

How many wo men realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without

reason? If her system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life

At this time, also, cancers and tumors are more liable to begin their destructive work. Such warning symptoms as a sense of suffocation, hot flashes, dizziness, headache, dread of impending evil, sounds in the ears, timidity, pal-pitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude are promptly heeded by intelligent women who are approaching the

change may be expected.

Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period, and may be relied upon to overcome all distressing symptoms and carry them safely through to a healthy and happy old age. Lydia E. Pinkham's Vegetable Com-

pound invigorates and strengthens the female organism, and builds up the weakened nervous system as no other medicine can.

Mrs. A. E. G. Hyland, of Chestertown, Md., in a letter to Mrs. Pink-

ham, says:

"Dear Mrs. Pinkham:—
"I had been suffering with falling of the womb for years and was passing through the change of life. My womb was badly swollen. I-had a good deal of soreness, dizzy spells, headaches, and was very nervous. I wrote the state of the headaches, and was very nervous. I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me, and I have passed safely through the change of life a well woman."

For special advice regarding this im portant period women are invited to write to Mrs. Pinkham for advice. It is free and always helpful.

. Many a lawyer has discovered that a wife's word is law.

IDEA CAME FROM SHEFFIELD. First Commercial Traveler Sent From

That City. It has generally been supposed that

the commercial traveler is a product of our own busy day, but as early as 1757 a Sheffield cutlery manufacturer conceived the idea of sending to the merchants that the English-made cutlery was superior to that of local manufacturers, and so marked was his success that it was not long before the same idea was put into practie in other lines. As early as 1765 the term "bagman"

had become common, the word being defined in Murray's Dictionary of that year, the example being quoted from Goldsmith. The title "commercial traveler" is

the only modern part of the idea, the of a fine new town at Duke, ancient bagman lasting until the improvements in travel caused the term to become obsolete. In earlier years the salesman trav-

eled with his samples in a bag strapped to his horse's back and moved from place to place, and it was not until the passing of the stage coach days that the sample trunk became the feature of the traveler's out-

COONS CAUSE MUCH TROUBLE.

Uncle Sam Raises Game Fowls and the Animals Eat Them Un The Feredal government and the

State of Louisana will probably have to abandon their plan to use Breton island, on the coast, as a preserve for the propogation of prairie hens and other fowls, owing to the immense numbers of raccoons that have pre-Although the island is a small one.

it is said by the game wardens that within its few square miles there must be 5,000 to 10,000 coons.

About 15,000 prairie hens were hatched this year, and as soon as they became of an eatable size they were devoured by the coons. The same has happened to other varieties of game fowl which the government endeavpred to propagate on the island. The Breton islands are some dis-

tance from the mainland a d difficult of access.. It was for this reason that they were selected as a preserve. But the 'coons have spoiled all the plans.

A force of trappers and hunters is to be sent to the island after the 'coons, but so great is their number that it is feared they cannot be exterminated .-New York Herald.

Linking of Coincidences. Fire broke out on the roof of F. E. Young's blacksmith shop at Enosburgh Falls, Vt., on July 25. Exactly three years previous to a day a fire broke cut on the same roof in the same spot and, stranger yet, the same customer, Edward Brady, was having his horse shod at the time.

COFFEE NEURALGIA Leaves When You Quit and Use Postum.

A lady who unconsciously drifted

into nervous prostration brought on by coffee, says: "I have been a coffee drinker all my life, and used it regularly, three times

"A year or two ago I became subject to nervous neuralgia, attacks of ner- equipments for the purposes named. yous headache and general nervous prostration which not only incapacitated me for doing my housework, but frequently made it necessary for me to remain in a dark room for two or three

days at a time. "I employed several good doctors, one after the other, but none of them was able to give me permanent relief.

"Eight months ago a friend suggested that perhaps coffee was the cause of my troubles and that I try Postum Food Coffee and give up the old kird. I am glad I took her advice, for my health has been entirely restored. I have no more neuralgia, nor have I had one solitary headache in all tuese eight months. No more of my days are wasted in solitary confinement in a dark room. I do all my own work with ease. The flesh that I lost during the years of my nervous prostration has come back to me during these months, and I am once more a happy, healthy woman. I enclose a list of names of of the statement." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Ten days' trial leaving off coffee and using Postum is sufficient. All grocers.

THE CHANGE OF LIFE [EXTILE NEWS OF INTEREST

Notes of Southern Cotton Mills and Other Manufacturing Enterprises.

