CONSTABLES TO REMAIN

They Will Stay in Spartanburg and Greenville.

After careful consideration Gov. Heyward decided not to remove constabulary from Greenville and Spartanburg counties. He also decided to return the constables to Darlington county to assist the officials there in the enforcement of prohibition; the conditions there being such that he felt this action on his part fully warranted.

Governor Heyward further stated that he had found it necessary from past experience, where elections were held rotting out the dispensary to determine upon a fixed policy and not have the question arising in each case whether or not constables should be employed. The situation under these circumstances may appear not to have difficulties to those who are unfamiliar with all of its aspects but it certainly presents perplexing questions in each instance.

The governor referred to the statement, made by him some time ago, that he would give the counties an opportunity to enforce the law thru their local officials, as several counties had voted the dispensary out with this understanding. He feels that it was only just to them that the constables should not immediately be removed but he would await further reports and would not hesitate to take such action as he thought the situation demanded.

Governor Heyward feels that it is as necessary to employ constables in the enforcement of prohibition as under the dispensary law, and as the law places upon him this responsibility, he says he does not propose to shirk it.

New Enterprises.

The North Carolina Lead Company secured a commission from the Secretary of State. The company is capitalized at \$50,000 and the incorporators are: D. C. Heyward, F. H. Hyatt, Edward Ehrlich, Augustus Kohn and W. D. Melton. The company proposes developing the land recently purchased north of the city and a definite announcement as to its purposes will be made in a few days by the directors.

There were a number of other commissions and charters. The Smoothing from Heater Company of Sumter was chartered. The company will have a capital of \$25,000. E. L. Witherspoon is the president, C. M. Best is vice-president and J. B. Witherspoon secretary and treasurer.

The St. Matthews Telephone company was commissioned. The capital stock is \$2,500 and T. H. Dreher, G. A. Baxter and others are the petitioners.

The Piedmont Grocery Company of Spartanburg was commissioned. The capital is \$50,000 and G. W. Steplis, W. G. Leg and Brooks Rogers, all of Virginia, are the petitioners.

The Cold Point Granite Company of Laurens county, a quarry concern, was given a commission. This company will have a capital stock of \$30,000 and M. A. Carlisle, G. B. Bryant, S. B. Aull and others are the petitioners.

The Eddy Lake Cypress Company of Horry county increased its capital from \$20,000 to 300,000, a part of which goes for the construction of a local railroad for the carrying on of the lumber business.

Frozen Fingers in Summer.

One of the most peculiar cases that has ever come under the observation of a Denver physician came to the office of Dr. E. H. Martin recently.

Mrs. George Rold of Chicago was up on Rollins pass and departed in the snow until the train went to Arrowhead and turned on the "wy" and started back to Denver. It leaves the passenger two hours and forty minutes on the bleak top of the pass and all around is a wide expanse of snow.

The temptation to make balls of the summer snow to pet her companions was too great to be resisted, and Mrs. Rold enjoyed the novelty to the full. When she boarded the train for home she soon discovered her fingers were frostbitten. Arriving in Denver her hands were badly swollen and she was driven at once to the office of Dr. Martin.

The fingers of the hands were swollen and the flesh had turned blue. The pain was very severe, and it will be a week, the doctor says, before Mrs. Rold can use her hands.—Denver Post.

JOYS OF MATERNITY

A WOMAN'S BEST HOPES REALIZED
Mrs. Potts Tells How Woman Should Prepare for Motherhood

The dearest days of husband and wife are when they come to look forward to childless and lonely old age.
Many a wife has found herself incapable of motherhood owing to a displacement of the womb or lack of strength in the generative organs.

Frequent backache and distressing pains, accompanied by offensive discharges and generally by irregular and scanty menstruation indicate a displacement or nerve degeneration of the womb and surrounding organs.

The question that troubles women is how can a woman who has some female trouble bear healthy children?

Mrs. Anna Potts, of 510 Park Avenue, Hot Springs, Ark., writes:
"My dear Mrs. Pinkham—
"During the early part of my married life I was delicate in health, both my husband and I were very anxious for a child to bless our home, but I had two miscarriages, and could not carry a child to maturity. A neighbor who had been cured by Lydia E. Pinkham's Vegetable Compound advised me to try it. I did so and soon felt that I was growing stronger, my bowels cleared, my stomach cleared, and I was enjoying life. I had no more bearing-down pains, and felt like a new woman. Within a year I became the mother of a strong, healthy child, the joy of our home. Lydia E. Pinkham's Vegetable Compound is certainly a splendid remedy, and I wish every woman who wants to become a mother would try it."

Actual sterility in woman is very rare. If any woman thinks she is sterile, let her try Lydia E. Pinkham's Vegetable Compound and write to Mrs. Pinkham, Lynn, Mass. Her advice is free to expectant or would-be mothers.

