

KIDNEY TROUBLE

Suffered Two Years—Relieved in Three Months.

MR. C. B. FIZER, Mt. Sterling, Ky., writes:

"I have suffered with kidney and bladder trouble for ten years past. Last March I commenced using Peruna and continued for three months. I have not used it since, nor have I felt a pain."

"I believe that I am well and I therefore give my highest commendation to the curative powers of Peruna."

Peruna For Kidney Trouble.

Cas. Geo. H. Simser, Grant, Ontario, Can., writes:

"I had not been well for about four years. I had kidney trouble, and, in fact, felt badly nearly all the time."

"This summer I got so very bad I thought I would try Peruna, so I wrote to you and began at once to take Peruna and Mannin."

"I took only two bottles of Peruna and one of Mannin, and now I feel better than I have for some time."

"I feel that Peruna and Mannin cured me and made a different woman of me altogether. I bless the day I started on the little book and read of your Peruna."

"It is the business of the kidneys to remove from the blood all poisonous materials. They must be active all the time, else the system suffers. There are times when they need a little assistance."

Peruna is exactly the sort of a remedy. It has saved many people from disaster by rendering the kidneys service at a time when they were not able to bear their own burdens."

FRISCO DOG MADE GOOD.

Swam Bay After Ferryboat That Carried Beloved Little Mistress.

After being fed and warmly clothed here, five refugees from San Francisco were placed on a train and sent on to their former home in a little town on Long Island, writes the Chicago correspondent of the New York Press.

Along with the poor little party, which consisted of Mrs. Amelia Berg and her children and a son-in-law, was a nondescript dog, looking the reverse of his name, which was Sport. But it was noticed that the police of Harrison street did not neglect the dog in handing out good things to eat, and a big bluecoat tenderly carried Sport in his arms to the train.

The story of Sport is a trifling one, but interesting, maybe. When the Berg home, at No. 27 Minna street, went by quake and fire with all goods it contained, the family fled to the ferry, followed by the dog. But poor Sport was promptly kicked off the boat and howled dismally from the pier as the craft pulled out, leaving him to his fate.

Knowing the dog would die anyway, Anna Berg gave a shrill whistle, and hearing the dear, familiar sound, brave Sport sprang into the water. It's two and one-half miles to Oakland, but arrived there Anna obstinately sat on the pierhead and watched not the great conflagration but the tossing waters of the bay—for she knew Sport would make good if he could.

First a tiny spot in the waves, then a round head and then a pair of shiny eyes fixed on Anna, and a boat-hook did the rest.

Sport had made good.

The trials of Chesapeake bay and Potomac river to their crews, began in Norfolk.

EACH VILLAGE IS A VENICE.

Strange Relic of Ancient Customs Prevailing in a German Forest.

One of the most interesting regions in the "old fatherland" is the so-called "Spreewald," the Forest of the Spree, situated not far from the German capital, in the province of Brandenburg. Each village is a little Venice, over every house a little island, and these islets are connected by bridges sufficiently raised to allow boats to pass under them.

Most of the houses, with their barns and stables, rest on piles, and there is generally a strip of artificial terra firma either in front or at the rear of every building. By means of these land strips and of the bridges the slender land communication is kept throughout the district, but most of the business and amusement is carried on through the canals, which not only form the main highways but penetrate and cross and recross the whole region.

It is on these lagoons that all traffic is conducted in boats during the period from spring, when the last vestiges of frost and ice are disappearing, until the end of autumn. You see the letter carrier shoot up and down the canals, performing his duties in his frail craft; the police glide leisurely along the banks, watching every-thing going on; peasants bring the produce of their toil to the nearest towns; children go to and from school; young mothers, dressed in their Sunday clothes, are rowed to church, carrying in their arms a small, deer-looking bundle from which two large eyes in a tiny face stare at the stranger in wonderment—baby is going to be baptized, an important moment with this strongly religious people—Technical World.

DITSON MADE AN IMPRESSION.

Irishman Admitted Explanation as He Understood the Incident.

Years ago members of my family laughed over this incident as related, by an eye-witness, says a writer in the Boston Herald:

On approaching his store one morning, Oliver Ditson, the music publisher, saw a crowd gathering just outside his door, where a very much intoxicated Irishman was trying in vain to step up from the street. Mr. Ditson, seeing the inability of the man to gain the sidewalk, took him by the arm and assisted him up. The intoxicated man was effusive in his thanks, and insisted upon knowing (whom he was indebted for so much kindness).

