"I had an itching, tormenting eczema ever since I came into the world, and I am now a man fifty-five years old. I tried all kinds of medicines I heard of, but found no relief. I was truly in a frightful condition. At last I broke out all over with red and white boils, which kept growing until they were as big as walnuts, causing great pain and misery, but I kept from scratching as well as I could. I was so run down that I could hardly do my work. I used Cuticura Soap, Ointment, Resolvent, and Pills for about eight months, and I can truthfully say I am cured. A SOCIETY WOMAN RUNS A BINDERY.

Her Object Is Art and Not Cash.

Mrs. Hobart Chatfield-Taylor is one of the most interesting women in Chicago, says The Delineator for January. It is conceded on all sides that she might take up the reins when Mrs. Palmer lets them fall. She is one of the beauties among Chicago society women, with a beauty which lies more in poise and bearing than in mere facial feature. She is tall and finely modeled, with tastes which are athletic and artistic. Several years ago she startled Chicago by establishing "The Rose Bindery"-she was Rose Farwell before her marriage -which is housed in the Fine Arts Building now, and from that shop come forth many really good examples of the hand-bound book. Hobart Thatfield-Taylor is himself a writer, the author of some society novels, and of one serious work, only recently issucd, concerning Moliere. The Chatfield-Taylors live in Lake Forest, "the Nowport of the West," and entertain whom they please. Artists, writers, prima donnas and actors are numbercd among their good friends, who are always delighted to be their guests.

BRAIN POWER Increased by Proper Feeding.

A lady writer who not only has done good literary work, but reared a family, found in Grape-Nuts the ideal food for brain work and to develop healthy children. She writes:-"I am an enthusiastic proclaimer of Grape-Nuts as a regular diet. I formerly had no appetite in the morning and for 8 years while nursing my four children, had insufficient nour!shment for them.

"Unable to eat breakfast I felt faint later, and would go to the pantry ral eat cold chops, sausage, ecolies, doughouts or anything I happencil to find. Being a writer, at times my head felt heavy and my brein acleep.

"When I read of Grape-Nuts I began cating it every morning, also gave it to the children, including my 10 menths' old baby, who soon grew rs'fat as a little pig, good natured and contanted.

"Within a week I had plenty of breast milk, and felt stronger within two weeks. I wrote evenings and feeling the need of sustained brain power, began eating a small saucer of Grane-Nuts with milk instead of my usual indigestible hot pudding, 150 or cake for dessert at night. Crage-Nuts did wonders for me

### FOR INDUSTRIAL PEACE

President's Letter to Inter-State Commerce Commission Made Public-Serious Industrial Disputes in

Washington, Special.-Serious inlustrial disputes in prospect were in the mind of President Roosevelt when he wrote a letter to the inter-State commerce commission which was made public. He says that information has reached him, that on account of the enactment of drastic aws by Congress and by various State Legislatures, it is regarded as necessary by railroad companies to reduce the pay of their employes. He points out that, under the law, eith. er party may demand the services of the chairman of the inter-State commeroe committee, and of the Commissioner of Labor, as a board of onciliation. He suggests, therefore, that the inter-State commerce commission wage conditions on various cailroads as may relate, directly o indirectly to the possible impending

controversy. The President's Letter. The full text of the President's

letter is as follows: "The White House, Washington, Feb. 18, 1908. To the inter-State commerce com-

mission: I am informed that a number of railroad companies have served notice of a proposed reduction of wages on their employes. One of them, the Louisville & Nashville, in announcing the reduction, states that "the drastie laws inimical to the interests of the railroads that have in by Congress and the State Legislatures," are largely or chiefly responsible for the conditions requiring re-

Under such circumstances it is possible that the public may soon be confronted by serious industrial disputes, and the law provides that in such cases either party may demand the services of your chairman and of the Commissioner of Labor as a board of mediation and conciliation.