Ware Shoals, S. C .- Another big Southern mill, the Ware Shoals Manufacturing company, is nearing completion. Its buildings are now completed, the machinery has been ordered and is being received at the plant for installation. This latter work is expected to be completed by November 20, and then the spindles and looms will begin to produce. The mill building is four stories high, 150 by 277 feet in size, and will have 25,000 spindles, together with 800 looms, from the Draper Company, of Hopedale, Mass. There wil then remain sufficient space in the building to double the spindles when the company desires to increase its equipment. The corporation owning this mill is capitalized at 500,000, and N. B. Dial, of Laurens, C., is its president.

Gaffney, S. C .- It is expected that the work of developing Gaston Shoals, a property on Broad river, about five miles from Gaffney, will be started at once. This property and other water privileges were acquired by the Gaffney Manufacturing Company some time ago, but were sold recently to a company that Mr. J. B. Cleveland, of Spartanburg, is said to be at the head of. This company had a corps of surveyors at work at the property last week and it is thought here that the work of developing will be begun in the near future. This property is considered very valuable and if properly developed it is thought that these falls will furnish water power sufficient for the manufacturing plants at Gaffney, Spartanburg, Cherokee Falls, Blacksburg, in South Carolina, and Shelby and other points in North Carolina.

Nashville, Tenn.-A meeting of the tockholders of the Warioto Cotton Mills, was held on September 30 to consider plans for that company's enterprise. Officers were elected as follows: President, W. R. Odell, of Concord, N. C.; vice-president, William Nelson; and secretary-treasurer, J. B. Morgan. Directors were chosen as follows: M. J. Smith, Edward Warner, Joseph H. Thompson, H. G. Lipseomb and A. H. Robinson, and the three officers named. This company will not be in a position to make its building ready nor to install machinery until next summer, as it has purchased the cotton mill property of he Tennessee Manufacturing Company, which is under lease for some months yet, as stated recently.

Durham, N. C .- The Durham and Southeastern Railway will soon be running trains from Durham to Apex, N. C., where this road will cross the Seaboard Air Line and connect with a road already running to a point on the Atlantic Coast Line a few miles north of Fayetteville. This road will be a great convenience to the Erwin Cotton Mill interests at Durham which have already established a large new mill and commenced the erection is on the line of this road only a short distance from its eastern terminus at Dunn, N. C. It is probable in fact that the Duke and Erwin interests have been the chief factors in the building of this road which will be of great benefit to a section of country heretofore seriously lacking in facilities for transportation of is pro-

Spartanburg, S. C .- The Sun Mills will beincorporated with an authorizof capital stock of \$500,000 to build and operate a cotton-rope and twine John B. Cleveland, John A. mill. Law, Walter S. Montgomery and A. W. Smith will be the directors and in charge of construction work and installation of machinery. Mr. Montcomery will be president.

with Del Rio people and Eastern capitalists for the erection of a large cotton mill at this place was closed on Neither of the attmepts was successthe 29th and Colonel S. G., Grimshaw, ful. representing the capitalists, left at once for Fall River, Mass., where he will make arrangements for work to begin on the building. The plant will cost \$150,000, and work is to begin within four weeks.

Muscagee.—The Commercial Club is negotiating with the representative of New York capitalists relative to the erection of a large textile mill, probably a cotton factory.

Marion, S. C .- It has been but a few months since the Marion Manufacturing Company began operations with its 5,000 spindles, but already it finds it necessary to add to that equipment. The company's directors met and ordered that 2,000 spindles be installed, and William Stackhouse president, left at once for the North to buy the new equipment.

Memphis, Tenn.-Makers of textile machinery are invited to correspond with the Shelby Cotton Products Co., relative to the purchase of machinery for manufacturing cotton yarns and blaching that product. The Shelby enterprise contemplates adding a yarn mill to its present plant to utilize the linters and waste cotton, and is prepared to receive information and estimates on the cost of the required

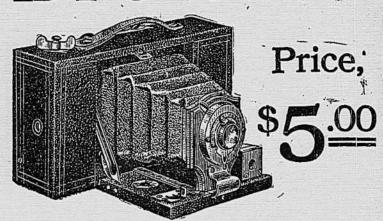

Lindale. Ga.—The Massarhusetts Mills whose plant is here will make a comprehensive exhibit at the Floyd County Fair, October 10 to 14. The dsiplay will include a Draper automatic loom in operation, and also the other details of manufacture from the raw cotton to the finished product. The Massachusetts Mills in Georgia have now in operation 514 of the Draper automatic looms.

Burglars who rifle safes should be shot-gunned.

TWO ATTEMPTS AT WRECKING

Train From Greenville Knocks Obstruction From the Track and the Next Train Finds it Replaced.

