A Queer Lesson.

"On the slow and cheap ships," said a purser, "the souvenir thief does no harm, but on a famous Atlantic liner, where records are broken and tiptop prices abound, the amount of stuff that disappears is shocking.

"Only things with the boat's name on-champagne glasses, ink wells, curling tongs, buttonhooks, and so forth. And what are we to do about it?

such things are usually settled. "'We must teach Lady Blank a lesson,' he growled. 'At the same time scandal must be avoided.' He thought a moment, then said to the stewardess: Take one of the ink wells and leave the other. That'll show her."-Philadelphia Bulletin.

Crafty Master Fox.

A fox was one day seen coming out of a pile of stones near the waterside. He hid in the heather for awhile and then pushed out someones on one plant: Toilet set, given thing on the water, which proved to be a bunch of moss. The wind took it into the middle of the lake and blew it past some ducks sitting on the surface. Having watched his venture for perhaps ten minutes with apparent satisfaction and observed that it neared the ducks without arousing their suspicions, our friend began to collect another and larger bunch of moss, which he allowed to float in the same direction, but this time he swam behind it, taking care to show only his eyes and nose above water. Just as it was passing the group of ducks he made a sudden dive, pulled down a bird and swam back to shore under water. Arrived there, he carried the duck to the pile of heather, where his wife and daughter were no doubt waiting to enjoy the fruits of his labors .- "Forty-five Years of Sport."

The Ideal Trunk.

The lady had looked at about twenty trunks without finding one to her satisfaction. At length the salesman suggested that if she could give him an idea of what she had in mind he might be able to suit her.

"I want," said the lady impressively, "a smaller trunk than this, but one that holds more."-St. Louis Republic.

Mr. Farmer,

We keep abreast of the times and offer the latest and best implements. We have made a study of the farmers' needs and the implements that supply those needs, always keeping ty on the south by lands of the Poor the best that the market affords. The season for deep plow ing and sowing grain is now here and we have just received

a large shipment of the celebrated John Deere plows. All we ask is that you buy one of these plows. After using it you will have no other.

Farmers who are informed as to the implements that give the best results are using Deere's Harrows. They are strong

flexible and the teeth can be set at any angle to suit the character of the ground to be harrowed.

We present two cuts of first-class implements that are needed now by every farmer who does already own them. We can order anything you want, if we haven't it in stock.
