A SURGICAL OPERATION

If there is any one thing that a woman dreads more than another it is a surgical operation.
 We can state without fear of a contradiction that there are hundreds, yes, thousands of operations performed upon women in our hospitals which are entirely unnecessary and many have been avoided by LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

For proof of this statement read the following letters:
 Mrs. Barbara Base, of Kingman, Kansas, writes to Mrs. Pinkham: "For eight years I suffered from the most severe form of female troubles and was told that an operation was my only hope of recovery. I wrote Mrs. Pinkham for advice, and took Lydia E. Pinkham's Vegetable Compound, and it has saved my life and made me a well woman."

Mrs. Arthur R. House, of Church Road, Moorestown, N. J., writes: "I feel it is my duty to let people know what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female troubles, and last March my physician decided that an operation was necessary. My husband objected, and urged me to try Lydia E. Pinkham's Vegetable Compound, and to-day I am well and strong."

FACTS FOR SICK WOMEN.
 For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, and backache.

Mrs. Pinkham invites all sick women to write her for advice. She has graded thousands to health. Address, Lynn, Mass.

Cheshire Cheese for Paris.
 The first Cheshire cheese ever taken by a winning French horse will soon be on its way across the channel.

By the victory of Kuerdie in the Chester Cup recently M. Caillaud secures a cheese weighing 123 pounds. A special "lad" from the stable will accompany the cheese to Paris to see that it does not run away.

The point arises as a "trophy" exempt from duty and if it is not will the authorities make it an excuse for keeping the cheese in quarantine.—London Express.

We must regard with profound satisfaction the decision of the Supreme Court of the United States—though we regret to see that one justice dissented—to the effect that any State may constitutionally enact a law prohibiting the use of the national flag for advertising purposes, insists the New York Tribune. It is as sound in morals and in patriotism as it is in law.

THEY GROW Good Humor and Cheerfulness from Right Food.
 Cheerfulness is like sunlight. It dispels the clouds from the mind and sweeps away the shadows of grief.

The good humored man can pick up and carry of a load that the man with a frown wouldn't attempt to lift.
 Anything that interferes with good health is apt to keep cheerfulness and good humor in the background. A Washington lady found that letting coffee alone made things bright for her.
 "Four years ago I was practically given up by my doctor and was not expected to live long. My nervous system was in a bad condition.
 "But I was young and did not want to die, so I began to look about for the cause of my chronic trouble. I used to have nervous spells which would exhaust me and after each spell it would take me days before I could sit up in a chair.
 "I became convinced my trouble was caused by coffee. I decided to stop it and bought some Postum.
 "The first cup, which I made according to directions, had a soothing effect on my nerves and I liked the taste. For a time I nearly lived on Postum and ate little food besides.
 "I am to-day a healthy woman.
 "My family and relatives wonder if I am the same person I was four years ago, when I could do no work on account of nervousness. Now I am doing my own housework, take care of two babies—one twenty, the other two months old. I am so busy that I hardly get time to write a letter, yet I do it all with the cheerfulness and good humor that comes from enjoying good health."
 Tell my friends it is to Postum I owe my life to-day."

STRIKE OF MINERS

Many Thousands Quit Work Pending Settlement

LITTLE INVOLVED IN DISPUTE

Indications Do Not, However, Point to a Prolonged Strike, as the Differences Between the Miners and Operators Are Slight. But Some Political By-Play in the Miners' Organization and Other Local Differences Keep Contending Factions Apart.

Indianapolis, Ind., Special.—Two hundred and fifty thousand picks dropped from the hands of as many bituminous coal miners of the United States Tuesday evening, not to be used again until a wage settlement has been reached and a scale adopted between the members of the United Mine Workers of America and the coal operators of the various fields. Wednesday morning there were 250,000 men idle. The situation, however, does not indicate a prolonged strike.

An open winter and industrial depression have left a large stock of coal on hand and the differences between miners and operators are very slight. It is practically agreed that the present wage scale will be continued, but some politics in connection with the change in the national officers of the miners' organization, and local differences between operators and miners have resulted in temporary suspension of work until a new wage scale is agreed to either by districts or individual mines.

