A MISSOURI WOMAN

Tells a Story of Awful Suffering and Wonderful Relief.
Mrs. J. D. Johnson, of 603 West Hickman St., Columbia, Mo., says: "Following an operation two years ago, dropsy set in, and my left side was so swollen the doctor said he would have to tap out the water. There was constant pain and a gurgling sensation around my heart, and I could not raise my arm above my head. The kidney action was disordered and passages of the secretions frequent. On the advice of my husband I began using Doan's Kidney Pills. Since using two boxes my trouble has not reappeared. This is wonderful, after suffering two years." Sold by all dealers. 50 cents a box. FIFTEEN YEARS OF ECZEMA.

Terrible Itching Prevented Sleep—Hands, Arms, and Legs Affected—Cured in 6 Days by Cuticura.
"I had eczema nearly fifteen years. The affected parts were my hands, arms and legs. They were the worst in the winter time and were always itchy, and I could not keep from scratching them. I had to keep both hands bandaged all the time, and at night I would have to scratch through the bandages as the itching was so severe, and at times I would have to tear everything off my hands to scratch the skin. I could not rest or sleep. I had several physicians treat me, but they could not give me a permanent cure, nor even could they stop the itching. After using the Cuticura Soap, one box Cuticura Ointment and two bottles Cuticura Resolvent for about six days the itching had ceased, and now the sores have disappeared, and I never felt better in my life than I do now." In Mars.

They tell us there are people up in Mars—
What very happy people they must be!
For in a habitation mid the stars
From various vexations they'd be free.
For the chances are that trusts are quite unknown
And that life insurance seeks no gruesome gains;
The octopus has left them quite alone
Since they use canals instead of railway trains.
From tariff talk no doubt they are exempt,
And maybe they escape the problem-plain;
The campaign orator does not attempt
To steal some other fellow's beam away.
The trolley does not spider-web a town;
There is no call for dodging motor-cars;
No Wall street sends their value up or down—
They must be very happy up in Mars!

PUTS THE "GINGER" IN.

The kind of Food Used by Athletes.
A former college athlete, one of the long distance runners, began to lose his power of endurance. His experience with a change in food is interesting.
"While I was in training on the track athletic team my daily 'jogs' became a task, until after I was put on Grape-Nuts food for two meals a day. After using the Food for two weeks I felt like a new man. My digestion was perfect, nerves steady and I was full of energy.
"I trained for the mile and the half-mile runs (those events which require so much endurance) and then the long daily 'jogs,' which before had been such a task, were clipped off with ease. I won both events.
"The Grape-Nuts food put me in perfect condition and gave me my 'ginger.' Not only was my physical condition made perfect, and my weight increased, but my mind was made clear and vigorous so that I could get out my studies in about half the time formerly required. Now most of all the university men use Grape-Nuts, for they have learned its value, but I think my testimony will not be amiss and may perhaps help some one to learn how the best results can be obtained."
There's a reason for the effect of Grape-Nuts food on the human body and brain. The certain elements in wheat and barley are selected with special reference to their power for rebuilding the brain and nerve centers. The product is then carefully and scientifically prepared so as to make it easy of digestion. The physical and mental results are so apparent after two or three weeks' use as to produce a profound impression. Read "The Road to Well-being," in page. "There's a reason."

FARMERS REBEL AT PURE MILK RULE.

Health Department Says Hair on Cow's Tail and Flank Must Be Cut and Lights Put in Troughs—Clean Suits for Milkers.

Florida, N. Y.—Farmers in New York State are receiving from the New York Department of Health letters setting forth the requirements of the department necessary to insure a pure milk supply for the New York City market. The requirements run all the way from cleaning the window panes of the cowpen to cutting the cow's hair.
One farmer who had received a list of the department's requirements declares that if some of the rules are carried out there will be a serious shortage of milk in the market, as to obey orders would mean a great expense and require so much time attending to the animals that very little profit would result to the owners. The farmer said:
"While the price of milk for the coming six months by one big controlling concern has been advanced sixteen per cent. over last year's price, it must be taken into consideration that the price of the principal feeds has gone up twenty-five per cent."

