

**Jets and Fishes.**  
Duty never brings danger without also bringing the Deliverer.  
Our greatest gratitude comes from our deepest disappointments.  
He cannot be truly brave who is not trying to be bravely true.  
The best way to work with a man is to pray with him.  
The glory of the choir may get in the way of the grace of Christ.  
Some preachers think that God has a preference for polysyllabic prayers.

### ARTIFICIAL SUNLIGHT

### ACETYLENE GAS

Acetylene Apparatus Mfg. Co.,  
157 Michigan Ave., Chicago

**PILOT Automatic Generators**  
can be installed at small cost in any home large or small, anywhere. Acetylene Gas is cheaper than kerosene, brighter than electricity, safer than either.  
Full particulars FREE for the asking.

**AGAINST THE STORM**  
THERE IS NO PROTECTION IN THE WORLD LIKE TOWER'S SLICKERS  
BY ALL THE BEST DEALERS  
A. J. TOWER CO. ESTABLISHED 1836  
NEW YORK, N. Y. TORONTO, CAN.

**Judge Ready with Compliments.**  
Judge Whitman is the only bachelor on the board of city magistrates in New York. He was called upon one forenoon to marry a couple from Philadelphia. The bride handed him a handsome rose from her bouquet and said: "I want you to take it home to your wife." "I shall be delighted to accept it," said his honor, "but can't I wear it myself? I have no wife."  
The bride looked at him with compassion. "That's too bad," she said, "and you so good-looking." Then she turned to him suddenly and said: "Won't you come over to Philadelphia and let me introduce you to my sister?" "If she looks like you," responded the judge with a bow, "I shall be tempted to take the next train."

**Heroic Remedy.**  
Some anonymous individual with no poetry in his soul has written to a New York paper complaining of a whip-poor-will that bothers him at night, and another anonymous individual who has in his soul no innate love of birds suggests:  
"If Pater Familias really desires to drive the whip-poor-will from the tree, the following is a recipe guaranteed to cause it to quit the place."  
"R. One dozen ruman candles. Dose: Three each evening on retiring (10-11 p. m.) repeated through the tree. This has been known to cure the most aggravating cases."

**Truth cannot be tyrannical. So. 30.**  
**GET POWER.**  
The Supply Comes From Food.  
If we get power from food, why not strive to get all the power we can. That is exactly possible by use of skillfully selected food that exactly fits the requirements of the body.  
Poor fuel makes a poor fire and a poor fire is not a good steam producer. "From not knowing how to select the right food to fit my needs I suffered grievously for a long time from stomach troubles," writes a lady from a little town in Missouri.  
"It seemed as if I would never be able to find out the sort of food that was best for me. Hardly anything that I could eat would stay on my stomach. Every attempt I made to eat heart-burn and filled my stomach with gas. I got thinner and thinner until I literally became a living skeleton, and in time was compelled to keep to my bed."  
"A few months ago I was persuaded to try Grape-Nuts food, and it had such good effect from the very beginning that I have kept up its use ever since. I was surprised at the ease with which I digested it. It proved to be just what I needed. All my unpleasant symptoms, the heart-burn, the inflated feeling which gave me so much pain disappeared. My weight gradually increased from 98 to 116 lbs., my figure rounded out, my strength came back, and I am now able to do my household work and enjoy it. The Grape-Nuts food did it!" Name given by Postum Co., Battle Creek, Mich.  
A ten days' trial will show you one some facts about food.  
"There's a reason!"

### SOUTH CAROLINA CROP BULLETIN

Weather Conditions Given Out by the Department Observer.

The South Carolina section of the climate and crop service of the Department of Agriculture issues the following official bulletin of weather and crop conditions for the past week:  
The mean temperature for the week ending Monday, September 18th, was slightly below normal, due to very cool weather early in the week and warm at its close. The extremes of temperature were a maximum of 96 degrees at Blackville on the 12th and a minimum of 57 degrees at Cheraw on the 15th. There was slightly less than the normal amount of bright sunshine over the southern and eastern counties and about normal amount in the central and western counties.

There were numerous showers over the eastern and southern counties and very little rain, in many places none, over the western ones. Excessive rainfall occurred in Florence and Darlington counties, in the latter there were 3 inches recorded in 24 hours. Lands were washed, streams flooded, and bridges carried away, and crops were seriously damaged on uplands as well as low lands. Generally the week's precipitation was needed and proved beneficial. Over the western and northern counties the ground is very dry and late crops are suffering for moisture. Streams and wells are becoming low, and it is too dry for fall plowing and for seeding oats.