These reductions in wages may be warranted, or they may not. As to his the public, which is a vitally interested party, can form no judgment without a more complete knowledge of the essential facts and real merits of the case than it now has or than it can possibly obtain from the special pleadings certain to be put forth by each side in case their dispute should bring about serious interruption to traffic. If the reduction in wages is due to natural causes, the loss of business being such that ('e burden should be and is equitably distributed between capitalist and wage workers, the public of annoying her was fined for being should know it. If it is caused by legislation, the public and Congress should know it, and if it is caused by misconduct in the past financial or other operations of any railroad, then everybody should know it, especially if the excuse of unfriendly egislation is advanced as a method of covering up past business misconduct by the railroad managers, or as justification for failure to treat fairly the wage earning employes of the

company. reover an industrial conflict between a failroad corporation and its employes offers peculiar opportunities to any small number of evil disposed persons to destroy life and property and foment public disorder. Of course, if life, property and public order are endangered, prompt and drastic measures for their protection become the first plain duty. All other issues then become subordinate to the preservation of the public peace, and the real merits of the original controversy are neessarily lost from view. This vital consideraion should be ever kept in mind by all law-abiding and far-sighted mem-

pers of labor organizations. It is sincerely to be hoped, therefore, that any wage controversy that may arise between the railroads and their employes may find a peaceful solution through the methods of conciliation and arbitration already pro vided by Congress, which have prov en so effective during the past year. To this end the commission should be in a position to have available for any board of conciliation or arbitration relevant data pertaining to such carriers as may become involved in industrial disputes. Should concilation fail to effect a settlement and arbitration be rejected, accurate information should be available in order to develop a properly informed pub-

e opinion. I therefore ask you to make such investigation, both of your records and by any other means at your command as will enable you to furnish data concerning such conditions obtaining on tht Louisville & Nashville and any other roads, as may relate. directly or indirectly to the real merits of the possibly impending contro-

Innior Senator From the Palmetto State Dies From Effects of an Operation For Intestinal Trouble.

Washington, Special .- Senator A. C. Latimer, of South Carolina, died here Thursday morning at 9:30 o'clock following an operation for intestinal trouble several days ago. The members of his family were at his bedside when the end came. Arrangements for the funeral have not

Senator Latimer was taken desperately ill Sunday night and was placed in Providence Hospital, where an operation was performed. He showed signs of improvement Monday and Tuesday, but complications set in early and his death soon followed.

Senator Latimer's Career.

Senator Asbury Churchwell Latimer was 57 years of agc. He was a native of South Carolina, having been born in Abbeville county, near the small town of Lowndesville. His boyhood and early manhood were spent on the farm. His first active political office was that of county chairman of the Democratic party of his county in 1890. When the Tillman movement in South Carolina began to take shape in the early 90's Senator Latimer allied himself prominently with the reformers and was nominated for Coogress, to which he was elected over Col. George Johnstone, of Newberry. He served in the Fifty-third, Fifth-fourth, Fifty-sixta and Fifty-seventh Congresses.

He was a candidate to succeed Senator John L. McLaurin in the warm campaign of 1902 and was elected by a majority of 17,700 over former Governor John Gary Evans, ex-Congressman George Johnstone and Wiliam Elliott, ex-Senator John J. Hemphill and State Senator D. S. Henderson. His term as Senator would expire March 3, 1909.

The death of Senator Latimer is of great political importance. It is certain that had he lived he would have had half a dozen opponents in his campaign for re-election next summer.

Avowed Candidates.

Those already in the race against him were, ex-Governor John Gary Evans, of Spartanburg; ex-Congressman George Johnstone, of Newberry; ex-State Senator D. S. Henderson, of Aiken: Col. John J. Dargan, of Sumter, and State Superintendent of Education O. B. Martin, of Greenville. Governor Anscl was spoken of, but some time ago declared his desire to offer for another term for Governor. It is also thought that E. D. Smith, general organizer for the Southern Cotton Association and possibly ex-Governor Heyward would have been in the race. Senator Latimer's death it is thought, will decide ex-Governor Heyward to run.

Prospectivo Candidates. Among the prospective candidates who have develope for the unexpired term to be filled by the Legislature are Representative E. Marion Rucker, of Anderson; ex-Speaker of the House Frank B. Gary, of Abbeville; Senator LeGrand Walker, of Georgetown. Speaker Whaley has been urged for the place, but has very positively declined to enter the list.

