FIERCE ELECTION CONTEST

William Randolph Hearst Contests the New York Election, Charging Fraud By Wholesale.

New York, Special.-Immediately upon the announcement of the result of the election Tuesday, Mr. Hearst gave notice of contest, and evidences of fraud have accumulated rapidly ever since.

Atoorney General Mayer stated Thursday night that he had received information of the recovery from the North river of certain ballot boxes used in the election . He said the matter was under investigation.

The contest over the mayoralty election, inaugurated by William Randolph Hearst, the Municipal Owenership candidate, developed interesting and spectular features Thursday.

For twelve hours the boxes containing nearly 600,000 ballots cast in last Tuesday's election choked the streets in the vicinity of the headquarters of the board of electors in Sixth avenue between Forty-first and Forty-second streets. The ballot boxes had been gathered during the night by the police and conveyed in patrol wagons to the election board's headquarters. There the officials refused to receive the ballot boxes and the police, acting under a court order signed by Justice Gaynor, compelling the police authorities to turn the ballots over to the election board, had nothing to do but remain outside and await the pleasure of the election officials.

COMPELLED TO RECEIVE BOXES Appraised of the situation the attorneys of Mr. Hearst appeared bepreme Court, and secured from him an president of the board of electors, to véd promptly and the ballots then were receipted for by the election board. Under strong guards the patrol wagons containing the boxes were driven to various warehouses in this city and Brooklyn, where the ballots were stored subject to the orders of the election board.

State Attorney General Julius Mayer had a long and important conference with District Attorney Jerome, after which it was announced that the Attorney General's office would remain open until midnight. Superintendent of Elections Morgan appeared before Messrs. Mayer and Jerome with six of his deputies, and placed evi-

dence before the prosecuting officials. Another feature of the contest was the announcement by the Citizens' Union that it would join the forces investigating the charges of fraud and wrong doing at Tuesday's election, its prime object being to secure a new election law in the State of New

PRINTED BOGUS BALLOTS.

Justice G mor after the cir culation of a story that a printing firm had been turning out large numbeds of fac simples of the official balot and that these were to be marked for McClellan and placed in the ballot boxes in place of the Hearst balots to be removed. The moment this rumor reached Hearst headquarters it was decided that the ballot ought not to remain longer in the station houses, and the application of Justice Gaynor was made as quickly as the papers could be drawn up. It was reported that many of the

Wilkesbarre, Pa., Special.-Five persons were killed, 10 seriously injured and a score slightly hurt in a nead-on collision between a passenger train and a coal train on the Delaware, Luckawanna & Western railroad, near Huntlock's creek, a short distance fom this city. All of the killed were trainmen. The injuries to the passengers were caused by the terrific force of the trains coming together, the engine on the passenger train being forced almost through the baggage car. HIS EDITORIAL QUICKLY READY, New York Paper Tells Good Story on

Southern Journalist. certain editorial writer on the staff of a Southern newspaper was inclined to dilatoriness during certain periods of conviviality, and caused thereby much concern in the breast of the foreman of the composing room

just prior to the moment when the forms must go to press. But the writer was a part owner of the paper and could not well be discharged, since he occupied the position of managing editor. Many times the editorials were late and the paper delayed in going to press, but the delinquent writer always made good after a fashion. Finally he hit upon a scheme when he was called upon at the last moment for "copy" that may, in all justice to expediency, be called the art of gen-

The hour was very late and no leading editorial had gone to the composing room. In frantic haste the foreman sent for the editorial writer, and only after half an hour was he located -in a near-by saloon and much the worse for his dalliance there. He grasped the intelligence that he had forgotten his leading column, and made his way as fast as he could to his office. Snatching a piece of copy paper in one hand, he caught up a copy of the New York Times with the other, and from it clipped a leading editorial, which he pasted on the paper. Then he wrote:

"We cannot agree with the New York Times when it says:"

The editorial of the Times was copied, the paper went to press, and the editor back to the saloon.—New York

"In Paris," said a lady who had had the bitter experience of being knocked down by a cab and then brought to book for being in the way, "they run over you and make you pay for the privilege." Perhaps the old colored man was sufficiently traveled to fear a similar outcome.

There had been a railway collision near a country town and a shrewd lawyer had hurried to the scene of disaster. He noticed this old man with a badly fractured head and hurried up to him where he lay moaning on the ground. "How about damages?" he began.

But the sufferer waved him off. "G'way, boss, g'way," he said. "Ah neber hit de train. Ah nebber done such a 't'ing in all mah life! Yo' cyain't get no damages out ob me!"-

The values of their staple which the entire civilized world depends upon

for clothing is made a daily football to be kicked about at will in the speculative exchanges of the country. No. product from the soil is more useful to mankind, none receives harsher treatment at the hands of the buying and speculative world. The farmers of the South have solved the problem of its production through individual effort. They can likewise solve the problem of its marketing by full and systematic organization through the Southern Cotton Association. For the Association to be effective it must have the active support and co-operation of the growers in every cotton producing county. It has received the

mer's Organizations in the South. The specific object of the Association is to regulate the supply of raw cotton to meet the legitimate demands of consumption and maintain the price of the staple at profitable figures to the grower; to encourage proper facilities for handling the staple both as to finance and storage; to seek and open up wider markets for the consumption of our cotton; to bring about direct trade regulations with the spinners of the world; to furnish the growers correct information as to acreage in cotton each year, condition of plant during growing seasons, the yield of each crop and its distribution; the cost of handling, cost of manufacture, price of cotton goods and every phase and detail of the cotton industry. The association will advise each planter the mnimum value of his staple each year and advise and assist him in getting its true worth. The association will place all this information in the hands of its members so as to keep them posted as to an intelligent understanding of the value of the staple and the best ways and means to secure practical and profitable results. The past work of the association has proven already its
