CLEARING WALKS AND ROADS

Adjustable Scraper Is Useful for Many Kinds of Work on Farm During Winter Season.

My adjustable "V" scraper or crowder proves useful for many kinds of work, and especially in winter for clearing walks or roads of snow, says a writer in Missouri Valley Farmer. The sketch, I think, explains its construction fully. It is well to cover the prow with a piece of sheetiron. The

ALFALFA LIKES DRY CLIMATE

Plant Is Native of Semi-Arid Regions of Central, Asia-Thrives Under Irrigation.

Alfalfa is a plant which loves dry atmospheric conditions and does not do well in humid climates, says a report from the Pullman (Wash.) exarid regions in Central Asia, and where it makes its greatest success under irrigation the air is always dry to an excessive degree.

It is true that it is being grown in some of the eastern states, but it does not begin to compare with that grown under irrigation or under dry-farming

Didn't Give Him the Chance. Schopenhauer, when staying in Geneva used to go every day to a table d'hote at which now and then appeared other distinguished visitors. Once Ludy Byron sat next to him.

Don't Delay Helping Others.

To do the right thing a little late, has much the same result as if one did the wrong thing. A letter of sympathy delayed several months, means very little to the recipient. An offer of helpfulness coming when your friend has struggled through the worst of her difficulties calls out very little gratitude. Sometimes a delay of five minutes will spoil a piece of helpfulness as completely as if it had been postponed for years. Learn to do the right thing at the right time.

Strange Malady.

Sponge divers in the Mediterranear are often afflicted by a severe paralysis which makes them crippled when in their native element, but is said to disappear entirely when the victim again dives to the sponge beds, a circumstance enabling many apparently disabled men to remain productive and aseful members of the communities.

Central committees to promote the sale of the bonds have been appointed in each county of the state. Men everywhere are giving their time and efforts toward helping the government float this loan; knowing well that the fate of the country, and perhaps of the war, is resting upon this bond issue. The banks have also put their shoulders to the wheel. Practically every bank is in a position to accept applications for bonds, and every man who wishes to subscribe has only to apply to his banker.

The appeal which the Liberty Loan is making to the farmers, merchants and business men is not only patriotic; though the committee feels that ceive subscriptions all over the state. every man should want to support his government to the extent of buying a the government that all men between bond.