The Unit System.
 Until two years ago the bituminous coal mining wage of the country was based upon the agreement reached in the central competitive field consisting of Illinois, Ohio, Indiana and western Pennsylvania, and considered a unit. This unit system was broken two years ago when President Mitchell signed a scale with Pittsburg operators, who agreed to pay the scale demanded after operators of the other three States had refused and the miners won their fight. Operators signed the scale individually throughout the country.

Since that time the miners have tried to get back the unit rule, or inter-State agreement, but operators of western Pennsylvania, Ohio, and Illinois, after negotiations lasting all the past winter, have refused to meet in inter-State convention with the miners. As a last resort President Mitchell called the miners in national convention and district settlements were authorized with the present wage scale as a minimum. Failing to agree by district miners were authorized to sign the present scale with operators individually.

Vice President Lewis, who will succeed President Mitchell, is endeavoring to revive the inter-State unit rule. In the meantime district meetings are being held in the various States.
No Trouble in Tennessee.
 Nashville, Tenn., Special.—The situation in the coal fields of Tennessee is quiet and relations between operators and miners are entirely harmonious. The miners are worked on the "open shop" plan and the wage scale is said to be satisfactory. John P. Williams, president of the Bon Air Coal and Iron Company, said that he anticipated no friction in the Tennessee district; that conditions were eminently satisfactory and that the men were entirely satisfied and cheerful.

All Iowa Mines to Close.
 Des Moines, Iowa, Special.—Every coal mine in the State of Iowa will close. Not one of 30 or 35 mines in the State will be worked Wednesday. The shut-down pending the settlement between operators and miners will last at least 30 days. For the past month the mining companies and the large consumers of the State have been storing up coal in preparation for the shut-down.

Sea Wall at Tybee Island May Be Destroyed.
 Savannah, Ga., Special.—The sea wall recently completed at Tybee island to protect the Fort Screven reservation from the encroachments of the water in a fair way to be destroyed. Tuesday's high tide undermined and destroyed eleven of the sixteen foot sections. It is said the wall cost \$50,000 and is 4,000 feet long.

Two Boys Killed by Falling Walls.
 Provincetown, Mass., Special.—While inside the shabby walls of the half-burned Centenary Methodist Episcopal Church late Monday night a search of firewood, two boys were killed by the collapse of a portion of the ruins and a man was seriously injured. The boys were Joseph Oliver and Joseph Holmes. It is believed that Prada will recover. No one else was hurt.

800 Men Cut Off From N. & W. Shops.
 Roanoke, Va., Special.—Eight hundred men were discharged from the Roanoke shops of the Norfolk & Western Railway Tuesday. The shops under normal conditions employ 2,000 men. A notice was posted that in the future the shops will work full time with the reduced force. For the past three months only half time has been made. Every department in the shops is affected by the cut.

To Settle Big Question.
 Syracuse, N. Y., Special.—One of the grave problems now confronting the country will be finally settled by a debate between the wind-jammers of Syracuse University and Wesleyan College. The latter will affirm the question: "Resolved, That aside from the question of amending the constitution, the Federal government should exercise further control over quasi-public corporations doing interstate business."

THE WORK OF CONGRESS

Doings of Our National Law-Makers Day by Day

Serious Charges Made.

Charges of a serious nature against Gifford Pinchot, chief of the Forestry Bureau, were made in the House by Messrs. Smith, California, and Mondell, Wyoming, during the consideration of the Agricultural Appropriation bill. Mr. Smith accused him of entering into a secret understanding with the city of Los Angeles with the view of securing the city valuable water rights in the Owens River Valley, as against the interests of private parties having prior claims. Mr. Mondell denounced him for, as he charged, illegally paying the expenses of forest officials, in attending conventions in the West, in which the government had no part and also the spending of government money to boost his bureau in the public newspapers. Mr. Pinchot was defended by Mr. Pollard, Nebraska, and Mr. Scott, Kansas. The bill was under discussion all day and every line relating to the forest service was fought over, with the result that many provisions were stricken out.

