DON'T THINK YOU ARE OLD.

A certain amount of social life 18 absolutely essential to the old as well as to the young. A woman never grows so old that she ceases to enjoy the company of others, and generally the older she grows the more she enjoys it. It is always a pity to see a man fall into a state which he explains by saying: "Oh, we're getting old, and don't care for so much variety in our lives," says Woman's Life. In the pure selfishness of his soul he always speaks of "us" and "we," as if it naturally follows that because he is getting antiquated his wife must keep pace with him in his decline, Let him keep in touch with the world, and both he and his wife will be the better and the younger for it.

RUSTY FIRE IRONS.

Rusty irons should be well rubbed with sweet oil, left for twenty-four hours, and then scoured with unslaked lime; if the stains are very deep the lime may be laid on as a paste, and left for a day or two. It must be kept in mind that if the rust has thoroughly eaten into the steel nothing will remove it. Prevention in this case is better

than cure, and if fire irons, tops of fenders, etc., are rubbed every day with a piece of tissue paper, rust will not make its appearance.-New York Press.

"A year ago I was a wreck from coffee drinking and was on the point of giving up my position in the school room because of nervousness.

"I was telling a friend about it and she said, 'We drink nothing at meal time but Postum Food Coffee, and it is such a comfort to have something we can enjoy drinking with the chil-

The cook boiled it four or five minutes and it tasted so flat that I was in despair, but determined to give it one more trial. This time we followed the directions and boiled it fifteen minutes after the boiling began. It was a decided success, and I was completely won by its rich, delicious flavour. In a short time I noticed a

Mill Operative Shoots Former Sweetheart.

Laurens, Special. - A sensational shooting affair occurred at Goldville, when John Anderson at close range fired three times upon his erstwhile sister-in-law and former sweetheart, Mrs. Will Summers, and it is singular that she escaped so lightly, 45. one ball passed through her brooch of hair and the other two through her clothing. Mrs. Summers was a Mrs. Anderson until last Sunday, when she married Will Summers. John Anderson had been an unsuccessful suitor for her hand. All parties are mill operatives and board at the same place. To Keep Meat Hot.

If cooked meat is ready for the table before it is required, place it on a dish ready, to be served, and set this over a pan of boiling water. Put a dish over the meat and a cloth over all. The steam keep the meat hot for a long time and does not draw the gravy out or dry it up as would hap pen if it were set in an oven.

A washing board is of great assistance, preferably a wooden one, with fluted board, generally made of zinc. sometimes of wood, against which the clothes are rubbed.

A brush will be found valuable especially for collars, cufis, bands and all firmer articles. After the work is done, the board should be washed and dried with a dry cloth, and put away in a clean, dry place.

#### Stains on Waxed Floors.

To remove stain from waxen floors, wipe the spots with turpentine to remove the wax: then pour a little strong solution of oxalic acid on stains and let remain until the stain lisappears. It may need two applications of acid, wipe dry and wax. If the floor was colored, the color must he restored as the acid not only takes the stains out, but the coloring as

To remove oil stains, soak the spots in benzine and dry. Yellow stains left on white cloth by machine oil can be removed by rubbing the spots with a cloth wet with ammonia before washing with soap.

Laundering Table Linen.

The best laundresses give their table inen liftle, if any, starch, but iron it while it is quite damp, which makes it just stiff enough. Hot water should never be used in laundering fine table linen or embroidered doilles. Cold water and pure white soap containing borax will preserve their whiteness and beauty. Linen will not turn yellow when packed away if it is rough dried in the beginning. It must not be starched, and should be folded. If this method is followed, it can be kept for years in good condition.

Cotton may be distinguished from linen by moistening the tip of the finger and pressing the fabric. If it wets through at once it is linen, but if there is any cotton in the material it will take several seconds to wet through the threads.-New York Post

#### A Harmless Vice.

There has been bitter trouble at Hanwell Asylum of late. Over and over again, the telephone bell has rung, and this question has been put: "Can I speak to the chief lunatic?"

These absurd inquiries annoyed the authorities, who took the necessary steps to locate the seeker for information. He turned out to be a page boy at a club in Piccadilly, whose hobby it was, in his spare moments, to the event of an accident resulting in ring up all sorts of persons and institutions and put to them grotesque queries. A PAINFUL BRUISE. Mr. W. E. Bruner of Richmond, Va., writes: I had been troubled with a severe bruise, which he got from riding a horse bareback and could not cure it, a friend recommended YAGER'S LINIMENT, one application relieved him, and less than a bottle cured it entirely, he says it is the best liniment he ever used.

Mr. Thos. G. Price, stockman for the Monongah Coal and Coke Co., Monongah, W. Vn., writes:—They use 125 to 150 horses and mules, and have used Yagen's Liniment in their stables for years past, and it has never failed to cure. For several months a veterinary worked on a horse with a severe case of sweeny with no results, when three bottles of Yager's Liniment cured it. Mr. Price was laid up for eleven months with rheumatism, seven months in bed; two bottles of YAGER'S LINIMENT put him on his feet

When you need a liniment buy YAGER's and you get the best-keep a bottle in your home and stable, it will be the best investment you ever made. Have it ready for emergencies.