Columbia, Special.-Two dastardly attempts to wreck passanegr trains No. 12 and No. 15 on the Columbia San Hartonia, Texas.—The contract branch of the Southern were made Sunday morning by unknown persons about two miles north of Honea Path.

> Train No. 15 which leaves Columbia at 7 o'clock in the morning, struck a piece of iron known in railroad parance as a bumper knuckle, which had been placed on the rail, and knocked the iron from the track. No damage as done and the train proceeded to Belton, where trains 12 and 15 meet. The engineer of the train from Greenrille was told of what had happened and cautioned to look out for the obstruction. He acordingly slowed his train down when he approached the spot where the obstruction had been dashed aside by the first train and

e picked up and brought to Columbia. No one was seen in the vicinity by the crew of either train and so far as could be learned no clue has been Institute. found or no motive discovered that will lead to fixing the crime upon the guilty persons. It was stated by one who came to Columbia on the train that Capt. G. R. Willis who is the agent of the Southern at Williamston was at Honea Path and went, accompanied by several others to the place o search for evidence and if possible o locate the person who placed the ron on the track.

Columbia, Special.-Governor Heyvard has offered a reward of \$500 for the arrest of the parties who waylaid and killed R. A. McDowell on the streets of Camden last Wednesday night, and at the same time inflicted langerous wounds upon J. W. Porter

Rewards Offered by Governor.

in the attempt to take his life. A reward of the same amount had been offered by the city council of Camlen. Governor Heyward received an ppeal from Sheriff Trantham and his was endorsed by a number of the nost prominent and most reliable business men of Camden, among them Mayor H. G. Carison, Capt. W. M. Shannon, Mr. B. B. Clarke, Mr. C. C. Moore, Col. T. J. Kirkland, Mr. W. R. Hough, Dr. A. W. Burnet, Mr. E. D. Blakeney, Capt. E. C. von Tresckow, Mr. L. T. Mills, Mr. Joel Hough, Col. W .D. Trantham, Capt. M. L. Smith, Capt. A. D. Kennedy, and Senator J.

A reward of \$100 was offered for the arrest of Dave Bush, a negro charged with assault with intent to tape and 8 inches in height, weighs 175 ponds;

A Prolific Family. The Greenville News says: "W. A.

Curry is the proud grandfather of three sets of twins and all born within the present year. There is no danger of race suicide in the vicinity of Simpsonville at least and President Roosevelt ought to be informed of the occurrence, and perhaps Andrew Carregie might contribute a hero medal. The eldest set of twins were born five months ago. They are boys, the little sons of Mr. and Mrs. Arlington Curry. Two months later Mr. and Mrs. William Curry becames the parents of wo little girls, and three days ago Mrs. Brazier, a sister of Arlington and William Curry, became the mother of the third set of twins in the family, one a boy and the other a girl. The children are lusty and bid fair to develop into sturdy manhood and wo-

HAD GOOD BAG OF SNAKES. Colorado Schoolma'am Is Sure Death

to Reptiles. Mrs. Emma Herey Meyer felt a glow of pride as she gazed-at a respectful distance-at the trophies of the chase brought to her office by her pupil Miss Rachel Hitchman, schoolma'am at Hale, Republican, river, Kit Carson county, Colo.

The package, unrolled, showed five skins of snakes killed by Miss Hitch.

Miss Hitchman killed a big rattler that appeared among her pupils one day and threatened damage. She took a club. The snakes were skinned by her, too, and she sought Mrs. Meyer to accept one of the biggest to be made into a belt.

Miss Hitchman is a city-bred girl and a year ago appealed to Mrs. Meyer to get her a position as teacher away out on the prairie. This was done. After nine months' experience she returns to Denver delighted with her adventures. Her education included snake killing and snake skinning, lariat throwing and riding a la cowboy. -Denver Republican.

Long Distance Courtships. Sketching one day in Burma, an English artist noticed a man a little distance off glaring straight ahead of him at some object he could not see from his position. The man sat with the same fixed glare the whole afternoon and was at it again next morning. The artist had the curiosity to ask an English visitor what it meant. The reply was: "Oh, he is in love!" And it was explained that this was their method of courtship. The object of the man's attentive gaze was a girl in a neighboring bazaar. When a young man falls in love, he has to seat himself at a certain distance from his adored one and wait for her to do the rest. If she looks in his direction once or twice on the first or second day, he is wildly encouraged, and if on the third day she nod to him and smiles it is time to go to the parents with reference to the marriage settle

When the Bomb Burst.

The Sultan-"And how did it happen, vizier, that you failed to interpose your wordthless body between your sovereign and the bomb?" The Vizier-"Pardon me, your high-

ness, it was all over so quickly that there was no time to make a move." The Sultan-"A wise servant anticipates the danger of his master."

