\$25.00 IN GOLD

FOR Edgefield County CORN GROWERS

Encouraged by the success of last year's corn contest and in order to give additional stimulus to the production of corn in the county, The Advertiser will conduct another corn contest this year.

FIRST PRIZE: Fifteen dollars in Gold Coin will be given the Edgefield county farmer who grows the greatest number of bushels on of corn on one acre of land during the year 1911.

SECOND PRIZE: Ten dollars in Gold Coin will be given the farmer in Edgefield county who grows the second largest number of bushels of corn on one acre during the year 1911.

The foregoing prizes are offered unconditionally and without embarrassing or complicated restrictions. The contestants can plant their corn when they please, fertilize it as they please and cultivate by whatever system they please. Only one requirement is made: The acre must be in one continuous plot of ground and not composed of two or more rich spots selected from different parts of the farm. The area planted must NOT be less than one acre.

The rules for measurement of the land and corn next fall will be more rigid than in the past contests, and will not only be printed on the judge's certificates, but will be published in several issues of the paper, so that everybody can read them and become familiar with them.

Who'll win the Gold this Year

Prizes will be awarded at the County Fair.