The same man pointed out that to meet the requirements more help would be required and that all this would eat up the little profit that the cow raiser now makes. In addition it is hard to get competent help.

Too Easy For Cleaning.

One requirement to which local farmers make strenuous objection is that requiring that the cowshed be thoroughly cleaned before the cows are milked. As the milking is done very early each morning, perhaps long before daylight, it can be seen that the cleaning process will be almost an impossibility. The farmer is not wealthy, and many of them have not the cash to make the required improvements about their premises.
"Where are our very small present profits to come in?" said an owner of several head after reading the department circular. "Where is the money to come from to put in a 'non-absorbent' floor and six-inch gutters with rounded corners of the non-absorbent material? Are we required to put in lights, so that the feeding troughs be lighted? I am unable to see where it insures pure milk to have the cow see what she is eating, or perhaps have the window clean so that she may gaze pensively over the barnyard while she chews her cud."
"Another requirement is that all the help be provided with clean suits when they go in to make the cows comfortable or relieve them of their milk. My wife would object to that, and farmers' wives never have much to do."

JERKILL-HYDE IN REAL LIFE.

Dublin, Ind.—After witnessing a production of "Dr. Jerkyl and Mr. Hyde" some time ago, Albert Deaver, of Newcastle, attempted to imitate the ravings of Mr. Hyde. He became so adept that his impersonation amazed his friends, and in a few weeks he began to experience the same difficulty that Dr. Jerkyl did in returning to his normal self. A few days ago he seemed to lapse involuntarily into the character of Mr. Hyde, which now apparently has complete control of him. He was taken to the insane hospital.

Pe-ru-na For Kidney Trouble.

Mrs. Geo. H. Sinsler, Grant, Ontario, Can., writes:
"I had not been well for about four years. I had kidney trouble, and, in fact, felt badly nearly all the time. This summer I got so very bad I thought I would try Peruna, so I wrote to you and began at once to take Peruna and Mappin."

"I took only two bottles of Peruna and one of Mappin, and now I feel better than I have for some time. I feel that Peruna and Mappin cured me and made a different woman of me altogether. I bless the day I picked up the little book and read of the kidneys to remove from the blood all poisonous matters. They must be active all the time, else the system suffers. There are times when they need a little assistance. Peruna is exactly this sort of a remedy. It has saved many people from disaster by rendering the kidneys service at a time when they were not able to bear their own burdens."

Peruna is sold by your local druggist. Buy a bottle today.

TO BUILD UP PASTURES.

G. C. Watson of the Pennsylvania College of Agriculture says: How to increase the productivity of run-down pastures is a question that is confronting many farmers in the Middle and Eastern States. When we consider the cause of the unprofitable condition of these pastures we cease to wonder that they are not remunerative. Much land in the United States has been cleared of timber that ought never to have been cleared—land that is worth more to produce timber than anything else. This land has been wholly cleared of forests and either seeded artificially or permitted to become seeded naturally to such grasses and other plants as would maintain themselves under the existing conditions. These grasses grew more or less luxuriantly for a time, but finally the soil becomes so exhausted that they are now wholly unsatisfactory. The question now is how to restore the fertility of which the soil has been robbed. The land must be made more fertile through the application of plant food or the growth of leguminous crops, or both. If the land is not to be plowed but to remain in grass undoubtedly the owner should seed the land with clovers and grasses early in the spring. A mixture of white clover, alsike and red clover would undoubtedly be better than either alone. With these may be mixed timothy and June grass. It is probable that nature will seed the land to June grass, but some assistance will help to make a good turf sooner than if left to nature. A thorough harrowing with a spike-tooth harrow before the seeding would be most beneficial. Immediately after seeding apply a top dressing of barn manure. The manure thus applied will not only furnish plant food for the grass that is already on the land and the young seeding but it will form a mulch to protect the young plants and will materially help them to become thoroughly established. If the land is not mowed this may be applied as the top dressing some time during the fall preceding the spring seeding.

