If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month an" suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a really weakness. I sive you full permission to use my testimonial." a well woman. I give you full permission to use my testimonial."

—Mrs. Lena Carmocino, Hudson, Ohio. R. F. D. No. 7.

St. Regis Falls, N. Y.—"Two years ago I was so bad that I had to take to my bed every month,

so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your medicine and good advice. You may use my letter for the good of others."—Mrs. J. H. Breyere, St. Regis Falls, N. Y.

There is absolutely no doubt about the ability of this grand old remedy, made from Ithe roots and herbs of our fields, to cure female diseases. We possess volumes of proof of this fact, enough to convince the most skeptical.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

# TAX ON EXCHANGES

Commissioner of Corporations Smith's Suggestions.

#### WOULD REPORT TO PRESIDENT.

Cannot Determine How to Eliminate Evil and Retain Good of the Future Transactions.

Washington, Special.-A Federal tax on the transactions carried on by the exchanges of the country is regarded by Herbert Knox Smith, commissioner of corporations, as offering in some measure a "constitutional and available means of regulation" of these bodies. But in a report submitted to President Taft Friday, Mr. Smith acknowledged that he is somewhat at a loss to determine exactly how "to eliminate the evil and retain the good" of the future transactions of the exchanges.

Information requested by the President as to transactions on produce Mr. Smith's report on the subject. Taking up the various classes of tion. transactions in farm commodities, the commissioner holds that "spot" and "intended delivery" future transactions are proper; that "bucket shop" transactions are "unquestionably evil and indefensible," and that "hedging" transactions are necessary and proper, being really not speculation, but an "avoidance of speculation."

But as to speculation "where neither party intends to deliver or receive, but where the contract is made on a regular exchange, the rules of which make delivery and receipts obligatory, if demanded," Mr. Smith him of by acts of Congress. asserts that this class of future transactions "presents a difficult problem. Its existence probably involves the existence of the future exchanges themselves."

The trouble with exchange speculaion, says Mr. Smith, is not with the theory but with the actual practice.

The commissioner bases his comments in regard to speculation chiefly on recent investigation of the cotton exchanges. The theoretic benefits of exchange transactions, he says, are often nullified by improver conditions on the exchanges themselves and cites the New York cotton exchange, the basic defect of which he says is its so-ealled "fixed difference" system. The false quotations gram through. produced under this system, he says, frequently decrease prices of cotton received by the farmer.

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had

not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well cat shavings for all the good he gets out of his food. The result is that the stomach grows "week" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agenies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."