Frequent showers interrupted farm work along the coast and to a lesser degree in a few interior southern counties, while the weather was favorable for continuous work over the greater portion of the State.

There was a slight deterioration in the condition of cotton due, mainly, to premature opening caused by rust and drought. On sandy lands the crop is nearly all open and most of it picked while over the State generally it is opening fast. Growth and fruitage have stopped, but this is immaterial as what fruitage would be taken on after this time would not mature. Caterpillars have appeared in Berkeley county on cotton, which is the only report of damage by insects this week.

Late corn is in need of rain. There is a slight deterioration of minor crops due to want of moisture. Over the western parts and a slight improvement in the eastern portions. Fall truck has improved, and recently planted seeds are germinating well. Rice harvest made good progress. Much hay and other forage was saved in prime condition.

**Says Hold Cotton.**  
Mr. E. D. Smith, State president of the Southern Cotton Association, has given out an interview in which he said:  
"I am just back from a trip in the eastern section of the State and I find that all of the cotton is practically open and in some sections gathered. The out turn is far below what was anticipated before picking began. There is no top crop at all, and the entire picking with the force of hands now available will, according to the statement of the best posted farmers, be completed entirely by the 15th of October."  
"The out turn of the lint from the seed is shorter than it has been in years."  
"I wish to call attention to the farmers of this State to the government report issued this week, in which it is said that there was a deterioration on sandy lands, but that the clay lands were green and growing. This will give some idea of the misleading statements that are sent in officially and unofficially to the trade, which help to depress the market temporarily."  
"I have traveled over the entire Piedmont section with the exception of some few patches too small to be worthy of note. There is a universally arrested development. The squares have been shed, the leaves are yellow, and the condition of the cotton generally is no better than that in the lower section of the sandy lands."  
"Reports are coming in that the farmers are selling their cotton regardless of the price, which is also untrue. I am in a position to give a better estimate of the South Carolina crop, I presume, than any other man. I hope that I am honest enough and fair minded enough and truthful enough not to attempt to deceive myself or those who have placed confidence in me, or trade at large; and I unhesitatingly say that from the present indications, this is the smallest crop that has been made on the same acreage in four or five years. The final out turn will prove what I say."

**Holding Cotton in York.**  
Rock Hill, Special.—That the farmers in this section are determined to hold their cotton for the price fixed by the association seems to be very well understood as for about the first time in the history of the town, wagons loaded with cotton have been taken home again because the price offered was too small. It is understood that this has been done in several cases recently since cotton went down.

**State News Notes.**  
A special from Honea Path to Monday's Columbia State says: About three miles below here in Abbeville county Sunday afternoon just before sunset Sam and Jim Moore, two white men, got into a difficulty with Allen Pendleton and another negro. A fight followed in which Jim Moore was cut and killed by Pendleton. Pendleton escaped and was captured by a crowd about half a mile below here. He was carried back to the scene of the killing and shot by about a dozen men.

**Another Woman Murdered.**  
New York, Special.—In the discovery of the body of a woman huddled underneath the rear stoop of a big tenement at 240 West Thirty-second street Monday, the police believe they had evidence of another murder. The victim, whose name was unknown, was about 30 years old and evidently in poor circumstances. The clothing was disarranged, her face bruised and there were marks of violence about the throat, which aroused the suspicions of the police.

### PROMINENT PEOPLE

The German Emperor wrote 7000 letters last year.  
Thomas A. Edison is said to contemplate an extended tour of Europe.  
Major Robert H. Montgomery, U. S. A. (retired), died a few days ago at his home in Washington from Bright's disease.  
Grand Duke Constantine of Russia is said to be the most cultured Russian now living. He has translated Shakespeare into his native tongue.  
James J. Hill, the railroad magnate, celebrated his sixty-seventh birthday on September 16 at a banquet given by Minneapolis business men.  
Harry K. Devereux, of Cleveland, is the only living model of the three who posed for the famous painting, "Yankee Doodle," portrayed by Willard.  
Justin McCarthy says that his three objects in life have been attained. They were: To write books, to be a member of Parliament and to live in London.

