon sweet milk and one-half cup molasses and one cup prepared raisins. Mix thoroughly and turn into a greased pan or mold with a tight cover. Stand the mold on a trivet in a kettle of boiling water, enough to come two-thirds of the way round the mold; cover the kettle tightly and keep the water boiling steadily for four hours. Replenish with boiling water as needed.

Pearls kept in the dark lose their lustre.

WATERPROOF CLOTHING

FOR THE HOUSEWIFE

FOR THE YOUNG HOUSEWIFE.

Young housewives and girls that are training for the responsibilities of a household will find much that is useful in the little papers contributed to The Delicater by Isabel Gordon Curtis under the title "The Making of a Housewife." In the April number the topic is "Planning a Week's Work," and "Wash Day." The author suggests an economical distribution of time and labor that will recommend itself to all who read her remarks. Other features of domestic interest in the same number are illustrated cookery for Easter, "Planning and Making of a Week's Work," and "Wash Day." The author suggests an economical distribution of time and labor that will recommend itself to all who read her remarks. Other features of domestic interest in the same number are illustrated cookery for Easter, "Planning and Making of a Week's Work," and "Wash Day." The author suggests an economical distribution of time and labor that will recommend itself to all who read her remarks.