In vain Mr. Ditson tried to disengage his arm, and at last he said: "Well, I am Mr. Ditson."

"Is that so?" said the other. "I never heard of him. Whose son do you say you were?"

A shout from the bystanders evidently nettled Mr. Ditson, and he said, very decidedly and impressively: "I am Oliver Ditson."

The manner was not lost upon the Irishman, who cast an admiring eye upon Mr. Ditson's immaculate apparel, and said, in the most humble and conciliatory tone: "So you are, so you are, while I am nothing but all-over-mud."

BUILDING FOOD To Bring the Babies Around.

When a little human machine (or a large one) goes wrong, nothing is so important as the selection of food to bring it around again.

"My little baby boy fifteen months old had pneumonia, then came brain fever, and no sooner had he got over these than he began to cut teeth and, being so weak, he was frequently thrown into convulsions," says a Colorado mother.

"I decided a change might help, so took him to Kansas City for a visit. When we got there he was so very weak when he would cry he would sink away and seemed like he would die."

"When I reached my sister's home she said immediately that we must feed him Grape-Nuts and, although I had never used the food, we got some and for a few days gave him just the juice of Grape-Nuts and milk. He got stronger so quickly we were soon feeding him the Grape-Nuts itself and in a wonderfully short time he fattened right up and became strong and well."

"That showed me something worth knowing and, when later on my girl came, I raised her on Grape-Nuts, and she is a strong, healthy baby and has been. You will see from the little photograph I send you what a strong, chubby youngster the boy is now, but he didn't look anything like that before we found this nourishing food. Grape-Nuts nourished him back to strength when he was so weak he couldn't keep any other food on his stomach." Name given by Postum Co. Battle Creek, Mich.

All children can be built to a more sturdy and healthy condition upon Grape-Nuts and cream. The food contains the elements nature demands, from which to make the soft gray filling in the nerve centres and brain. A well fed brain and strong, sturdy nerves absolutely insure a healthy body.

GUARDSKILL MINERS THE WORK OF CONGRESS HE TOOK REBATES

Difficulty Between Constables and Strikers SEVERAL KILLED OR INJURED

Indiana Mining Town is Scene of Fatal Clash Between Marching Strikers and Detail of 12 Members of State Constabulary—Striker Fired His Revolver at Troops, Who Responded With Volley From Carbines.—Six of Wounded in Serious Condition and Three Will Die.

Indianapolis, Special.—The new mining town of Ernest, on the Buffalo, Rochester & Pittsburg Railroad, five miles from here, was the scene of a conflict between a detail of State constabulary and striking coal miners, in which two strikers were killed and eight wounded, three fatally.

Shortly after daylight a body of strikers, headed by a brass band, marched from Union Mines, in Jefferson county, to receive one of the mine officials expected from Panxutawney. On the way to the station the marchers encountered a detail of twelve members of the State constabulary and as they passed a member of the band fired his revolver at the troops.

No one was struck, but the constabulary immediately retaliated with a volley from their carbines.

When the smoke cleared eight strikers were lying on the ground and others had fled precipitately down the hill.

Two of those shot were killed instantly and the six others were seriously wounded.

DENIED BY HARVIE JORDAN.

President of Cotton Association Has Not Advised Farmers to Sell Spot Cotton for Future Delivery.

Washington, Special.—President Harvie Jordan, of the Southern Cotton Association made the following statement: "In view of the present misinterpretation of my position on prices of spot cotton which has been given general circulation in the press during the past few days, I wish to unqualifiedly deny any report that I have advised farmers or others to sell spot cotton for future delivery or to deal in cotton futures at all. My position in favor of higher prices is unchanged and will continue so long as present splendid trade conditions last and no probability of abnormally large crops being produced."

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by conducting to its normal condition, hearing, by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a humming sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

A Rochester Chemist Found a Singularly Effective Medicine.

William A. Franklin, of the Franklin & Palmer Chemical Co., Rochester, N. Y., writes:

"Seven years ago I was suffering very much through the failure of the kidneys to eliminate the uric acid from my system. My back was very lame and ached if I over-exerted myself in the least degree. At times I was weighed down with a feeling of languor and depression and suffered continually from annoying irregularities of the kidney secretions. I procured a box of Doan's Kidney Pills and began using them. I found prompt relief from the aching and lameness in my back, and by the time I had taken three boxes I was cured of all irregularities."
