After a special session of fourteen days, in which 316 witnesses were examined, the Lincoln county, Mississippi grand jury, which has been investigating the alleged vote-selling scandal of the August Democratic primary, finally adjourned having turned in 56 true bills, not all of which, however, charge vote-trafficking. Seven arrests have been made. The names of many prominent persons, both in church and politics, have been connected with the affair.

The central bureau for the validation of cotton bills of lading recently established in New York City is still in operation, despite rejection of the plan by Southern bankers and cotton shippers at New Orleans. It was said at the bureau that no action would be taken pending the return from the south of Charles S. Haight, American representative of the Liverpool committee. New York bankers think the action of the Southern conference effectually put an end to the validation plan.

Samuel E. Hyde, confessed murderer of his young wife and her father, was convicted by a jury and sentenced to be hanged at Anderson, S. C. The reading of the verdict had no effect on the prisoner, who said, later, the finding was a just one; that he was guilty of murder and expected to be convicted. Under the laws of South Carolina, pleas of guilty in murder cases are forbidden. The jury was out less than an hour.

The cotton interests of the South will have absolutely nothing to do with the Liverpool spinners' scheme of a New York clearing house for cotton bills of lading. This was settled beyond peradventure when ringing resolutions denouncing the scheme was passed by the representatives of ~uthern cotton interests gathered at

An organization of a \$4,000 concern, known as the Southern Cotton Corporation, with an eye to controlling the marketing of the cotton from the South, was announced at Macon, Ga., by George Dole Wadley of Bowling Brooke, one of the wealthiest men in Georgia, and controlling financial interests of great extent. The conquest of the Atlantic, the most ambitious exploit yet undertaken by an aviator, is contemplated by a Danish airman, who describes his plans in a letter published in The Nord Lyset, a Danish newspaper of Brooklyn. This aviator writes that he has enlisted the necessary financial aid and made arrangements to fly next spring from Copenhagen to New York, resting only at London and Queenstown, and upon ships stationed at intervals across the Atlantic ocean.

Two lives were the toll paid by the world of aviation. Frank Miller, a daring young birdman, was cremated in mid-air, at Troy, Ohio, and "Dare Devil" Castellane lost his life in anaccident that befell him three-quarters of a mile above ten thousand spectators at Elmira, N. Y. In another accident. Vangie Ludwig was severely bruised when his aeroplane failed to work and landed in the midst of a yard of horses, causing forty runaways into a crowd of thousands of people.

If present plans do not miscarry, the stentorian voice of John L. Sullivan, the former world's champion heavyweight, may be heard ringing in the lower halls of congress within a year or two. The candidacy of the one-time champion heavyweight prize fighter of the world has been launched by a number of his Democratic neighbors, and Mr. Sullivan will make a formal statement from his Masaschusetts farm within a few days, it is

Several of the bodies were so badly mutilated that identification was possible only by fragments of clothing. Six bodies were discovered on the engine pilot and two other bodies were hurled through a flagman's shanty with such force as to overturn the structure. One of these was Miss Finn, who was projected through one of the side walls of the house and was breathing when removed. She died a few hours later.

This is the age of substitution, and women who want a cure should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little more profit.

Women who are passing through this critical period or who are suffering from any of those distressing ills pe-culiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for fe male ills.