Frederick Theodore Camp, the architect who designed the Ocean Grove Auditorium, died recently at his home in Bloomfield, N. J., of cirrhosis of the liver. He was fifty-six years old.  
John Grant Lawson, Chairman of committees and Deputy Speaker of the British House of Commons, on his mother's side is the grandson of the original of one of Dickens' "Cheeryble Brothers."  
If Lord Templemore, who lately celebrated his eighty-fourth birthday, is not the oldest peer he is without doubt "father" of the House of Lords, of which he has been a member for sixty-three years.  
Professor Theodore A. Schurr, who has just died in Baltimore, was a pioneer in the crusade against killing birds for adornment. He had a collection of birds and butterflies representing 50,000 specimens, valued at about \$100,000.

**Mexican War Pensioners.**  
Tarboro, Special.—Mrs. Susan Williams, aged 75 years, a pensioner of the Mexican war, was struck by the engine of a freight train from Rocky Mount, and instantly killed at Medora, three miles north of South Rocky Mount, on the Atlantic Coast Line railroad Thursday morning. The unfortunate woman attempted to cross the track in front of the moving train in an effort to save the life of a pet dog, without apparent cognizance of the jeopardy in which she placed her own self. The deceased was a widow of John Williams, who served in the Coast Line as a section master for a number of years.

The mountains of the moon are higher than those of the earth.

**More Delay in Gaynor-Green Case.**  
Montreal, Quebec, Special.—Decision in the habeas corpus proceedings instituted to secure the release of Gaynor and Greene, the contractors charged with defrauding the United States government, was not handed down, as has been expected. It was announced that Judge Oumet probably will hand down his finding in the case on Thursday.

**HER THOUGHTLESS MOTHER.**  
"Jane says she'll never forgive her mother for marrying again."  
"And why not?"  
"Because her stepfather can't help giving her away. Everybody knows he isn't as old as she is."—Cleveland Plain Dealer.

### THE LABOR WORLD.

Two thousand persons were killed and wounded by troops during the strike riot at Lodz, Poland.  
The Association of Officers of the Bureau of Labor Statistics opened its annual convention at San Francisco.  
The Grand Jury of Chicago, Ill., will be asked to make another investigation into labor conditions in that city.  
By the efforts of the Victorian Jewelers' Society a union of the trade has been formed in Sydney, New South Wales.  
For fifty years the average yearly earnings of the American farm hand have been the lowest in the entire nation wage scale.  
More than 3000 mechanics, members of the Carpenters' Unions, recently affiliated with the Allied Building Trades Council of Philadelphia, Pa.  
It is estimated that Canada has an aggregate union membership of 130,000, or 150,000 in the 1300 local unions affiliated with eighty international unions.  
The 800 employees of Cox Brothers & Co., at the Onondaga (Pa.) colliery, were suspended for two days because it is alleged they quit work to hear President Mitchell.

President Baer, of the Reading Railroad Company, announces his belief that the mine owners will reach a new agreement with their employes, thus averting a strike.  
Labor-saving machinery, according to Chief Delaney, of the Pennsylvania Department of Factory Inspection, is responsible for the large number of children employed in industrial establishments.  
A new wage scale making an advance of \$2.50 a week, about nine and one-half per cent, for skilled labor has been laid out by the Wage Committee and Executive Board of the Amalgamated Window Glass Workers of America.

**More Delay in Gaynor-Green Case.**  
Montreal, Quebec, Special.—Decision in the habeas corpus proceedings instituted to secure the release of Gaynor and Greene, the contractors charged with defrauding the United States government, was not handed down, as has been expected. It was announced that Judge Oumet probably will hand down his finding in the case on Thursday.

**HER THOUGHTLESS MOTHER.**  
"Jane says she'll never forgive her mother for marrying again."  
"And why not?"  
"Because her stepfather can't help giving her away. Everybody knows he isn't as old as she is."—Cleveland Plain Dealer.

### TEXTILE NEWS OF INTEREST

**Notes of Southern Cotton Mills and Other Manufacturing Enterprises.**  
**MAXTON, N. C.**  
The Observer's correspondent learns from a very reliable source of an out-of-town capitalist who is very much interested in building a large cotton mill at this place, if a good site can be had and some stock taken by Maxton people. This we are confident can be arranged, as there are several land owners who have offered sites for this purpose, gratis, and this means a mill in the near future. One of the locations mentioned above is adjacent to the Seaboard and Atlantic Coast Line tracks, which would make shipping easy over either line. We hope to report something definite on this soon.

