A National Searchlight

THE SENIOR PARTNER was disturbed. The little boy of one of the firm's traveling men was critically ill. The distracted mother begged that her husband be notified.

A Long Distance Bell Telephone call located him, but he had gone to a neighboring town to sell goods.

Would the Telephone people reach him? The Telephone people would try. They found him and he started for home at once.

The Universal Bell Telephone System is a national searchlight. It seeks the distant person for you and locates him if it is possible.

By the way, have you a Bell Telephone?