Mrs. Perry Byers, of Mt. Pleasant, Iowa, writes:

"I have been under different doctors' treatment for a long time without relief. They told me I had a fibroid tumor, my abdomen was swollen and I suffered with great pain. I wrote to you for advice, you replied and I followed your directions carefully and today I am a well woman. Lydia E. Pinkham's Vegetable Compound expelled the tumor and strengthened my whole system."

Mrs. Perry Byers, of Mt. Pleasant, Iowa, writes:

"I had a tumor and Lydia E. Pinkham's Vegetable Compound removed it for me. After two doctors had given me up, I was sick four years before I began to take the Compound. I now recommend Lydia E. Pinkham's Vegetable Compound far and near."

Such testimony as above is convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for Tumor Growth as well as other distressing ills of women, and such symptoms as Bearing-down Sensations, Displacements, Irregularities and Backache, etc. Women should remember that it is Lydia E. Pinkham's Vegetable Compound that is curing so many women. Don't forget to insist upon it when some druggist asks you to accept something else which he calls "just as good."

TUMORS CONQUERED

Overwhelming Proof that Lydia E. Pinkham's Vegetable Compound Succeeds.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy Tumor.

The growth of a tumor is so insidious that frequently its presence is wholly unsuspected until it is well advanced. So called "wandering pains" may come from its early stages or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain from the abdomen through the groin and thigh.

If you have mysterious pains, if there are indications of inflammation or displacements, secure a bottle of Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, right away and begin its use. The following letters should convince every suffering woman of its virtue, and that it actually does conquer tumors.

Mrs. May Fry, of 836 W. Colfax Ave., South Bend, Ind., writes:

Dear Mrs. Pinkham:—
"I take great pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I also took the Blood Purifier in alternate doses with the Compound. Your medicine removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They had said that only an operation could help me. I am very thankful that I followed a friend's advice and took your medicine. It has made me a strong and well woman and I shall recommend it as long as I live."

Mrs. E. F. Hayes, of 36 Ruggles St., Boston, Mass., writes:

Dear Mrs. Pinkham:—

A Bumper Wheat Crop.

To produce a "bumper" wheat crop, it is absolutely necessary that you supply to your land one or more of the three elements of plant food which your soil so badly needs: phosphoric acid, nitrogen (or ammonia) and potash. The liberal use of

Virginia-Carolina Fertilizers.

(say 200 to 500 pounds to the acre) will meet this deficiency. You know the highest grades are always cheaper, as they produce greater yields. These fertilizers on account of the phosphoric acid they contain, promote the growth and development of the grain and hastens maturity; the nitrogen or ammonia of which they are a part, increases the growth of leaves and stem and its potash gives strength to the stalk and assists in the development of the grain.

So use VIRGINIA-CAROLINA FERTILIZERS and greatly "increase your yields per acre." Don't buy any substitute brand, which some dealer may tell you "is just as good." If he cannot supply you, write us direct for the goods and tell us your dealer's name.

To Relieve Pain

Sick Women
You should know, if you suffer from any of the pains due to womanly trouble, that it is possible to be relieved or cured by the use of Cardui.
Fifty years, and over, of unexampled success, in the treatment of female ailments, has demonstrated what Cardui can do, for others, since, in that time, it has benefited over a million women.
"Cardui has cured me," writes Mrs. Chas. Williams, of Willow Shoals, Ky., "and I praise it above all other medicines. Before I began to use it, I was almost dead. I had suffered for five (5) years, with female trouble, experienced deathly pains, every month. I had doctors from different places, but none of them did me any good, and ran down to 97 pounds."
"At last I wrote you for advice and began to take Cardui. In three months I was like a new woman. I continued to improve and now I am well, weigh 67 1/2 pounds more, than before I began, and am able to do my work." Try it.