**NASHVILLE, TENN.**  
Joe B. Morgan and his associates have obtained a charter of incorporation for the Vario Cotton Mills, with capital stock of \$200,000. This company will take up its proposition for purchasing and modernizing the Nashville Manufacturing Company plant, which it has bought under certain conditions pertaining to the present lease. The general plan is to have an equipment of 10,000 spindles and 300 looms. The company was incorporated by Mr. Morgan, Joseph H. Thompson, William Nelson, Edwin Warner and M. J. Smith.

**FAYETTEVILLE, TENN.**  
The Elk Cotton Mills, are understood to have planned the erection of a dam to develop power which will be converted into electricity and furnished to operate a \$90,000 cotton factory which the company intends adding to its present plant.

**CHARLOTTE, N. C.**  
A charter has quite recently been obtained for another cotton mill here with a capital of \$300,000. The incorporators are Messrs. E. A. Smith and A. H. Washburn, of this city, and T. G. Cox, of Taunton, Mass.

**HOUSTON, TEX.**  
Inquiries have been received from parties connected with two cotton mills that are desirous of locating here, provided the proper encouragement is received. One company is anxious to erect a \$250,000 mill if \$150,000 is invested by local capital, and the other is a \$100,000 concern, with \$25,000 capital, anxious to receive assistance from local capital. An investigation of the propositions is being made, as it is admitted that Houston needs a large cotton mill.

**GASTONIA, N. C.**  
The new Monroe Mill, is now completely ready for operation. The appearance is so attractive that it has added considerably to the attractiveness of the other two mills—Modena Nos. 1 and 2—though the best street on the hill had to be crossed by the building. The windows and the roof are now completed and there remains nothing to be done but to put in the machinery. This is being brought in now and will soon be installed. The mill will be ready for operation by the time its promoters had planned for it to begin.

**SPRAY, N. C.**  
It is announced that the American Thread Company will be organized for the purpose of establishing a mill for the manufacture of fine cotton and woolen yarns. An equipment of the latest improved mule spindles will be installed. B. Frank Mebane and his associates in the cotton mills of Spray are interested in the new enterprise.

**Textile Notes.**  
The Colleton Cotton Mills, at Walterboro, S. C., were sold at auction in that city recently under order of the United States District Court, for \$53,050. John F. Lucas, president of the Colleton Banking Company, is the purchaser. The highest price was \$54,500 by the court. There were two other bids.

**The Monroe (N. C.) Cotton Mills** will add looms and discontinue making yarns. It is hoped to have the changed condition in operation by February 15th.

The Eastman, Ga., Cotton Mills have recently been enlarged, and will be given every advantage possible. On October 1 they will open up under reorganization, and their domestic and export facilities will be augmented because of the fact that they have confidence in the approaching price of cotton.

The Brenham, Texas, Cotton Mill is being enlarged to the extent of one-third more than its former capacity.

A prominent capitalist and cotton mill man from a neighboring town was in Statesville recently looking over the field with a view to investing in a new cotton mill, with \$100,000 capital, that will, in all probability, be organized there soon.

The Hatton Shoals Power Company has been organized at Anderson, S. C., with a capital stock of \$150,000. It will provide electric power from its plant on the Tugaloo river, 16 miles from Anderson, for a number of cotton manufacturing plants in the vicinity.

**For Motor Car Line.**  
Newport News, Va., Special.—A corporation has been formed under the name of the Virginia Peninsula Railway, with \$300,000 capital, to build a railway from this city to Yorktown, with a branch line to Poquoson. It is intended later to extend the line from York to Hampton, Poquoson and Old Point Comfort. Gasoline motor cars will be used. W. A. Post is president.

### LIGHTING LORE

**ACETYLENE EXCELS AS AN ILLUMINANT.**  
**Gas For Lighting Formerly Confined to Cities and Large Towns, Now in General Use in the Country.**  
The satisfactory lighting of suburban and country homes requires that the means used shall be convenient, safe, economical and furnish a brilliant, penetrating, efficient light.  
Everybody admits that these are not the characteristics of the candle or kerosene lamp, which, formerly, were the only feasible means of producing light for domestic use in the rural districts.  
For generations there was a crying need, a yearning for something better, which was not satisfied. A few years ago delirance came in the shape of the chemical compound, Calcium Carbide, from which, by the simple application of water, the gas Acetylene is derived. Acetylene meets all the requirements fully and admirably and is being generally used.  
Common lime and carbon in the form of coke or coal are the raw materials which, fused in an intensely heated furnace, make Calcium Carbide, and there is no difficulty in obtaining it in any part of the country.  
The machine into which the Calcium Carbide is fed and from which the Acetylene is distributed through the building to be lighted, is but little larger than a thirty-gallon milk can, and of the same general form. It is easily and cheaply installed, either in the cellar or in an outbuilding.  
The light from burning Acetylene is exquisite, and lighting experts agree that it surpasses all other known illuminants. It does not faint the air nor strain the eyes, and is not objectionable in any respect. Every up-to-date rural residence should be equipped with Acetylene lighting.

