PRESIDENT AT PLAY

HE IS RESTING IN AUGUSTA, GA. PREPARING FOR HARD WORK OF EXTRA SESSION.

MRS TAFT AND HELEN THERE

Has Not Begun on Message to Extra Session of Congress-The Pardon Cases of Morse and Walsh Will be Considered by the President.

Augusta, Ga.-President Taft rested from the somewhat strenuous beginning of his vacation when he spent nearly four hours on the golf links. The President was thoroughly tired out when he left Washington. The busy day he spent in Atlanta, when he was steadily on the go for 12 hours, did not tend to help matters and he felt the fatigue of the past few months quite keenly. The President hopes during the coming week, however, to greatly benefit from the present outing. He will not attempt any work on his message to the extra Corgress until after returning to Washington, where he will have an opportunity to consult with both the senate and house leaders as to the program. It is not known as yet whether the President will attempt to dispose of the Morse and Walsh pardon cases. He brought the voluminous papers in both cases with him but has not opened either set.

It is a coincidence in connection with the case of Charles W. Morse that the convicted banker's attorney, Martin W. Littleton, of New York, is enjoying a two weeks' vacation here prior to going to Washington, where he will assume his new duties as a Representative in Congress from the

Oyster Bay district. Two reports regarding the Morse case were current here. One was to the effect that the pardon division of the department of justice had recommended that Morse's sentence of 16 years be reduced to 5 years and that Attorney General Wickersham had overruled this recommendation with

an adverse report on the application. The second report was that just the reverse of this was true, it being stated that the pardon division had made an adverse report and the attorney general had recommended commutation to 5 years. President Taft said he had not read any part of the papers. What recommendations have been made in the case of, John R. Walsh could not be learned. Mrs. Taft and Miss Helen Taft have arrived from Washington. Thier teain was an hour and a half late

LIVED LONG WITHOUT EATING COUNTY TO CUUNIY

Men and Animals Have Made Some Remarkable Fasts a Matter of Record.

The record for fasting, so far as humanity is concerned, is held by Granie, a French murderer, who determined to starve himself to death and from the day of his arrest refused to eat. In spite of every effort on the part of his warders, who first tried tempting him to eat by placing the most dainty meals in his cell, and when that failed, attempted feeding him by force, he held out for 63 days, at the end of which time he died. Up to then the longest authenticated fast on recard was that accomplished by Giovanni Succi, who fasted at the Royal Aquarium, London, for 45 days. But these records sink into insignificance when compared with the fat pig of Dover, enshrined in Dr. W. B. Carpenter's "Manual of Physiology." This pig weighed 160 pounds and was entombed for 160 days by the fall of a portion of the chalk cliffs. When dug out it weighed only 40 pounds. but to the surprise of its owner was alive.

Kind but Careless. John P. Irish, the San Francisco orator and officeholder, was entertaining Joaquin Miller, the poet, one night. Upon hearing a particularly funny story by the host the poet fell off his chair in a paroxysm of mirth. Irish thought the poet had a seizure of some kind and he rushed to the sideboard, took a bottle of whisky and stuck the top of it into Miller's mouth. hoping to revive him.

Presently Miller waved his hands feebly and Irish removed the bottle. "What is it?" asked Irish solicitously.

"Remove the cork!" whispered the poet, hoarsely. "Remove the cork!"-Saturday Evening Post.

PHYSICAL WRECK RESTORED TO **HEALTH BY GREAT KID-NEY REMEDY**

Some time ago I began the use of Dr. Kilmer's Swamp-Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. The doc tors who treated me made me believe that my great sufferings were due to female trouble. I was so bad at times I would faint away and had sinking spells.

Finally a new doctor was called in and
he said that I had kidney trouble and gave me medicine, of which I took several bottles. I obtained some relief from this but I was getting weaker all the time; I could not sleep and suffered so much pain that my husband and children had to lift me in and out of bed. After this time two friends sent me word to try Dr. Kilmer's Swamp-Root, which I did, and I am glad to state that the first dose gave me great relief After taking the third dose I was helped into bed and slept half of the night.

I took several bottles of Swamp-Root and I feel that I owe my life to this wonderful remedy. The two family doctors said that I could not live three months; my urine was in a terrible condition-thick and slimy-and I would have to be helped in and out of bed ten to twenty times every night. After taking Dr. Kilmer's Swamp-Root for two days I was entirely free from getting up and could sleep soundly.

MRS. D. E. HILEMAN Tunnelton, West Va. Personally appeared before me this 11th of September, 1909, Mrs. D. E. Hileman, who subscribed the above statement and made oath that the same is true in substance and in fact.