Fowler Financial Bill. The principles of the Fowler financial bill were defended by former Secretary of the Treasury Lyman J. Gage, Charles A. Conant, of New York, and Prof. Joseph French Johnson, of the New York University, before the House committee on

banking and currency. Secretary Gage said that we had reached the most important period in the financial history of the country for the past 40 or 50 years and that the solution of the problem depended largely upon the men making up the banking and currency com-

It was early impressed upon him, said Mr. Gage, that a credit currency issued on proper assets, received and exchanged, containing only the amounts of credit, was an effective, useful and economic agency in the industrial progress of the people and was the best system of banking.

Mr. Gage said he thought the financial system ought to be revised from the very beginning. He regarded the Fowler bill as a compre hensive measure which in contrast to the one offered in the Senato has reached the fundamentals.

Continuing, Mr. Gage said have no sympathy at all with the Aldrich bill. I do not think it is curative of our evils. At best it is a patch or a panacea which may once in 10 years be availed of, when the country is in a condition of intense panie or when many of the evils of e panic are deevloping and it may not be effective then. In the meantime, if adopted, it will probably put is to sleep. It is a gentle narcotic hat woods us in false repose from which we will suffer many a nightmare and from which we will awaken at least in truble and real agony." As a banker, he said, he would ask to come under the provisions of the Fowler bill and would look with dread and apprehension if the Aldrich bill should become a law. National Bank Failures.

In response to a Senate resolution introduced by Mr. Tillman, Secretary Cortelyou sent to the Senate a report showing that 306 national banks were placed in charge of receivers between January 1st, 1893, and January 31st, 1908. The aggregate capital of these banks was \$48,736,520. Exclusive of the banks which have failed since October 31st, 1907, the dividends paid on claims proved dence of sorrow and regret on all amounted to \$65,469,012; the offsets allowed and settled amounted to cally join with his political friends \$11,789,982, while theloans paid and and restores the feminine organism other disbursements amounted to \$25,171,166, making \$102,439,160 was returned to shareholders in cash ed to \$24,397,240 of which \$12,098,

Better Tobacco -Bigger Profits The labor is as great to grow and harvest a poor crop as a good one. When you can so surely "increase your yields per acre" and get a far better quality of tobacco by using Virginia-Carolina Fertilizers

why not use them this season? There's no reason why you cannot accomplish the same as thousands of others. Mr. V. C. Love, of Tinkling, Va., says "As a producer of fine tobacco, I do not feel I can say enough for your fertilizer. It makes tobacco that brings me more money than any other fertilizer I can get. I have tried many other brands but none equaled yours. I believe Virginia-Carolina Fertilizers to be the best on the market for tobacco." Virginia-Carolina Fertilizers contain better and higher

grade materials than any other brands of tobacco fertilizer. They will increase the yield per acre, and improve the texture and quality of the tobacco you grow, so you can get a better price per pound than ever before. Much valuable information on tobacco-culture will be found in the new Virginia-Carolina Year Bookor Almanac. Don't fail to ask your fertilizer dealer for a copy, or write our nearest sales office and one will be sent you free.

HICKENS EARN MONEY If you give them help.
You cannot do this unless you understand them and know how to cater to their requirements, and you the knowledge required by others. We ofter this to you for only 26 cents. You want them to pay their own way even if you merely keep them as a diversion. In order to handle Fowls judiclously, you must know something about them. To meet this want we are selling a book giving the experience of a practical poultry raiser for (Only 25c.) twenty-five years. It was written by a man who put all his mind, and time, and money to making a success of Chicken raising—not as a pastime, but as a business—and if you will profit by his twenty-five years' work, you can save many Chicks annually, and make your Fowls earn doilars for you. The point is, that you must be sure to detect trouble in the Poultry Yard as soon as it appears, and know how to remedy it. This book will teach you. It tells how to detect and cure disease; to feed for eggs and also for fattening; which Fowls to save for breeding purposes; and everything, indeed, you should know on this subject to make it profitable, Sent postpaid for twenty-ave cents in samps, BOOK PUBLISHING HOURS is Lectard Et., New York City