**Does It Pay?**  
The nervous man had just met his friend, who for some months past had been in retirement for his health.  
"I have sometimes thought it might be a good thing for a man to go away for awhile," he said, "and to get cured perhaps of habits that were gaining a hold on him. I changed my opinion on the second part of that proposition, however, after I had an evening with a friend of mine who had just come back from a course of treatment."  
"We were together in a cafe for an hour or more. During all that time he would, of course, not take a drink. Such a thing never occurred to him. But he would take some coffee. I think I had two highballs while we talked. I know he had seven pots of black coffee. There didn't seem to be much doubt that he had gotten over his habit. He had acquired another habit, however, that made it seem a stand-off whether he had gained by the change."

**Mothers Are Helped**  
**THEIR HEALTH RESTORED**  
Happiness of Thousands of Homes Due to Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's Advice.  
A devoted mother seems to listen to every call of duty excepting the supreme one that tells her to guard her health, and before she realizes it some disarrangement of the female organs has manifested itself, and nervousness and irritability take the place of happiness and amiability.

**WAL-LU-LAH.**  
For the paleface soul the westland in its grandeur best her plain. Lived a dusky Indian prince Fair as fairest flower to see. By Columbia's thundering cascades, O'er the beautiful upland plain, Wandered the fair and fearless youth, Chasing'er some wild refrain.  
Dusky suitors thronged about her, Pleaded for Wal-lu-lah's hand, But she went her absent lover, Glad as ever was Mrs. Emma White, 64 Cherrier Place, Camden, N. J., April 25, '05.

**Grace cannot grow by greed.**  
**CRAB Orchard Water**  
Is a Certain Cure for  
**DYSPEPSIA, SICK HEADACHE, CONSTIPATION.**  
Stimulates the Liver, cures Bilioussness, Sour Stomach, Irregularities of the Bowels. A natural product, prepared by concentration; a genuine natural water.  
**CRAB ORCHARD WATER CO.,** Louisville, Ky.

**WANTED.**—Address of (1) persons of (2) part Indian blood who are (3) of men who were drafted in Kentucky, (4) of men who were drafted in Virginia, (5) of men who were drafted in the Federal army, or (6) the nearest kin of such persons. Write to: NATHAN RICKFORD, Attorney, Washington, D. C.

**E. C. ATHINS & CO., INC.**  
Largest Saw Manufacturers in the World. Factory and Executive Office, Indianapolis, Indiana. BRANCHES: New York, Canton, Minneapolis, Portland, Seattle, San Francisco, Philadelphia, Atlanta and Toronto, (Canada). Accepted by Subtitle—Insist on the Athins Brand. SOLD BY GOOD DEALERS EVERYWHERE.

**THE MAN BEHIND THE SAW**  
Has easy work in the Atkins. The best clean cutting edge and perfect taper of the blade make it the most working for dollars, and cutting 25 dollars in a week. No "humping" to do with the Perkins Hand Saw. But there are other men behind the saw, and the originator of the Atkins saw, the finest crumpled steel in the world, is the man. The discoverer of the Atkins secret tempering process was likewise a man of brains and genius.  
And there are high-class workmen behind the saw, and men of their own skill and pride of workmanship have helped to make the Atkins Trade Mark an assurance of quality as reliable as the Government assay stamp.  
We make all sizes and sizes of Saws, but only one grade—best. The Atkins Saw, with its Saws, Core Knives, Perfection Floor Scrapers, etc., are sold by all good hardware stores. Catalogue on request.

**Wanted.**—Address of (1) persons of (2) part Indian blood who are (3) of men who were drafted in Kentucky, (4) of men who were drafted in Virginia, (5) of men who were drafted in the Federal army, or (6) the nearest kin of such persons. Write to: NATHAN RICKFORD, Attorney, Washington, D. C.