The Vizier-"Had I anticipated the danger, your highness, I would have prevented the throwing of the deadly missile."

The Sultan-"Then you are not good at anticipation?" The Vizier-"No, your highness."

The Sultan, smiling-"In that case you have not anticipated the fact that I am about to fine you twenty purses of 100 sequins each, and in addition to present you with thirty lashes across the soles of your unanticipative feet." -Cleveland Plain Dealer.

Chinese Burial Customs When a rich and important China-Man dies, his funeral is conducted with much pomp and splendor. His friends and relations, instead of sending wreaths, send innumerable banners. These are made of white silk. with inscriptions beautifully worked in black velvet, and express the senders' good wishes to the deceased himself or to the members of his family for many generations. On the day of the funeral these banners are carried by hired men who are all dressed alike for the occasion. After the funeral, which lasts several hours at the cemetery, is over, the banners are all brought back, and eventually grace the rooms of the late Chinaman's

Little Girls as Stowaways. Three little girls have the town or Millinocket Me, a good scare last week. They disappeared mysteriously and search failed to reveal their whereabouts until some hours later when they were found in the town or Sherman, twelve miles away. They had played stowaway on a train in or der to get there.

To make Cheap Gas-light for Country Homes

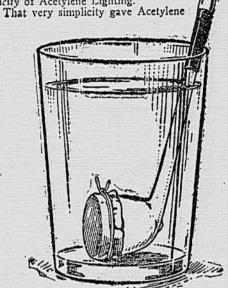

AKE a common Clay Pine. Put a simple "Acetylene" Gasburner on its

Bind the two in position with a tight-fitting piece Then fill the bowl of the pipe with fine-ground Cal-

cium Carbide. Next tie a rag over head of the bowl to keep in the Now put the pipe into a Glass of Water, as in picture.

There you have a complete Gasplant for 25 cents. Touch a match to the Burner— and you'll get a beautiful White Gas-

Of course, this is only an experiment, but it shows the wonderful sim-plicity of Acetylene Lighting.

Light a setback, at first. It seemed so simple to turn Calcium Carbide info Gas-light that over 600 different kinds of "tanks" and "Acetylene Machines" were invented, patented, and marketed for the purpose, by about as many different

Well, the thing to be expected certainly happened! About 530 of these "Acetylene Machines" had been invented and sold by people who knew more about Tinware than they did about Gas-making.

The "Calcium Carbide" was all right all the time,

but 530 of the machines for turning it into Gas were all wrong all the time. So Acetylene Gas "got a bad name," though it is clear enough now that it never deserved it at any time.

It was like selling Wood Stoves to burn Hard Coal in, and then blaming the Coal for not burning.

Lots of things happened to grieve the Owners of these 530 makes of alleged "Acetylene Machines." But very few accidents occurred from them even in the days of rank experiment and dense ignorance, among, "Generator" Makers. Of course, a gun will go off unexpectedly, now and then, if the trigger be pulled by a person who "didn't know it was loaded."

But, that's no fault of the Ammunition-is it? Well, finally the Insurance Companies got after these 530 odd makes of "Acetylene Machines" that wouldn't Acetylate, and the Insurance Board made an investigation of all Generators that were submitted to Then, out of the 600 odd "Machines" patented, about 7 were "permitted" by the mistrance Roard

to be used. Oh, what a howl was there! By "permitted" I mean that the Insurance Board was willing that any building should be Insured, with-

out extra charge, which used any one of these 70 Acetylene Generators it had found safe, and effective, just as it permitted houses to be piped for City Gas, or wired for Electricity, under proper conditions.

whether or not these 70 different makes of Acetylene Generators were absolutely Safe to use.

Because, they have to pay the bills, if Fire or Explosion occurs, from any one of the Acetylene Generators there are the control of the Acetylene Generators there are the control of the Acetylene Generators are the control of

ators they authorize. And, here's a proof of their good judgment.

Though there are now Two Million people using Acetylene Light in America, there have only been four Fires from it in one year, against 8865 Fires from

Kerosene and Gasoline., There have also been 4691 Fires from Electricity, 1707 Fires from City Gas, and 520 Fires from Candles. Besides these there have been 26 Fires from the Sun's rays, But,—only four Fires from Acetylene.

That shows how careful the Insurance Board was in its examination of Acetylene Generators, and in "permitting" only the 70 makes that were above sus-picion, out of the 600 experiments that were once on

Well,—the boom in Acetylene Lighting made lower prices possible on the material it is derived from, viz., Calcium Carbide, a material that looks like Granite

but acts like Magic.

