Stains..... 7 to 9 UNDEVELOPED WATER POWER. arranging for the purchase of the ma-

Strict Middling $10\frac{1}{2}$

Which Are Susceptible of Producing Vast Store of Motive Power.

It is staid that the United States geological survey is soon to have prepared a map showing the extent to which the water powers of this State are susceptible of development. The work will show the water powers on the Broad river north of Alston and onthe Catawba river between Camden and the North CaCrolina line.

On the Catawba river (also known

below the Great Falls as the Watercel in the 80 miles between Camden and the State line the fall is about 380 feet. The greatest fall oc- what was done to affect the bettercuts at the head of navigation, five ments. There has been built an admiles above Camden where the drop is 52 feet in five miles; at Rocky Mount where the full is 173 feet in eight miles, and at Landsford, where the fall is 40 feet in two miles. At each of these points small navigation canals were constructed about 75 years ago by the State.

Very little power is now being used at these shoals. The principal developed water power on the river is the new plant at Rock Hill, where Mass., and the Woonsocket Machine the dam and working head are about 30 feet. On Broad river the fall is about 320

feet in the 75 miles between Alston and the State line. The principal shoals are the Lockbart shoals, where the fall is 48 feet on one and a half miles and a series of shoals, including Cherokee shoals; near Gaffney where the fall is 104 fet in six miles. An examination and report on this river was made in 1870 and 1880 by the corps of engineers of the United cated by a dispatch from Dunn, N. States army.

The Carolina Mutual Insurance company with headquarters at Columbia, It was planned for 70,000 spindles has been ch: 'ered. Mr. S. L. Miller | and 2,000 looms, but only half that for a number of years field agent in equipment is in position at present, South Carolina for the Equitable and subsequently general agent for the Mutual, and now for the Home Life, is president and treasurer. The directors are T. K. Elliott, president of the bank of Winnstoro and of the Fairfield-Cotton Mills; E. H. Sparkman, vice-president of the Merchants and Planters Bank of Union; J. W. Simpson, cashier of the First National Bank of Spartanburg; Wilie Jones, vice-president Carolina National Bank of Columbia; and Dr. W. M. Lester of Columbia, medical director.

Congressman George S. Legare has gone to Washington, where he will meet a number of other representatives, forming a party who will be the guests of Congressman Wilson of North Dakota on a hunt in that State.

Mr. Thomas J. McCrarv, president and treasurer of the Newberry Cotton Mills, died suddenly Wednesday morning shortly after 11 c'clock, during an attack of acute indigestion. The illness seized him at about midnight, and was utterly unlooked-for, as Mr. McCrary had been apparently in good health. Mr. McCrary's death is viewed by the community as a great calamity.

A special from Orangeburg says: H. W. Bouzard, former dispenser at Fort Motte, who was arrested charged with a defalcation amounting to \$2,271.51, and who was delivered into the custody of the sheriff in default of bail, was released, the necessary bond having been secured. Bond was fixed in the sum of \$2,000 and the bondsmen are W. G. Peterkin and Martin Keller of Fort Motte and M. C. Edwins of Orangeburg. Bouzard waived a preliminary hearing and, while the case will be called during the court of general sessions which convenes here Monday, the defence may require more time and ask for a

postponment until January. Gen. M. L. Bonham has been confined to his room for the past week, suffering with an intestinal abscess. As soon as he is able his physicians will take him to a hospital to have an operation performed.

County Supervisor McBride of Florence ordered an election to be held on October 3rd for the purpose of voting on the question of dispensary or no dispensary under the Brice law, the requisite number of names

having been secured. Several merchants from other places are going to locate in Sum-

chamber of commerce to secure stores for them. Houses and stores are in great demand and are being built very rapidly. The city of Sumter is stretching out and where a few years ago were waste lands or lands planted are now fine residences. Another evidence of the business growth of the city is the building o ftsores in various sections of the city heretoforg of an exclusive residential section. The outlook for a fine fail trade is said to be better than for years.

Brenham, Texas. -The Brenham Cotton Mills expects to double the capacity of its plant in the near future cwing to the steadily increasing de mand for its product. There are at present some 5,000 spindles and 160 locms in position, to which \$10,000 worth of machinery will be added at once, filling up all the vacant space available at present.

Machinery has been installed in the addition of the Ellawhite Cotton with 10,000 spindles.