The Agricultural Appropriation Bill.
 After having undergone many changes, the paragraph of the agricultural appropriation bill relating to the bureau of forestry, was finally passed by the House of Representatives. Messrs. Mondell, of Wyoming and Smith, of California, continued their attacks on the bureau and in this they were supported by Messrs. Bonnyne, of Colorado and Cushman of Washington. These embraced a charge that the bureau had created timber monopolies in favor of large operators, illegally assumed jurisdiction over the water rights belonging to the Western States, and juggled with figures in order to obtain large appropriations from Congress. The work of the bureau was vigorously defended by Messrs. Heppner, of Iowa, and Scott, of Kansas. Considerable time was devoted to discussing a proposition by Mr. Humphreys, of Missouri, to increase the appropriation for the investigation of soils, which was carried.

Correspondence Submitted.
 The long expected correspondence between America and Venezuela respecting pending American claims against the latter country was submitted to the Senate and is almost certain to create a party in the House. It will be difficult to digest a vast mass of material which Secretary Root has placed before Congress, but even a cursory inspection of the documents makes it evident that the negotiations have reached a critical phase. The President's realization of that fact is shown by his transmission of the matter to the Senate without any comment, regarding the correspondence and especially Secretary Root's strong presentation of the American case, as sufficient to instantly enlist the attention of Congress.

All the correspondence and documents were referred to the Senate committee on foreign relations. Those members of the committee who have already familiarized themselves with the situation have arranged tentatively a programme which consists of three propositions as follows:

A Tentative Programme.
 Place a prohibitive tariff on Venezuelan coffee, the exports of which constitute 45 per cent of the entire Venezuelan foreign trade and 90 per cent of the coffee is taken by the United States.
 Exclude all importations of asphalt from Lake Bermudez, the product of which has been taken almost entirely by the United States.
 Authorize the President to exercise the general power invested in him to take whatever steps he may consider necessary to treat with Venezuela in the future.

In a letter to Minister Russell on February 28th, 1907, Secretary Root reviewed the difficulties encountered by the various American claimants and instructed Mr. Russell to demand remedy and redress. The letter concluded with this statement:

Root's Letter Strong.
 "You are instructed to bring these several causes of complaint to the immediate and serious attention of the Venezuelan government and insist that the government, which you are accredited to, shall give to each and every demand herein set forth immediate consideration."

In issuing general instructions to the American minister, Secretary Root said:
 "You will call the attention of the government of Venezuela to the fact that notwithstanding the long and unbroken friendship manifested by the United States for Venezuela; notwithstanding the repeated occasions upon which the United States has intervened as a friend in need to relieve and dangerous complications and dangerous complications with other powers; notwithstanding the patience and consideration which has always characterized the treatment of this government towards Venezuela the past few years practically confiscated or destroyed all the substantial property interests of Americans in that country. This has been done sometimes in accordance with the forms of law and contrary to the spirit of the law; sometimes without even form of law; by one device or another, with the action of the government apparently always hostile to American interests, until of the many millions of dollars invested by American citizens in that country practically nothing remains."

Louisiana Gives Felker 15 Years For Burglary.
 New Orleans, Special.—It is not probable that Thomas J. Felker will be turned over to the officers of Norfolk, Va., who say that Felker knows something concerning the murder of a young man of Rome, Ga., at Norfolk last fall. Felker was sentenced to 15 years in the Louisiana penitentiary for burglary.

Expelled From New Orleans' Cotton Exchange.
 New Orleans, Special.—Ernest Gussoni and Luigi Castello, composing the firm of Gussoni & Co., cotton brokers and exporters, were expelled from the New Orleans cotton exchange. The expulsion was announced publicly and officially on the floor of the exchange. The firm has been among the most prominent of the cotton trading firms in this country.

NO CALL FOR BUSINESS PESSIMISM, SAYS FRANKLIN K. LANE

INTERSTATE COMMISSIONER CALLS MR. HILL 'JIM DUMPS' AND GIVES OUT ENCOURAGING STATISTICS.
 Declares That Reports Show the Railroads to Be Earning Much More Per Mile Than in Last Presidential Year—Thinks Depression is Only Temporary.

