Missionary Societies Active.

On last Saturday, especially, and several other days during the week, the Woman's Missionary Societies of the association held a number of meetings at the churches and homes of the various sections. The one which the writer attended was a parlor meeting of the Rehoboth society at the pretty and hospitable country home of Mr. and Mrs. Gus Wash. Having been invited to partake of the mid-day meal, as well as attend the meeting of the society, we reached our friends home in ample time, and were delighted at the kind reception of our host and hostess, and to see their four very pretty and interesting children, Ruth, William, Aline and Gladys, all under seven.

After a delightful dinner, there was but a short period of time before the buggies began to arrive, bearing within large numbers of interested friends to attend the mission society. Among the first to arrive were Rev. and Mrs. E. T. Snuggs and Mrs. J. T. Littlejohn, the first two, having become well known in our county as missionaries of Canton, China, and being associated in that city with our missionaries Mr. and Mrs. Lake. These friends have visited a number of places in our county and we believe have helped the work materially by the information they have brought, and the real spirit of missions which they manifest. These house to house gatherings among the women of our country churches are very productive of good, and it has a splendid social as well as religious feature. On this occasion a large number of the Rehoboth society were present, as well as a number of gentlemen, and the meeting was led by Miss Mabelle Strom, who has succeeded Miss Carrie Burkhalter so long the noble and efficient leader of the Rehoboth society. Mr. and Mrs. Snuggs made very effective talks, and at the close of the meeting delightful refreshments were served.

The opening of the mite boxes and monthly payment of dues, raised the required amount, and this noble band has already begun the agitation of a new organ for Rehoboth church, which doubtless will soon be installed.