Work on the Congaree and Available Funds. Congressman Lever has received from Gen. MacKenzie the following by the No. 2 mill of the Erwin Cotton letter in regard to the work on the an available for that purpose:

War Department, Office of the Chief Engineers, Aug. 21, 1905.

of Representatives, Sir: In reply to your oral request made this morning, I have the honor to furnish the following information in regard to work on the Congaree the death of any suspected patient to river, asked for in letter to you, dated Aug. 15, 1905, from Mr. I. L. Withers, general manager of the New York, Columbia and Georgetown Steamship

company. The amount now available for Congaree river is divided into two parts. On the first day of August, there was \$17,463.52 available for the purpose of clearing the channel and excavating the rock between Gervais street bridge, Columbia, and the dam at Granby; and \$25,000 available for fee to France show a considerable inclearing the channel of snags and ob- crease at very good prices. structions between the dam at Granby and the mouth of the river, the latter sum being alloted in accordance with the terms of the river and harbor act of March 3, 1905, which made permissable the use on the Santec. Wateree and Congaree rivers, and the Estherville-Minim creek canal, of the unexpended balance of approand dam in the Congaree river. The unexpended balance of this appropriation at that time was sufficient to allot \$25,000 to the Congaree below the dam, and to leave a sufficient sum

to complete the excavation and clearing of the river above the dam. The project adopted by congress, in accordance with which the money must be spent, is quite general in its nature, involving securing a clear four-foot navigation over the lower 47 miles at all stages from the mouth to Granby, and cleared channel 100 feet wide from Grandby to Gervais

street bridge. The local officer in charge, Capt. G. P. Howell, corps of engineers, has interested in plans being formulated submitted a project for expending the available funds in accordance with

this plan. I have no doubt that the wishes of those interested in the navigation will Cotton Mills is now receiving 3000 receive careful consideration by Capt. Howell in the expenditure of the funds at his disposal, and would suggest that Mr. Withers confer with being installed in the company's him driectly in the manner indicated buildings. It was announced last fc ! in his letter.

I assume above that Mr. Withers inquiry referred to the present funds, but if he desires to know the total amounts that have ever been appropriated for the Congaree river, I may say that there has been appropriated for a lock and dam at Granby a total of \$250,000 and the expendituures there from up to the end of the last fiscal year were \$204, 253.94. Of the remaining balance \$25,000 was assigned to the lower Congaree, in accordance with the river and harbor act of March 3, 1905. In addition to this reallotted balance, the total appropriations for the lower Congaree have been \$36,000, of which there had been expended up to July 1, 1905, the

CHOLERA SCARE 3

American Seaport Towns Seriously Menaced By the Plague

IT GETS HOLD IN GERMAN PORTS

Plague Record Stands at 51 Cases and 19 Deaths, Two Cases Existing at Hamburg. But the Greatest Danger to American Ports is Believed to Lie in the Austrian Port of Trieste.

Berlin, By Cable.-Dr. Nocht, harbor physician at Hamburg, in reply to inquiries made by the press concerning cholera, telegraphs as follows:

"The transhipment of Russian emigrants having been suspended at Hamburg, further cholera infection is improbable.

"The room companion of the first case has a light attack, but otherwise all the emigrants are healthy.

"Three emigrants due to sail last Thursday on the steamer Moltke, (for New York.) were landed and since then have been under medical observation. All are healthy. The drinking water and the sanitary arrangements here are faultless, and consequently an epidemic is unlikely.

"Single instance, naturally, in spite of the greatest care, cannot always be prevented, but no danger exists for sea traffic. I am convinced that all the means for opposing the cholera are in use. We are going to meet the future with tranquility and we hold that Americans have no grounds for dis-"NOCHT."

The opinion is expressed in Berlin that the United States seaboard has more to fear from emigrants shipping at Trieste than from German ports as cholera is already in Austria Po-

The record stands at 51 cholera cases and 19 deaths, a steady increase and a rapidly, over the eastern half and high percentage of mortality. The most uneasy news for America is that a second case exists at Hamburg. It was officially reported that a laborer in St. George's Hospital where the Russian emigrant died, has cholera, but it is added that the seizure is of a milder form than the previous ones. Two of the other fresh cases are in east Prushas widened. The imperial health office, as shown by the statement made, is confident that it has the disease in hand. The most recently reported victims are among the Russian rivermen. in quarantine. Professor Adolph Kafa, Prof. Koch's successor as head of the Institute of Infectious Diseases, has gone to the infected district to direct the measures to confinet the disease.

how much you can bank on a woman's On Your Knees, Court Sald. Fourteen-year-old Joseph Porter of 65 Willow avenue, Hoboken, was arraigned before Recorder Stante recently for running away from home. "I just hopped a freight train to go up the road," he said. "I didn't know I had gone so far, and then I was

afraid to go home." His mother told the recorder that the boy had no reason to leave home. She said she took good care of him. "Get down on your knees," said the recorder to the runaway, "and don't you get up until your mother has forgiven you."

He was on his knees five minutes before his mother said the word. Then the recorder told him to go home and stay there .- New York Times.

OUST THE DEMON. A Tussle With Coffee. There is something fairly demonia-

cal in the way coffee sometimes wreaks its fiendish malice on those who use it. A lady writing from Calif. says: "My husband and I, both lovers of coffee, suffered for some time from a very annoying form of nervousness, accompanied by most frightful headaches. In my own case there was eventually developed some sort of affection of the nerves leading from the spine to the head.

straight, the tension of the nerves drew it to one side, causing me the most intense pain. We got no relief from medicine, and were puzzled as to what caused the trouble, till a friend suggested that possibly the coffee we drank had something to do with it, and advised that we quit it and try Postum Coffee. "We followed his advice, and from

"I was unable to hold my head up

the day that we began to use Postum we both began to improve, and in a very short time both of us were entirely relieved. The nerves became steady once more, the headaches ceased, the muscles in the back of my neck relaxed, my head straightened up and the dreadful pain that had so punished me while I used the old kind of coffee vanished.