Today, Acetylene Light is a full third cheaper than
Kerosene Light, or Gasoline Light, per Candle Power.

It is not more than half the price of Electric Light, nor three-fourths that of City Gas.

If I can't prove these statements to your full satisfaction my name is not "Acetylene Jones." But Acetylene is more than the safest and cheapest

Light of the year 1905.

It is also the Whitest Light—the nearest to natural Sunlight in health-giving Blue and Violet rays, and because of this, with its freedom from flicker, it is the easiest of all Artificial Light on the Eyes.

It is so much like real Sunlight that it has made plants grow 24 hours per day in dark cellars where no

ray of Sunlight could reach them. It made them grow twice as fast as similar plants that had only the Sun-light of day-time, viz., half the time. That was proven by Cornell University in a threemonths' experiment made this very year.

Now, I've saved up for the last a point more important to you than all the others about Acetylene

It consumes only one-fourth as much of the vital Oxygen from the Air of Living rooms or bed-rooms, as either Kerosene or City Gas-Light consumes.
That's a tremendous difference in a lifetime, mark you-three-fourths of a difference.

Because,—Oxygen is Life.
And every bit of Oxygen stolen from the lungs of Women, Children and Men, through Lighting, is a loss that can never be made good again.

A 24 Candle-Power Acetylene Light costs you only two-fifths of a cent per hour.

That's about \$5.85 per year, if burned every night

in the year for four steady hours.

Sanitary, eye-saving Acetylene. Write me today for my Free Book about "Sunlight

Cures Belching of Gas-Bad Breath and Bad Stomach - Short Breath-Bloating-Sour Eructations Irregular Heart, Etc.

Take a Mull's Wafer any time of the day or night, and note the immediate good effect on your stomach. It absorbs the gas, disinfects the stomach, kills the poison germs and cures the disease. Catarrh of the head and throat, unwholesome food and overeating make bad stomachs. Scarcely any stomach is entirely free from taint of some kind. Mull's Anti-Belch Wafers will make your stomach healthy by absorbing foul gases which arise from the undigested food and by re-enforcing the lining of the stomach, enabling it to thoroughly mix the food with the gastric juices. This cures stomach trouble, promotes digestion, sweetens the breath, stops motes digestion, sweetens the breath, stops belching and fermentation. Heart action becomes strong and regular through this

Discard drugs, as you know from experi-ence they do not cure stomach trouble. Try a common-sense (Nature's) method that does cure. A soothing, healing sensation results instantly.

We know Mull's Anti-Belch Wafers will do this, and we want you to know it.

SPECIAL OFFER.—The regular price of

ANY OTHER MANUFACTURER.

\$10,000 REWARD to anyone who can dispreve this statement.

W. L. Douglas \$3.50 shoes have by their excellent style, easy fitting, and superior wearing qualities, achieved the largest sale of any \$3.50 shoes in the world. They are just as good as those that cost you \$5.00 to \$7.00— the only difference is the price. If I could take you into my factory at Brockton, Mass., the largest in the world under one roof making men's fine shoes, and show you the care with which every pair of Douglas \$60es is made, you would realize why W. L. Douglas \$3.50 shoes are the best shoes produced in the world.

If I could show you the difference between the shoes made in my factory and those of other makes, you would understand why Douglas \$3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoe on the market to-day.

W. L. Douglas Strong Made Shoes for Men. \$2.59, \$2.00. Boys' School & Dress Shoes, \$2.50, \$2,\$1.76,\$1.50

CAUTION.—Insist upon having W. L. Douglas shoes. Take no substitute. None genuine Just think of it! Nome, whose output of gold for the season of 1905 is estimated at \$10,000,000, was practi-Boston Transcript recalls. Its recent

CAUTION.—Insist upon having W.L.Dong-las shoes. Take no substitute. None genuine without his name and price stamped on bottom. WANTED. A shoe dealer in every town where W.L. Douglas Shoes are not sold. Full line of samples sent free for inspection upon request. Fast Color Eyelets used; they will not wear brassy. Write for Illustrated Catalog of Fall Styles. W. L. DOUGLAS, Brockton, Mass.

Best Cough Syrup, Tastes Good, Use in time, Sold by druggists.

A Kerosene Lamp of equal capacity would cost you a third more, viz.: three-fifths of a cent per hour for Kerosene alone, or \$8.75 per year.

That's exclusive of broken lamp chimneys, new wicks, and the everlasting drudgery and danger of cleaning, filling and trimming daily. I want to prove these figures to you, Reader, if you Tell me how many rooms you've got and I'll tell you what it will cost to light them with brilliant, beautiful,