A FEW CUTTING REMARKS

The purpose of a saw is to cut. It should be used easily, and out with every movement.
I prefer an Atkins Saw. Its blade is "live steel." It recognizes the world over as the finest cuttable steel made in ancient or modern times. It is hard, close-grained and tough. It holds a sharp cutting edge longer than any other saw. Its blades taper perfectly from thick to thin, and it is free from any kind of set, and makes easy work for itself. It runs easily and does not buckle. Its temper is perfect. When bent by a crossed thrust, it springs into shape without kinking.
The Atkins Saw cuts—add does it best and most easily. It cuts through Iron, Steel, Brass, Copper, Lead, Perfection Floor Scrapers, etc., are sold by all good hardware dealers. Catalogue on request.

CONQUEST OF THE INSURGENTS
Desperate Struggle Between Mutinous Sailors and the Loyal Troops at Russia's Black Sea Stronghold

St. Petersburg, By Cable.—Sevastopol was the scene of a desperate battle between the mutinous sailors and the troops in the forts on shore.
During the battle the town and the forts were bombarded by the guns of the cruiser Otchakoff, which now lies a burning wreck off Admiralty Point its hull riddled with shells and its flagging red ensign of revolution hauled down.
Many of the crew of the Otchakoff were killed or wounded. According to one report the barracks of the mutineers was carried by storm after the mutinous fleet, which is said to have numbered ten vessels, had surrendered, and the whole position is now in the hands of the troops under the command of General Nephew, unable to guarantee the correctness of this report.
The commander of the Otchakoff, Lieutenant Schmid, immediately accepted the challenge, replying with both batteries, one trained on the town and the other on the Fort Alexander batteries, on the north shore.
Captain Ziolti, aide de camp to Admiral Wirems, chief of the naval general staff, informed the Associated Press that the latest dispatches received from Sevastopol showed that the Otchakoff was on fire and badly damaged, with its revolutionary colors hauled down, but he was unable to give more definite information.
According to a more detailed report from another source and purporting to come from the Admiralty, the battle began at 3 o'clock, when Lieutenant Schmid, not receiving a reply to the demands of the mutineers, opened fire from a fleet of ten ships, to which the northern batteries at Fort Alexander, artillery posted on the shore and several vessels which remained loyal replied.
During the naval battle the sailors on the shore, entrenched in the barracks, defended their position with machine guns and rifles against the attacking infantry. After an engagement lasting two and a half hours, with the Otchakoff riddled and on fire and the cruiser Duiper and another vessel sunk, Lieutenant Schmid who had been badly wounded, surrendered the entire squadron. The mutinous sailors on shore surrendered to the Brest and Bielstok Regiments.

Two Men in Bath of Molasses.
While emptying a barrel of molasses into a big molasses tank in Hoboken, N. J., the other evening, John Hill lost his balance and fell into four feet of the sticky stuff. The barrel followed and struck him on the head, dazing him. Owen Farley, a fellow workman, jumped into the molasses up to his armpits and held Hill's head above the surface until help came. Then he tied a rope around Hill's waist and the latter was hauled out. Hill's scalp was cut by the falling barrel, and seven stitches were taken in the wound. It took several hours to clean up the men after the molasses bath.

JAT THAT IS FOND OF HUNTING.
Massachusetts Animal Adept at Retrieving Game.
The firemen at the East street engine house have a black cat which is remarkable for several things. It possesses six toes on each foot, and during the past year it has had about two score and ten kittens which have all had the same number of digits.
The cat also has become a follower of the hunting game in more ways than the average feline has aspired to. It has an excellent record for hunting rats and mice that can be found about the premises, but it is also a hunter of the fashions of dogs, and frequently takes its trips into the neighboring places for hunting birds, and wherever he goes the cat is sure to be with him. Whenever he brings down any game the cat is there to claim the quarry.
It is said that the animal will follow the person in question for miles in order to get the game, and it cannot be deceived, for as soon as one of the firemen in the house starts out with a gun the cat is always a faithful follower. Yesterday one of these trips was taken with some success, and the cat seemed as pleased at the results as was the hunter.—Springfield (Mass.) Republican.

THE "COFFEE HEART."
It is as Dangerous as the Tobacco or Whiskey Heart.
"Coffee heart" is common to many coffee users and is liable to send the owner to his or her long home if the drug is persisted in. You can run thirty or forty years and find out if your heart is troubled. A lady who was once a victim of the "coffee heart" writes from Oregon:
"I have been a habitual user of coffee all my life and have suffered very much in recent years from ailments which I became satisfied were directly due to the poison in the beverage, such as torpid liver and indigestion, which in turn made my complexion blotchy and muddy.
"Then my heart became affected. It would beat most rapidly just after I drank my coffee, and go below normal as the coffee effect wore off. Sometimes my pulse would go as high as 137 beats to the minute. My family were greatly alarmed at my condition, and at last mother persuaded me to begin the use of Postum Food Coffee.
"I gave up the old coffee entirely and absolutely, and made Postum my sole table beverage. This was six months ago, and all my ill, the indigestion, inactive liver and rickety heart action has passed away, and my complexion has become clear and natural. The improvement set in very soon after I made the change, just as soon as the coffee poison had time to work out of my system.
"My husband has also been greatly benefited by the use of Postum, and we find that a simple breakfast with Postum is as satisfying and more strengthening than the old heavier meal we used to have with the other kind of coffee." Name given by Foster, Dr. Battle, Creek, Mich.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Halls' Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 3 to 5 drops to a teaspoonful.