"We have never resumed the use of the old coffee, but relish our Postum every day as well as we did the former beverage. And we are delighted to find that we can give it freely to our children also, something me never dared to do with the old kind of coffee." Name given by Postum Co., Batle Creek Mich.

Postum Coffee contains absolutely no drugs of any kind, but relieves the There's a reason.

favorite among hunters and other users of

CHESTER "NUBLACK" BLACK POWDER SHELLS The "Nublack" is a grand good shell. It is good in construction, primed with a quick and sure primer, and carefully loaded with the best brands of powder and shot. It is a

black powder shells on account of its uniform shooting, evenness of pattern and strength to withstand reloading. ALL DEALERS SELL THEM

Shakespeare and Hiawatha. An American schoolboy has written an essay on the "Merchant of Venice." full of original matter. This is his view of Portia: "Portia was a kind and true-hearted young lady; she was very good-natured, especially to some of her gentleman friends, when those young men was going to choose their coffins." But the gem of the article relates to Shakespeare himself. "The story was written by Shakespeare. who married Hiawatha. He was born in Venice, where he and the merchant shot arrows of the same fly when boys. It was here that he learned to season mercy with justice." Anne Hathaway turned into Hiawatha is a really interesting case of derangement.

HICKENS EARN MONEY If you give them help.

unless you understand them and know how to cater to their requirements, and dollars learning by experience, so you must buy the knowledge required by others. We offer this to you for only 25 cents. You want them to pay their own way even if you merely keep them as a diversion. In order to handle Fowls judiclously, you must know something about them. To meet this want we are selling a book giving the experience of a practical poultry raiser for (Only 25c.) twenty-five years. It was written by a man who put all his mind, and time, and money to making a success of Chicken raising—not as a pastime, but as a business—and if you will profit by his twenty-five years' work, you can save many Chicks annually, and make your Fowls earn dollars for you. The point is, that you must be sure to detect trouble in the Poulitry Yard as soon as it appears, and know how to remedy it. This book will Poulitry Yard as soon as it appears, and know how to remedy it. This book will earn dollars for you. The point is, that you must be sure to detect trouble in the Poultry Yard as soon as it appears, and know how to remedy it. This book will teach you. It tells how to detect and cure disease: to feed for eggs and also for fattening; which Fowls to save for breeding purposes; and everything, indeed, you should know on this subject to make it profitable. Bent postpaid for twenty-ave cents in stamps. BOOK PUBLISHING HOUSE, 134 Leonard St., New York City

DOUGLAS *3.50 & *3.00 SHOES I W. L. Douglas \$4.00 Cilt Edge Line

W.L.DOUGLAS MAKES AND SELLS MORE MEN'S \$3.50 SHOES THAN ANY OTHER MANUFACTURER. \$10,000 REWARD to anyone who can disprove this statement.

S10,000 Hewalt to anyone who can disprove this statement.

W. L. Douglas \$3.50 shoes have by their excellent style, easy fitting, and superior wearing qualities, achieved the largest sale of any \$3.50 shoe in the world. They are just as good as those that cost you \$5.00 to \$7.00—the only difference is the price. If I could take you into my factory at Brockton, Mass., the largest in the world under one roof making men's fine shoes, and show you the care with which every pair of Douglas shoes is made, you would realize why W. L. Douglas \$3.50 shoes are the best shoes produced in the world.

If I could show you the difference between the shoes made in my factory and those of other makes, you would understand why Douglas \$3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoe not the market to-day.

W. L. Douglas Strong Made Shoes for Men, \$2.50, \$2.00. Boys' School & Dress Shoes, \$2.50, \$2,\$1.75,\$1.80

CAUTION.—Insist upon having W. L. Douglas Strong Made Shoes can be greater in the shoes of the man should be approached to the man should be approached by the shoes of the market to-day.

CAUTION.—Insist upon having W.L.Doug-las shoes. Take no substitute. None genuine without his name and price stamped on bottom. WANTED. A shoe dealer in every town where W. L. Douglas Shoes are not sold. Full line of samples sent free for inspection upon request. Fast Color Eyelets used; they will not wear brassy. Write for Illustrated Catalog of Fall Styles. W. L. DOUGLAS, Brockton, Mass.

tf afflicted Thompson's Eye Water

because she has the qualities which inspire admiration, respect and love. There is a beauty in health which is more attractive to men than mere regularity of feature. The influence of women glorious in the possession of perfect physical health upon men and upon the civilization of the world could never be measured. Because of them men have attained the very heights of ambition: because of them even thrones have been established and de-What a disappointment, then, to see the fair young wife's beauty fading away before a year passes over her head! A sickly, halfdead-and-alive woman, especially when she is the mother of a family, is a damper to all joyous-ness in the home, and a drag upon her husband.