### RECORDS OF THE PULSE RATE.

**Instrument Shows Heart's Action During Muscular Work.**  
A recent publication of the University of Michigan describes an instrument for securing a continuous graphic record of the pulse rate in man which affords valuable indications of the heart's work. The records showed that the commencement of muscular work is followed almost simultaneously by a marked acceleration of the pulse. In fact, this modification of the pulse rate is observed in the next heart cycle after the work begins. In typical cases there are three well-marked stages—a primary rise, a period of sustained acceleration and a secondary rise. Similar stages of decrease in rate occur after the work stops. The rapidity of the pulse during work depends not only upon the amount of work done, but much more upon the manner in which it is done. Speed and resistance are factors requiring separate consideration and of these two speed has the greater influence.

The records show that while muscular work may not appreciably force it immediately reacts upon the heart and that conversely cessation of muscular exertion is an immediate relief to the heart.

**View of Happiness.**  
I have been trying to figure out a general condition of happiness, and I reach the conclusion that it consists mainly in the ability to march with one's own generation, neither deploring the progress the generation makes nor grumbling because it doesn't make. I have seen Frank Putnam in the National Magazine. We can understand best the men and women of our own age, or near it. Dr. Osler spoke truth when he said that most men cease to be receptive to new ideas after 40; hence our elders in the 50s and 60s and 70s, say, who have already guided the affairs of the world during the decades immediately ahead of us will often seem to us to move less rapidly than we think they should, toward new industrial conditions. And the generation immediately behind us, using the ready-made ideas in their 20s, are putting more pressure upon us from the rear than we are able to believe is wholly justified.

**Does It Pay?**  
The nervous man had just met his friend, who for some months past had been in retirement for his health.  
"I have sometimes thought it might be a good thing for a man to go away for awhile," he said, "and to get cured perhaps of habits that were gaining a hold on him. I changed my opinion on the second part of that proposition, however, after I had an evening with a friend of mine who had just come back from a course of treatment."  
"We were together in a cafe for an hour or more. During all that time he would, of course, not take a drink. Such a thing never occurred to him. But he would take some coffee. I think I had two highballs while we talked. I know he had seven pots of black coffee. There didn't seem to be much doubt that he had gotten over his habit. He had acquired another habit, however, that made it seem a stand-off whether he had gained by the change."

**Mothers Are Helped**  
**THEIR HEALTH RESTORED**  
Happiness of Thousands of Homes Due to Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's Advice.  
A devoted mother seems to listen to every call of duty excepting the supreme one that tells her to guard her health, and before she realizes it some disarrangement of the female organs has manifested itself, and nervousness and irritability take the place of happiness and amiability.

**WAL-LU-LAH.**  
For the paleface soul the westland in its grandeur best her plain. Lived a dusky Indian prince Fair as fairest flower to see. By Columbia's thundering cascades, O'er the beautiful upland plain, Wandered the fair and fearless youth, Chasing'er some wild refrain.  
Dusky suitors thronged about her, Pleaded for Wal-lu-lah's hand, But she went her absent lover, Glad as ever was Mrs. Emma White, 64 Cherrier Place, Camden, N. J., April 25, '05.

**Grace cannot grow by greed.**

**CRAB ORCHARD WATER CO.,** Louisville, Ky.

**Wanted.**—Address of (1) persons of (2) part Indian blood who are (3) of men who were drafted in Kentucky, (4) of men who were drafted in Virginia, (5) of men who were drafted in the Federal army, or (6) the nearest kin of such persons. Write to: NATHAN RICKFORD, Attorney, Washington, D. C.

**THE MAN BEHIND THE SAW**  
Has easy work in the Atkins. The best clean cutting edge and perfect taper of the blade make it the most working for dollars, and cutting 25 dollars in a week. No "humping" to do with the Perkins Hand Saw. But there are other men behind the saw, and the originator of the Atkins saw, the finest crumpled steel in the world, is the man. The discoverer of the Atkins secret tempering process was likewise a man of brains and genius.  
And there are high-class workmen behind the saw, and men of their own skill and pride of workmanship have helped to make the Atkins Trade Mark an assurance of quality as reliable as the Government assay stamp.  
We make all sizes and sizes of Saws, but only one grade—best. The Atkins Saw, with its Saws, Core Knives, Perfection Floor Scrapers, etc., are sold by all good hardware stores. Catalogue on request.