Washington, D. C.—Some remarks about conditions in the railroad world which were contained in an interview with James J. Hill in New York brought out a response from Franklin K. Lane, a member of the Interstate Commerce Commission. Here is part of Mr. Lane's statement: "The whole world has a great deal to be glad about. The fact that Jim Dumps has not yet superseded the optimistic Uncle Sam as the typical American. A year ago Mr. Hill said that the railroads had failed to meet the necessities of the country, that there had been a steady increase in business which the railroads had not met and that it would be necessary to invest \$5,000,000,000 in providing equipment, double tracks and the country proper. And now because of two or three months the railroads have been able to handle more business than they had in the history of the United States."
 The interview which drew the above comment is as follows:

New York City, James J. Hill, who has arrived in this city, says of the present conditions: "While I cannot permit myself to be too optimistic, I am trying not to be pessimistic. The general recovery in business which has been predicted has not yet manifested itself to any remarkable degree, and it is not to be expected that there are the result of events of many months, and it is not to be doubted but correspondingly gradual."

RAILROADS NEED 300,000 MEN FOR REPAIR WORK

Americans Preferred in Work of Extending Lines—Managers Admit They See Many Signs of Improving Business.
 Chicago.—The "unemployed," who are congesting the cities, subsisting upon charity and menacing the peace of various communities, if they really want work, can find it with the railroads of the United States at once. This is the opinion expressed here by leading railroad men.

The men are to be employed in extending lines, rebuilding bridges, repairing tracks, building extensions and making other improvements. The railroads must find 300,000 men to repair roads, bridges, furnish up existing tracks, build extensions and make other improvements. PRESIDENT ROOSEVELT EASES UP ON RAILROADS

Will Not Enforce the "Commodity Clause" Part of Rate Law Pending Supreme Court Action.

Washington, D. C.—The Government will not prosecute railroads for failure to comply with the "commodity clause" of the railroad law pending a decision of the Supreme Court. That decision has been arrived at, it is understood, after careful consideration by the President, and he has accordingly directed the Department of Justice to bring a test case as soon as possible after May 1, the day when the law becomes effective. It is understood that the Government will not prosecute railroads for failure to comply with the "commodity clause" of the railroad law pending a decision of the Supreme Court.

RAISED FROM A SICK BED

After Being an Invalid With Kidney Disorders For Many Years.

John Armstrong, Cloverport, Ky., says: "I was an invalid with kidney complaints for many years and cannot tell what agony I endured from backache. My limbs were swollen twice natural size and my sight was weakening. The kidney secretions were discolored and had a sediment. When I wished to eat my wife had to raise me up in bed. Physicians were unable to help me and I was going down fast when I began using Doan's Kidney Pills. After a short time I felt a great improvement and am now as strong and healthy as a man could be. I give Doan's Kidney Pills all the credit for it."

HOW TO APPLY PAINT.

Greatest care should be taken when painting buildings or implements which are exposed to the weather, to have the paint applied properly. No excellence of material can make up for carelessness of application, any more than care in applying it can make poor paint wear well.

The surface to be painted should be dry and scraped and sandedpapered hard and smooth. Pure white lead should be mixed with pure linseed oil, fresh for the job, and should be well brushed out, not flowed on thick. When painting is done in this manner with National Lead Company's pure white lead (trade marked with "The Dutch Boy Painter"), there is every chance that the job will be satisfactory. White lead is capable of absolute test for purity. National Lead Company, Woodbridge Building, New York, will send a testing outfit free to any one interested.

Rheumatism Kept Awake 7 Weeks Until Cured By Minard's Liniment
 Minard's Liniment Mfg. Co., Dear Sirs,—Your Minard's Liniment received an order from me for a large quantity. I used it at once, as it would have saved me a lot of pain and also a lot of money. With the first application I was able to lay out and sleep in bed—what I had not done in seven weeks—as I had been forced to sit on the side of the bed with my feet resting on the floor.
